

Certain statements contained in this MD&A constitute forward-looking statements and information within the meaning of applicable securities law. Other statements concerning First Capital's objectives and strategies and Management's beliefs, plans, estimates and intentions also constitute forward-looking statements. Forward-looking statements can generally be identified by the expressions "anticipate", "believe", "plan", "estimate", "project", "expect", "intend", "outlook", "objective", "may", "will", "should", "continue" and similar expressions. The forward-looking statements are not historical facts but, rather, reflect First Capital's current expectations regarding future results or events and are based on information currently available to Management.

Certain material factors and assumptions were applied in providing these forward-looking statements. Forward-looking information involves numerous assumptions such as rental income (including assumptions on timing of lease-up, development coming online and levels of percentage rent), interest rates, tenant defaults, borrowing costs (including the underlying interest rates and credit spreads), the general availability of capital and the stability of the capital markets, the ability of the Trust to make loans at the same rate or in the same amount as repaid loans, amount of development costs, capital expenditures, operating costs and corporate expenses, level and timing of acquisitions of income-producing properties, the Trust's ability to complete dispositions and the timing, terms and anticipated benefits of any such dispositions, the Trust's ability to redevelop, sell or enter into partnerships with respect to the future incremental density it has identified in its portfolio, number of units outstanding, the Trust's ability to qualify as a real estate investment trust under the Tax Act, and numerous other factors. Management believes that the expectations reflected in forward-looking statements are based upon reasonable assumptions; however, Management can give no assurance that actual results will be consistent with these forward-looking statements.

These forward-looking statements are subject to a number of risks and uncertainties that could cause actual results or events to differ materially from current expectations, including the matters discussed in the "Risks and Uncertainties" section of this MD&A and the matters discussed under "Risk Factors" in First Capital's current Annual Information Form. Factors that could cause actual results or events to differ materially from those expressed, implied or projected by forward-looking statements, in addition to those factors referenced above, include, but are not limited to: general economic conditions; real property ownership; tenant financial difficulties, defaults and bankruptcies; the relative illiquidity of real property; increases in operating costs, property taxes and income taxes; First Capital's ability to maintain occupancy and to lease or re-lease space at current or anticipated rents; the availability and cost of equity and debt capital to finance the Trust's business, including the repayment of existing indebtedness as well as development, intensification and acquisition activities; changes in interest rates and credit spreads; organizational structure; changes to credit ratings; the availability of a new competitive supply of retail properties which may become available either through construction, lease or sublease; the Trust's ability to: execute on its three-year Strategic Roadmap - Discipline | Stability | Growth, including with respect to (i) dispositions, (ii) financial growth and (iii) leverage reduction objectives, capitalize on competitive advantages, optimize portfolio assets and accelerate value delivered to its investors and stakeholders, remain ahead of changing market conditions, surface unrecognized value, reach its demographic targets and ensure the Trust retains its best-in-class position; unexpected costs or liabilities related to acquisitions, development and construction; geographic and tenant concentration; residential development, sales and leasing; compliance with financial covenants; changes in governmental regulation; environmental liability and compliance costs; unexpected costs or liabilities related to dispositions; challenges associated with the integration of acquisitions into the Trust; uninsured losses and First Capital's ability to obtain insurance coverage at a reasonable cost; risks in joint ventures; unitholder activism; investments subject to credit and market risk; loss of key personnel; the ability of tenants to maintain necessary licenses, certifications and accreditations and risks and uncertainties related to the effects of pandemics, epidemics or other outbreaks further described in this MD&A.

Readers, therefore, should not place undue reliance on any such forward-looking statements. Further, a forward-looking statement speaks only as of the date on which such statement is made. First Capital undertakes no obligation to publicly update any such statement or to reflect new information or the occurrence of future events or circumstances, except as required by applicable securities law. All forward-looking statements in this MD&A are made as of February 10, 2026 and are qualified by these cautionary statements.

## COMPANY PROFILE

First Capital owns and operates, acquires, and develops open-air grocery-anchored shopping centres in neighbourhoods with the strongest demographics in Canada.

# Business and Strategy Overview

## Our business

First Capital Real Estate Investment Trust, with **\$9.3 billion** in assets, owns and operates, acquires, and develops open-air grocery-anchored shopping centres in neighbourhoods with the strongest demographics in Canada.

---

## Our purpose

**Through the expertise and collaboration of our team, we create thriving properties which generate value for tenants, investors and our neighbourhoods. Thriving properties...Thriving neighbourhoods.**

Our open-air grocery-anchored shopping centres are designed to be vibrant places that meet the needs of everyday life- they bring together people, retail shops and services, as well as public art, with the benefit of close proximity to public transit.

---

## Our operations

## Our values and our corporate responsibility and sustainability program define our culture

Freedom to challenge  
the status quo

### Excellence

Be the best  
at what you do

### Accountability

Deliver what  
you promised

### Passion

Love what you do

# DISCIPLINE | STABILITY | GROWTH

## Our investment strategy

Creating thriving properties in neighbourhoods with the strongest demographics that drive sustainable growth in cash flow and capital appreciation of our best in class portfolio.

We achieve this by:

- Investing in high-quality, grocery-anchored shopping centres in targeted urban and top-tier suburban neighbourhoods
- Fully integrating retail with other uses to create thriving urban properties
- Optimizing the portfolio through active asset management
- Surfacing substantial value in our incremental density pipeline through the rezoning and development process
- Focusing our capital allocation on crystallizing created value in certain development and density sites and select income properties that are not expected to contribute to our key objectives
- Actively managing and strengthening our balance sheet to maintain financial strength and flexibility and a competitive cost of capital with the key objectives to drive FFO, NAV and distribution per unit growth

# DISCIPLINE | STABILITY | GROWTH

## Our target markets

We target specific urban and top-tier suburban neighbourhoods within Canada's largest and fastest growing cities.

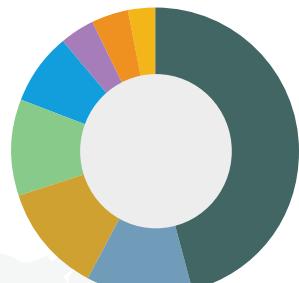

These neighbourhoods are located in Toronto, Montreal, Vancouver, Edmonton, Calgary and Ottawa. We have achieved critical mass in each of our target markets, which helps generate economies of scale and operating synergies, as well as deep local knowledge of our properties, tenants, neighbourhoods and markets in which we operate.

Within each of these markets, we own some of the best located properties in neighbourhoods with strong demographics that we expect will continue to get even stronger over time, thereby attracting the most desirable tenants with the highest rent growth potential and the most compelling opportunities for value creation.

## Creating thriving properties for everyday life

Currently, over 90% of our revenues come from retail tenants who provide the essential products and services consumers need everyday, including grocery stores, pharmacies, liquor stores, banks, restaurants, cafés, fitness centres, medical services, childcare facilities and other professional and personal services. In each of our properties, we strive to assemble the right mix of complementary uses to best serve the local community and contribute to thriving urban and top-tier suburban neighbourhoods.

## Actively managing our assets

Proactive management of our portfolio is a core competency and an important part of our strategy.

Proactive management means we continually invest in our properties to ensure they retain their market leading position. We strive to maintain the highest standards in design, appearance and customer amenities in our properties including the addition of public art installations and enhancing connectivity to transit and the local community. We are highly focused on maximizing the value and competitive position of our properties, by proactively evolving our tenant mix to attract the right tenants with the highest rent growth potential.

Our executive leadership team is centralized at our head office in Toronto, which ensures that best practices, procedures and standards are applied consistently across our operating markets through local teams.

**33 public art installations across our portfolio**

# Corporate Responsibility And Sustainability

## **Corporate Responsibility and Sustainability ("sustainability") at First Capital encompasses all aspects of our environmental, social and governance (ESG) practices.**

Sustainability has always been integral to the responsible management of every aspect of our business and the mitigation of various risks. By taking a holistic approach to ESG, we are focused on reducing our environmental impact while creating thriving and dynamic urban neighbourhoods and at the same time, delivering long-term value for our stakeholders. Simply put, it makes good business sense.

To support our commitment to sustainability leadership, we have in place robust capabilities to measure and report on our progress and to continually assess and improve our environmental programs each year. We recognize that our leadership in sustainability practices is important to our tenants and investors, as well as our employees and the communities in which we operate. We are committed to transparency and ensuring that our sustainability reporting is accurate, meaningful and accessible to all stakeholder groups. We employ a full-time Vice President of ESG who is responsible for leading sustainability reporting initiatives and driving continuous ESG engagement and improvement across our organization, including through co-chairing our ESG Taskforce with our Chief Operating Officer.

First Capital published its first corporate responsibility and sustainability report in 2009. Since 2010, we have had a third-party conduct limited assurance on selected sustainability performance indicators, including greenhouse gas emissions and energy use. We have used the Global Reporting Initiative (GRI) framework for corporate responsibility reporting since 2011.

In addition to GRI, we include disclosures aligned with the Sustainability Accounting Standards Board (SASB), the United Nations Sustainable Development Goals (UNSDGs), and the Task Force on Climate-related Financial Disclosures (TCFD). We also respond annually to the Global Real Estate Sustainability Benchmark (GRESB) survey and the Carbon Disclosure Project's (CDP) Climate Change questionnaire.

We recognize that our employees are at the core of our success and have well-developed programs promoting career development and supporting continuing education, including through tuition subsidies. First Capital encourages employee engagement and innovation through a value awards program, among other initiatives and also encourages employees to become unitholders through a unit purchase plan. First Capital is committed to the highest ethical standards, upholding a strict Anti-Corruption Compliance Policy and Code of Conduct and Ethics. As an entity with a social conscience, we are committed to giving back to communities in which we operate by participating in charitable initiatives that support vulnerable parts of the population through our FCR Thriving Neighbourhoods Foundation and by promoting environmental improvements that help neighbourhoods thrive.

We believe that sound and effective governance is essential to our performance and have adopted a governance framework that reflects our values, ensures that effective governance practices are followed and that the Board of Trustees (the "Board") functions independently of Management. First Capital endorses the principle that the Board should have a balance of skills, experience and diversity. We believe that diverse Boards have enhanced decision-making abilities that lead to improved oversight and promote better overall governance.

**Our strength in ESG standards and disclosure is validated through numerous ratings, including achieving:**

**Ranked 4th** in the 2025 GRESB Development Benchmark with a score of 94

**Ranked 6th** in the 2025 GRESB Standing Investments Benchmark with a score of 80

**'A' rating**, in the Morgan Stanley Capital International (MSCI) ESG Ratings assessment in 2025

**Awarded Gold Green Lease Leader Recognition** by the Institute for Market Transformation (IMT) and the U.S. Department of Energy's Better Building Alliance (2023-2025)

**Awarded Prime status for Corporate ESG Performance** by Institutional Shareholder Services in 2025

# Environmental

## Reduce our carbon emissions and energy use

- Greenhouse gas (GHG) emissions reduction target approved by Science Based Initiative (SBTi): **46% reduction in Scope 1 & 2 emissions** by 2030 (2019 base year) with a long term goal of reaching net-zero by 2050, or sooner
- **19% reduction in Scope 1 & 2 GHG emissions** since 2019 base year (2019-2024)
- Following the Climate Action Forum, **FCR published the Climate Action Roadmap** which outlines six key pathways with 22 actionable steps that retail tenants, landlords, and their partners can take – both independently and together – to overcome barriers and accelerate decarbonization
- Recognized by Sustainalytics as a **Regional ESG Top-Rated Company in 2025**

## Promote sustainable transportation

- **99% of our portfolio** is located within a 5-minute walk of public transit
- Average Walk Score of **83** (very walkable)
- Over 300 electric vehicle charging stations installed across our portfolio; FCR supports the expansion of EV infrastructure in Canada and we continue to increase our network of EV charging stations at our properties

## Achieve green building certifications

- **79% of our portfolio** is **BOMA BEST** certified, as of December 31, 2025
- **21% of our portfolio** is certified to **LEED**, as of December 31, 2025
- Certify new construction projects to Leadership in Energy and Environmental Design (LEED) standards (subject to tenant acceptance)
- **First Canadian Retail REIT** to achieve the WELL Health-Safety Rating for Facility Operations & Management, totalling 6.6 million square feet

## Effectively manage climate change risk and resilience

- First Canadian REIT to be a signatory in support of the Task Force on Climate-Related Financial Disclosures (TCFD)
- Completed climate risk screening for full portfolio using third-party climate analytics platform
- Formed an **FCR TCFD Task Force** comprised of senior leaders from across business functions. The Task Force performed a climate scenario analysis to assess the magnitude of the financial impacts associated with climate-related risks and opportunities

REPORT ON BUSINESS  
WOMEN LEAD HERE

FCR Thriving  
Neighbourhoods  
Foundation

## Foster an engaged and diverse workforce

- 54% of management positions are held by females; We have strong gender diversity metrics through all levels of the organization
- Employee led **Everyone Belongs Council** published its first Impact Report and launched its 2024-2026 Action Plan

## Be one of the best places to work

- Recognized by the Globe and Mail as one of the **Greater Toronto's Top Employers** for the sixth time in seven years (2020 - 2022, 2024 - 2026)
- Selected for inclusion in "**The Career Directory**" for 2021 - 2025 as one of Canada's Best Employers for Recent Graduates
- Named one of **Canada's Top Small and Medium Employers** for the fifth time in six years (2020 - 2022, 2024 - 2025)
- 1 of 93 companies to be included in the Globe and Mail's **2025 Report on Business Women Lead Here** list
- 77% employee engagement score in 2025

## Improving the communities in which we operate

- Launched the **FCR Thriving Neighbourhoods Foundation** in 2020 and have since raised over **\$1.6 million** in donations through employee-led charitable giving to fight food insecurity and mental health initiatives
- In 2025, over **97%** of FCR staff volunteered to support local charities in our communities
- Long-standing support of public arts, now with **33 installations** across our portfolio
- Raised over **\$220,000** for Right to Food at FCR Thriving Neighbourhoods Foundation's fourth annual Commercial Real Estate Softball Classic tournament

# Governance

## Maintain a strong governance framework

- Reflects our values
- Adheres to **effective governance practices**
- Ensures the Board functions independently of management
- Promotes **diversity** in considering optimal board composition

## Strive to be a governance leader

- Continuously adopt new and improved governance practices
- Reviewing our annual governance scores from **ISS**, the **Globe and Mail Board Games** and other similar rankings with our Board
- Follow recommendations as governance standards evolve
- Providing opportunities for our unitholders to communicate directly with our Board

# Management's Discussion and Analysis of Financial Position and Results of Operations

## INTRODUCTION

This Management's Discussion and Analysis ("MD&A") of the financial position and results of operations of First Capital Real Estate Investment Trust ("First Capital", "FCR" or the "Trust") is intended to provide readers with an assessment of performance and summarize the financial position and results of operations for the three months and years ended December 31, 2025 and 2024. It should be read in conjunction with the Trust's audited annual consolidated financial statements for the years ended December 31, 2025 and 2024. Additional information, including First Capital's current Annual Information Form, is available on the SEDAR+ website at [www.sedarplus.ca](http://www.sedarplus.ca) and on the FCR website at [www.fcr.ca](http://www.fcr.ca).

All dollar amounts are in thousands of Canadian dollars, unless otherwise noted. Historical results and percentage relationships contained in First Capital's unaudited interim and audited annual consolidated financial statements and MD&A, including trends which might appear, should not be taken as indicative of its future operations. The information contained in this MD&A is based on information available to Management and is dated as of February 10, 2026.

## CURRENT BUSINESS ENVIRONMENT AND OUTLOOK

Geopolitical tensions and unpredictability and potentially rapid change in global trade policies and tariffs continue to dominate the headlines with respect to global and domestic economic growth and financial markets. Notwithstanding these dynamics, the global and Canadian economy have remained resilient.

Canada's economy grew by 2.6% in the third quarter of 2025 due to net trade that was well above market expectations. Owing to the U.S. government shutdown, a key caveat within the data relates to the use of certain estimates related to Canadian exports to the U.S. for the month of September. As such, there is greater than usual revision risk to key elements of the data. Conversely, third quarter Canadian domestic demand, household spending and business investment all softened. And in the months ahead, slower population growth and the weakness in the labour market will likely weigh upon household spending.

On the inflation front, Canadian CPI increased to 2.4% in December, up from 2.2% in November largely due to the temporary GST/HST tax break that began on December 14, 2024 and ended February 15, 2025. The Bank of Canada's preferred measures of core inflation remained in the range of 2.5% to 3% - above its target. The Bank expects ongoing economic slack to offset cost pressures associated with the reconfiguration of trade, thus keeping CPI inflation close to the 2% target.

On the labour front, the overall unemployment rate was 6.8% for December, down from an annual high of 7.1% in September. Labour market conditions improved in the final months of the year with employment rising by 181,000 (+0.9%) from August to November, before holding steady in December.

RBC Economics forecasts Canadian GDP growth of 1.3% in 2026 and 1.7% in 2027 – notably below growth expectations for U.S. growth of 2.4% and 1.8%, respectively. In January, the International Monetary Fund slightly raised its 2026 outlook for global growth to 3.3%, up from 3.1% in October mainly due to surging investment in technology, including artificial intelligence as well as fiscal and monetary support.

Since commencing its rate cutting cycle in June 2024, the Bank of Canada has cumulatively reduced the policy rate by 275 basis points – including two cuts totaling 50 basis points in the first quarter of 2025 and two 25 basis point cuts in September and October 2025. At its last two meetings, the Bank of Canada has maintained the policy rate at 2.25%. Governing Council sees the current policy rate at about the right level to keep inflation close to 2% while helping the economy through this period of structural adjustment.

First Capital's high-quality grocery-anchored and mixed-use portfolio continues to be resilient and has a demonstrated track record of high and steady occupancy, and producing strong cash collections, solid leasing volumes, and growth in its average net rental rate over the longer term.

### ***Property Portfolio, Core Competencies and Competitive Advantages***

First Capital is a leader in owning and operating, acquiring and developing open-air grocery-anchored centres as well as securing the right to develop significant additional density through rezoning. With these two foundational Core

Competencies, First Capital is further differentiated from its peers by several competitive advantages which include its Core Portfolio of multi-tenant, grocery-anchored shopping centres and its sizable density pipeline.

FCR's Core Portfolio of grocery-anchored shopping centres has a value of approximately \$7.5 billion and comprises approximately 84% of First Capital's total real estate investments. The Core Portfolio has the highest in place rents, the highest average historical lease renewal lifts, the highest population density and is the most connected to public transit relative to its publicly listed Canadian peers. The Core Portfolio is primarily located in urban and top-tier suburban neighbourhoods within Canada's largest and fastest growing cities, and its curated tenant mix typically includes pharmacy, liquor, banks, medical services, and an array of other complementary providers of daily necessity goods and services. FCR's Real Estate Services Team continues to focus on property improvements, customer amenities, and merchandising mix or tenant uses that are most in demand to serve the communities and neighbourhoods in which the Trust operates.

First Capital's portfolio of future development sites is comprised of a density pipeline of approximately 23 million square feet which exceeds the gross leasable area of FCR's current property portfolio. The density pipeline is primarily located in high growth neighbourhoods with exceptional demographics within Toronto, Montreal and Vancouver.

### ***Three-year Strategic Roadmap: Discipline|Stability|Growth***

In February 2024, the Trust announced its three-year Strategic Roadmap centered around financial growth and leverage reduction objectives. The Roadmap is focused on the key objectives of stability and growth in FFO, Net Asset Value and distributions per unit, coupled with a continued strengthening of key credit metrics.

First Capital's operating activities are focused upon managing its Core Portfolio of multi-tenant grocery-anchored centres to their maximum potential as it relates to growth in same-property net operating income and long-term value appreciation.

First Capital's investment activities are focused on retail development and redevelopment of core grocery-anchored shopping centres, select tuck-in and multi-tenant grocery-anchored shopping centre acquisitions, its entitlements program, and the development of strategic mixed-use properties where the REIT will typically have an ownership interest within the 25% to 50% range.

Asset divestitures will continue to be focused on FCR's density and development properties and other non-grocery-anchored properties. Collectively, these assets are classified as 'Other properties' and 'Residential development inventory' in FCR's MD&A. This pool of assets currently comprises approximately 16% of FCR's total real estate investments and has a value of approximately \$1.4 billion.

During 2025, First Capital continued to execute on its strategy, with \$176 million of dispositions completed, including (i) Sheridan Plaza (ii) 895 Lawrence Ave. E. (iii) Montgomery Assembly (iv) 801 York Mills & 1855 Leslie Street, all located in Toronto and (v) Place Anjou (Phases I & II), located in Montreal, and several other smaller properties.

These asset sales were consistent with the REIT's capital allocation objectives of crystallizing created value in certain development and density sites, as well as select income properties that are not multi-tenant grocery-anchored shopping centres. As of December 31, 2025, the Trust has classified \$106.0 million, at First Capital's share, of its assets as held for sale.

### ***Three-year Business Plan and Key Objectives***

First Capital's three-year business plan to year-end 2026 is on-track and remains focused upon achieving two key objectives:

1. Generating annual OFFO per unit growth of at least 3% on average over the three year timeframe; and
2. Achieving a Net Debt to Adjusted EBITDA ratio that is in the low-8x range by year-end 2026;

To achieve the two key objectives stated above, FCR has assumed and expects the following:

- Average annual same-property NOI growth of at least 3%
- An aggregate investment of approximately \$500 million into property development and redevelopment
- Development completions, including residential inventory deliveries, of approximately \$300 million
- Property dispositions totaling approximately \$750 million on a cumulative basis, with an average expected yield of less than 3%. The dispositions will continue to be focused on a mix of development sites and select low-yielding income properties

- Acquisitions of \$100 million to \$150 million, with a focus on multi-tenant, core grocery-anchored shopping centres as well as small, but strategic tuck-ins that are expected to be important to long-term value creation

### ***Managing the balance sheet***

Consistent with the Trust's Roadmap, First Capital is well positioned to continue to strengthen its financial position through debt reduction and an improving cost of capital over the long-term, with a targeted net debt to EBITDA ratio in the low-8x range by the end of 2026. As at December 31, 2025, First Capital's net debt to adjusted EBITDA ratio was 9.1x.

As at December 31, 2025, the Trust had unencumbered properties with an IFRS value of approximately \$6.3 billion and a net debt to asset ratio of 44.1%.

### ***Normal Course Issuer Bid ("NCIB")***

Commencing on May 18, 2022, First Capital implemented an NCIB pursuant to which it may repurchase its trust units for cancellation. The substantial disconnect that currently exists between the intrinsic value of the REIT's units and their publicly traded price presents a significant opportunity to generate value through the repurchase of trust units. Therefore, from time to time, the purchase of FCR trust units at certain market prices below NAV presents an attractive use of the REIT's capital that should afford additional value and liquidity for the issued and outstanding units, while benefiting remaining Unitholders by increasing their proportionate equity interest in the REIT. On May 16, 2025, First Capital received TSX approval for the renewal of its NCIB pursuant to which it may repurchase and cancel up to 21,120,181 of its outstanding units until May 20, 2026. Cumulatively from May 2022 to December 31, 2025, the REIT has repurchased 7.9 million Trust units for approximately \$120.1 million.

### ***Lending activities***

First Capital provides co-owner financing, priority mortgages and mezzanine loans to third parties in connection with certain transactions and partnerships. These loans and mortgages receivable are secured and can provide FCR with the opportunity to acquire full or partial interests in the underlying assets that are consistent with its investment strategy through rights, options or negotiated transactions. Therefore, in addition to generating interest income and fees, these lending activities provide an alternative means to obtaining purchase options and/or participation in projects which may otherwise have not been accessible. Additionally, from time to time, FCR partners with experienced real estate lenders and investment companies whose primary business is lending which helps to mitigate risk.

As of December 31, 2025, FCR's loans and mortgages receivable totaling \$121.2 million (December 31, 2024 - \$95.8 million) are secured primarily by interests in investment properties or shares of entities owning investment properties which helps to mitigate the risk of non-payment.

### ***Development initiatives***

Management continually monitors economic and capital market forces and their potential impact on the portfolio, including properties under development. As of December 31, 2025, FCR had approximately 0.8 million square feet under active development, including residential inventory. First Capital believes that the strategy to develop, own and operate properties that meet the needs of everyday urban life in Canada's most densely populated neighbourhoods will provide value over the long term in the assets in which it invests.

### ***Outlook***

The global economy as well as Canada's has remained resilient in the face of the ongoing uncertainty related to geopolitical tensions, U.S. trade policy, and tariffs. As such, the environment remains volatile, and GDP growth expectations for 2026 are forecasted to be a subdued 1.3%, according to RBC Economics. Overall, central banks are proceeding cautiously and they continue to assess how U.S. tariffs and changing trade relationships might impact GDP growth and inflation in Canada and globally.

The Bank of Canada cut its policy rate by a total of 100 basis points in 2025 and cumulatively by 275 basis points since June of 2024. The Bank cited that it is proceeding carefully in its decisions, considering a weaker economy and the ongoing risks and uncertainties surrounding US tariffs and changing trade relationships.

First Capital's portfolio occupancy is currently at the high end of its long-term range and occupancy rates across grocery anchored shopping centres more broadly are also high. Replacement costs for grocery anchored shopping centres are

generally in excess of market values for existing centres, and therefore the new supply pipeline across this retail real estate segment remains very low. Tenant demand for physical space across the sizable majority of First Capital's tenant categories remains strong, as retailers are still playing catch up with their store footprints following several years of strong Canadian population growth. Moreover, the physical storefront remains the most profitable point-of-sale for most retailers. These factors, combined with the necessity-based nature of the goods and services provided by most of the REIT's tenants, provide confidence in First Capital's ability to maintain stability in key operating and financial metrics in the face of broader macro-economic and geopolitical uncertainty.

Certain aspects of the Trust's business and operations that could potentially be impacted include rental income, occupancy, leasing terms and tenant improvements, future demand for space, and market rents, all of which impact the underlying fair value of investment properties. In the current environment, the Trust continues to achieve strong leasing metrics with a robust new and renewal lease pipeline coupled with upward trending market rental rates. First Capital believes, based on its exceptionally high-quality portfolio which has always been focused on everyday essentials, that it will continue to attract high tenant demand for its space.

First Capital will continue to be guided by its corporate responsibility and sustainability program, and values. The core beliefs of collaboration, innovation, excellence, accountability, and passion continue to be demonstrated throughout all areas of the organization.

However, risks to the outlook remain tilted to the downside due to prolonged policy uncertainty that could flare up trade discord as well as geopolitical tensions that could disrupt the global economy through their impact on financial markets, supply chains, and commodity prices.

## NON-IFRS FINANCIAL MEASURES

In addition to measures determined in accordance with IFRS Accounting Standards ("IFRS"), First Capital uses non-IFRS financial measures to analyze its financial performance. In Management's view, such non-IFRS financial measures are commonly accepted and meaningful indicators of financial performance in the real estate industry and provide useful supplemental information to both Management and investors. These measures do not have a standardized meaning prescribed under IFRS and therefore may not be comparable to similar measures presented by other real estate entities, and should not be construed as an alternative to other financial measures determined in accordance with IFRS.

The following describe the non-IFRS measures First Capital currently uses in evaluating its financial performance.

### ***Proportionate Interest***

"Proportionate interest" or "Proportionate share" is defined by Management as First Capital's proportionate share of revenues, expenses, assets and liabilities in all of its real estate investments. Under IFRS, FCR's seven equity accounted joint ventures are presented on one line item in the consolidated balance sheets and the consolidated statements of income (loss), in aggregate. In the "Non-IFRS Reconciliations and Financial Measures" section of this MD&A, Management presents a consolidated balance sheet and income statement as if its joint ventures were proportionately consolidated. In addition, Management presents certain tables relating to its portfolio by geographic region, enterprise value, and debt metrics on a proportionate basis to enhance the relevance of the information presented. The presentation of financial information at FCR's proportionate interest provides a useful and more detailed view of the operation and performance of First Capital's business and how Management operates and manages the business. This presentation also depicts the extent to which the underlying assets are leveraged, which are included in First Capital's debt metrics. In addition, FCR's lenders require Management to calculate its debt metrics on a proportionate interest basis.

To achieve the proportionate presentation of its seven equity accounted joint ventures, Management allocates FCR's proportionate share of revenues, expenses, assets, and liabilities to each relevant line item which replaces the one line presentation found in the IFRS consolidated financial statements. In addition, under IFRS, FCR exercises control over two partially owned ventures and consolidates 100% of the revenues, expenses, assets, and liabilities in the consolidated financial statements. In the reconciliations, the partially owned ventures are also presented as if they were proportionately consolidated. To achieve the proportionate presentation of its partially owned ventures, Management subtracts the non-controlling interest's share (the portion FCR doesn't own) of revenue, expenses, assets, and liabilities on each relevant line

item. FCR does not independently control its joint ventures that are accounted for using the equity method, and the proportionate presentation of these joint ventures does not necessarily represent FCR's legal claim to such items.

### ***Net Operating Income***

Net Operating Income ("NOI") is defined by Management as property rental revenue less property operating costs. NOI is a commonly used metric for analyzing real estate performance in Canada by real estate industry analysts, investors and Management. Management believes that NOI is useful in analyzing the operating performance of First Capital's portfolio.

### ***Total Same Property NOI***

Total Same Property NOI ("SP NOI") is defined by Management as NOI from properties categorized as "Same Property — stable" and "Same Property with redevelopment" (see definitions under "Real Estate Investments — Investment Property Categories" section of this MD&A). NOI from properties that have been (i) acquired, (ii) disposed, (iii) included in major redevelopment, ground-up development, properties under construction, and density and development land or (iv) held for sale are excluded from the determination of SP NOI. SP NOI is presented at FCR's proportionate interest on a cash basis, as it excludes straight-line rent. Management believes that SP NOI is a useful measure in understanding period over period changes in cash NOI for its Same Property portfolio due to occupancy, rental rates, operating costs and realty taxes. A reconciliation from SP NOI to total NOI can be found in the "Results of Operations - Net Operating Income" section of this MD&A.

### ***Same Property — Stable NOI***

Same Property — stable NOI is defined by Management as NOI from stable properties where the only significant activities are leasing and ongoing maintenance (see complete definition under "Real Estate Investments — Investment Property Categories" section of this MD&A). Management believes that Same Property — stable NOI is a useful measure in understanding period over period changes in cash NOI for its largest category of properties.

### ***Funds from Operations***

Funds from Operations ("FFO") is a recognized measure that is widely used by the real estate industry, particularly by publicly traded entities that own and operate income-producing properties. First Capital calculates FFO in accordance with the recommendations of the Real Property Association of Canada ("REALPAC") as published in its most recent guidance on "Funds from Operations and Adjusted Funds From Operations for IFRS" dated January 2022. Management considers FFO a meaningful additional financial measure of operating performance, as it excludes fair value gains and losses on investment properties as well as certain other items included in FCR's net income (loss) that may not be the most appropriate determinants of the long-term operating performance of FCR, such as investment property selling costs; tax on gains or losses on disposals of properties; deferred income taxes; fair value gains or losses on unit-based compensation; and any gains, losses or transaction costs recognized in business combinations. FFO provides a perspective on the financial performance of FCR that is not immediately apparent from net income (loss) determined in accordance with IFRS. A reconciliation from net income (loss) to FFO can be found in the "Non-IFRS Reconciliations and Financial Measures — FFO, AFFO and ACFO" section of this MD&A.

### ***Operating Funds from Operations***

In addition to REALPAC FFO described above, Management also discloses Operating Funds from Operations ("OFFO"). Management considers OFFO as its key operating performance measure that, when compared period over period, reflects the impact of certain factors on its core operations, such as changes in net operating income, interest expense, corporate expenses and interest and other income. OFFO excludes the impact of the items in other gains (losses) and (expenses) that are not considered part of First Capital's on-going core operations.

### ***Adjusted Funds from Operations***

Adjusted Funds from Operations ("AFFO") is a supplementary measure that is widely used by the real estate industry, particularly by publicly traded entities that own and operate income-producing properties. First Capital calculates AFFO in accordance with the recommendations of the Real Property Association of Canada ("REALPAC") as published in its most recent guidance on "Funds from Operations and Adjusted Funds From Operations for IFRS" dated January 2022. Management considers AFFO to be a meaningful financial measure of recurring economic earnings and relevant in understanding First Capital's ability to service its debt, fund capital expenditures and pay distributions to Unitholders.

AFFO is defined as FFO less amortization of straight-line rents, regular and recoverable maintenance capital expenditures, and incremental leasing costs. A reconciliation from FFO to AFFO can be found in the "Non-IFRS Reconciliations and Financial Measures — FFO, AFFO and ACFO" section of this MD&A.

### ***Adjusted Cash Flow from Operations***

Adjusted Cash Flow from Operations ("ACFO") is a supplementary measure First Capital began using in 2017 to measure operating cash flow generated from the business. FCR calculates ACFO in accordance with the recommendations of REALPAC as published in its most recent guidance on "Adjusted Cashflow From Operations (ACFO) for IFRS" dated January 2023.

Management considers ACFO a meaningful metric to measure operating cash flows as it represents sustainable cash available to pay distributions to Unitholders. ACFO includes a number of adjustments to cash flow from operations under IFRS including, eliminating seasonal and non-recurring fluctuations in working capital, adding cash flows associated with equity accounted joint ventures and deducting actual revenue sustaining capital expenditures and actual capital expenditures recoverable from tenants. Lastly, ACFO includes an adjustment to exclude the non-controlling interest's portion of cash flow from operations under IFRS, attributed to FCR's consolidated joint venture. A reconciliation of cash flow from operations under IFRS to ACFO can be found in the "Non-IFRS Reconciliations and Financial Measures — FFO, AFFO and ACFO" section of this MD&A.

### ***Weighted average units outstanding for OFFO and FFO***

For purposes of calculating per unit amounts for OFFO and FFO, the weighted average number of diluted units outstanding includes the weighted average outstanding Trust Units as at the end of the period; and assumes conversion of all outstanding Deferred Units, Restricted Units, Performance Units and any dilutive Options as at the end of the period.

### ***OFFO, FFO, AFFO and ACFO Payout Ratios***

OFFO, FFO, AFFO and ACFO payout ratios are supplementary non-IFRS measures used by Management to assess the sustainability of First Capital's distribution payments. OFFO and FFO payout ratios are calculated using distributions declared per unit divided by the OFFO and FFO per unit. The AFFO payout ratio is calculated using distributions declared per unit divided by AFFO per unit. The ACFO payout ratio is calculated on a rolling four quarter basis by dividing total cash distributions paid by ACFO over the same period. Management considers a rolling four quarter ACFO payout ratio more relevant than a payout ratio in any given quarter due to the impact of seasonal fluctuations in ACFO period over period.

### ***Enterprise Value***

Enterprise value is the sum of the principal or par value amounts of First Capital's net debt on a proportionate basis and the market value of FCR's Trust Units outstanding at the respective quarter end date. This measure is used by FCR to assess the total amount of capital employed in generating returns to Unitholders.

### ***Net Debt***

Net debt is a measure used by Management in the computation of certain debt metrics, providing information with respect to certain financial ratios used in assessing First Capital's debt profile. Net debt is calculated as the sum of principal amounts outstanding on credit facilities and mortgages, bank indebtedness and the par value of senior unsecured debentures reduced by the cash balances at the end of the period on a proportionate basis.

### ***Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization***

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization, ("Adjusted EBITDA") is a measure used by Management in the computation of certain debt metrics. Adjusted EBITDA, is calculated as net income (loss), adding back income tax expense, interest expense and amortization and excluding the increase or decrease in the fair value of investment properties, fair value gains or losses on unit-based compensation and other non-cash or non-recurring items on a proportionate basis. FCR also adjusts for incremental leasing costs, which is a recognized adjustment to FFO, in accordance with the recommendations of REALPAC. Management believes Adjusted EBITDA is useful in assessing the Trust's ability to service its debt, finance capital expenditures and provide for distributions to its Unitholders.

### ***Unencumbered Aggregate Assets***

Unencumbered aggregate assets represents the value of assets that have not been pledged as security under a credit agreement or mortgage. The unencumbered aggregate asset value ratio is calculated as unencumbered aggregate assets divided by the principal amount of unsecured debt, which consists of bank indebtedness, unsecured credit facilities and senior unsecured debentures. This ratio is used by Management to assess the flexibility of First Capital to obtain various forms of debt financing at a reasonable cost of capital.

### ***Net Asset Value***

Net Asset Value ("NAV") represents the proportionate share of First Capital's total assets less the proportionate share of its total liabilities, excluding deferred tax liabilities if applicable.

NAV per diluted unit represents NAV, as calculated above, adjusted for the exclusion of the unit-based compensation plan liability and for the proceeds to be received upon the exercise of outstanding options divided by the number of diluted units outstanding as at the end of the period. For purposes of calculating diluted per unit amounts for NAV, the number of diluted units outstanding includes all outstanding Trust Units as at the end of the period and assumes conversion of outstanding Deferred Units, Restricted Units, Performance Units and Options as at the end of the period. Management believes that NAV is useful to financial statement users who consider it a key measure of the intrinsic value of the Trust.

## **OPERATING METRICS**

First Capital presents certain operating metrics and portfolio statistics in the MD&A, which include neighbourhood count, property category, GLA, occupancy, weighted average rate per occupied square foot, top 40 tenants, development pipeline, and renewal activities. FCR uses these operating metrics to monitor and measure operational performance period over period. To align FCR's GLA reporting with its ownership interest in its properties, unless otherwise noted, all GLA is presented at FCR's ownership interest (18.9 million square feet at its ownership interest compared to 21.8 million square feet at 100% as at December 31, 2025). First Capital's operating metrics and GLA excludes residential GLA totaling 123,000 square feet, at its ownership interest, as amounts are not significant at this time. In measuring performance or allocating resources, the Trust does not distinguish or group its operations on a geographical or any other basis and, accordingly, has a single reportable segment for disclosure purposes.

## SUMMARY CONSOLIDATED INFORMATION AND HIGHLIGHTS

For the years ended December 31	2025	2024	2023
<b>Revenues, Income and Cash Flows <sup>(1)</sup></b>			
Revenues and other income			
\$ 753,711	\$ 760,642	\$ 712,856

# BUSINESS AND OPERATIONS REVIEW

## Real Estate Investments

### *Investment Property Categories*

First Capital categorizes its properties for the purposes of evaluating operating performance including Total Same Property NOI. This enables FCR to better reflect its development, redevelopment and repositioning activities on its properties, including density and land use intensification, and its completed and planned disposition activities. In addition, FCR revises comparative information to reflect property categories consistent with current period status. The property categories are as follows:

*Total Same Property consisting of:*

*Same Property – stable* – includes stable properties where the only significant activities are leasing and ongoing maintenance. Properties that will be undergoing a redevelopment in a future period, including adjacent parcels of land, and those having planning activities underway are also in this category until such development activities commence. At that time, the property will be reclassified to either Same Property with redevelopment or to major redevelopment.

*Same Property with redevelopment* – includes properties that are largely stable, including adjacent parcels of land, but are undergoing incremental redevelopment or expansion activities (pads or building extensions) which intensify the land use. Such redevelopment activities often include façade, parking, lighting and building upgrades.

*Major redevelopment* – includes properties in planning or recently completed multi-year redevelopment projects with significant intensification, reconfiguration and building and tenant upgrades.

*Ground-up development* – consists of recently completed new construction, either on a vacant land parcel typically situated in an urban area or on an urban land site with conversion of an existing vacant building to retail use.

*Properties under construction* – consists of properties under major redevelopment or ground-up development that are under active construction.

*Density and Development land* – comprises land sites where there are no development activities underway, except for those in the planning stage and certain zoned or unzoned sites where specific density value has been ascribed.

*Acquisitions and dispositions* – consists of properties acquired during the period including those in close proximity to existing properties. Dispositions include information for properties disposed of in the period.

*Assets classified as held for sale* – consists of properties that meet the held for sale criteria under IFRS.

First Capital has applied the above property categorization to the fair value, capital expenditures as well as leasing and occupancy activity on its portfolio, and to its Same Property NOI analysis to further assist in understanding FCR's real estate activities and its operating and financial performance.

### **Portfolio Overview**

The Trust's Core Portfolio of grocery-anchored shopping centres had a value of approximately \$7.5 billion as at December 31, 2025 compared to \$7.2 billion as at December 31, 2024.

As at and for the three and twelve months ended (millions of dollars)					December 31, 2025			
Portfolio	Income-Producing Properties	Properties Under Construction	Density and Development Land	Proportionate Interest <sup>(1)</sup>	Net Operating Income <sup>(1)</sup>			
Core Portfolio	\$ 7,374	\$ 45	\$ 61	\$ 7,480	\$ 109	\$ 424		
Other properties	700	142	255	1,097	9	42		
Total Portfolio	\$ 8,074	\$ 187	\$ 316	\$ 8,577	\$ 118	\$ 466		
Residential development inventory					336			
Total real estate investments					\$ 8,913			

<sup>(1)</sup> At First Capital's proportionate interest. Refer to the "Non-IFRS Financial Measures" section of this MD&A.

MANAGEMENT'S DISCUSSION AND ANALYSIS – continued

As at and for the three and twelve months ended ( <i>millions of dollars</i> )							December 31, 2024	
Portfolio	Income-Producing Properties		Properties Under Construction		Density and Development Land		Proportionate Interest <sup>(1)</sup>	Net Operating Income <sup>(1)</sup>
Core Portfolio	\$ 7,157	\$ 7	\$ 57	\$ 7,221	\$ 103	\$ 405		
Other properties	813	122	369	1,304	12	50		
Total Portfolio	\$ 7,970	\$ 129	\$ 426	\$ 8,525	\$ 115	\$ 455		
Residential development inventory					267			
Total real estate investments				\$ 8,792				

<sup>(1)</sup> At First Capital's proportionate interest. Refer to the "Non-IFRS Financial Measures" section of this MD&A.

As at December 31, 2025, First Capital had interests in 136 neighbourhoods, which were 97.1% occupied with a total GLA of 18.9 million square feet at FCR's ownership interest (21.8 million square feet at 100%) and a fair value of \$8.6 billion. This compares to 138 neighbourhoods, which were 96.8% occupied with a total GLA of 19.3 million square feet at FCR's ownership interest (22.1 million square feet at 100%) and a fair value of \$8.5 billion as at December 31, 2024.

The Same Property portfolio includes properties sub-categorized in Same Property – stable and Same Property with redevelopment. The Same Property portfolio is comprised of 126 neighbourhoods with a total GLA of 18.3 million square feet at FCR's ownership interest (21.1 million square feet at 100%) and a fair value of \$7.8 billion. These properties represent 93% of FCR's neighbourhood count, 96% of its GLA at FCR's ownership interest and 91% of its fair value as at December 31, 2025.

The balance of FCR's real estate assets consists of properties which are in various stages of redevelopment, properties acquired in 2025 or 2024 and properties in close proximity to them, as well as properties held for sale.

First Capital's portfolio based on property categorization is summarized as follows:

Property Type <sup>(1)</sup>	December 31, 2025						December 31, 2024		
	% of Total GLA	GLA (000s sq. ft.)	Fair Value <sup>(2)</sup>	Occupancy	Weighted Average Rate per Occupied Square Foot	% of Total GLA	GLA (000s sq. ft.)	Fair Value <sup>(2)</sup>	Occupancy
Same Property – stable	94.7%	17,946	\$ 7,699	97.1%	\$ 24.73	93.3%	18,014	\$ 7,537	96.9%
Same Property with redevelopment	1.6%	304	80	100.0%	17.18	1.6%	302	77	98.4%
Total Same Property	96.3%	18,250	7,779	97.2%	24.60	94.9%	18,316	7,614	97.0%
Major redevelopment	2.7%	510	217	96.8%	24.49	2.7%	530	214	91.1%
Properties under construction <sup>(3)</sup>	—%	—	135	—%	—	—%	—	83	—%
Acquisitions <sup>(4)</sup>	0.4%	74	65	100.0%	39.83	0.3%	64	42	98.4%
Density and Development land <sup>(5) (6) (7)</sup>	0.4%	68	275	82.8%	56.38	0.5%	78	328	86.6%
Investment properties classified as held for sale	0.2%	46	106	84.8%	11.26	0.2%	46	82	84.8%
Dispositions <sup>(7) (8)</sup>	—%	—	—	—%	—	1.4%	274	162	99.4%
Total	100.0%	18,948	\$ 8,577	97.1%	\$ 24.73	100.0%	19,308	\$ 8,525	96.8%
									\$ 24.00

<sup>(1)</sup> Prior periods restated to reflect current period property categories.

<sup>(2)</sup> At FCR's proportionate interest, including investment properties classified as held for sale as at December 31, 2025 and December 31, 2024, respectively.

<sup>(3)</sup> Approximately \$52 million (December 31, 2024 - \$46 million) of properties under construction is included in investment properties classified as held for sale as at December 31, 2025.

<sup>(4)</sup> Includes current year and prior year acquisitions.

<sup>(5)</sup> Approximately \$20 million (December 31, 2024 - \$Nil) of density and development land is included in acquisitions as at December 31, 2025.

<sup>(6)</sup> Approximately \$21 million (December 31, 2024 - \$12 million) of density and development land is included in investment properties classified as held for sale as at December 31, 2025.

<sup>(7)</sup> Approximately \$Nil (December 31, 2024 - \$86 million) of density and development land is included in dispositions as at December 31, 2025.

<sup>(8)</sup> Comparative information presented relates to 2025 dispositions that have been completed and no longer form part of these metrics as at December 31, 2025.

First Capital's portfolio by major market is summarized as follows:

As at		December 31, 2025										December 31, 2024			
(millions of dollars, except other data)	Area	Number of Neighbourhoods	GLA (000s sq. ft.)	Fair Value <sup>(1)</sup>	% of Total Fair Value	Occupancy	Weighted Average Rate per Occupied Square Foot	% of Annual Minimum Rent	Number of Neighbourhoods	GLA (000s sq. ft.) ## 2025 Acquisitions

### *Income-producing properties and other*

During the year ended December 31, 2025, First Capital acquired one property located in midtown Toronto, and a 50% interest in an 18 acre retail development site located in Ottawa, for \$27.7 million, as summarized in the table below:

Count	Property Name	City/Province	Quarter Acquired	Interest Acquired	GLA (sq. ft.)	Acres	Acquisition Cost (in millions)
1.	1549 Avenue Rd. (Royal Lighting)	Toronto, ON	Q1	100%	10,564	0.6	\$ 22.2
2.	375 Didsbury Rd.	Ottawa, ON	Q3	50%	—	9.0	5.5
	Total				10,564	9.6	\$ 27.7

## 2024 Acquisitions

### *Income-producing properties and other*

During the year ended December 31, 2024, First Capital acquired the remaining 50% interest in its Seton Gateway property located in Calgary for \$33.5 million, as summarized in the table below:

Count	Property Name	City/Province	Quarter Acquired	Interest Acquired	GLA (sq. ft.)	Acres	Acquisition Cost (in millions)
1.	Seton Gateway	Calgary, AB	Q1	50%	63,879	6.3	\$ 33.5
	Total				63,879	6.3	\$ 33.5

## 2025 Dispositions

During the year ended December 31, 2025, First Capital completed \$176.0 million of dispositions located in Toronto and Montreal, as summarized in the table below:

Count	Property Name	City/Province	Quarter Sold	Interest Sold	GLA (sq. ft.)	Acres	Gross Sales Price (in millions)
1.	895 Lawrence Ave. E.	Toronto, ON	Q1	100%	29,288	1.9	
2.	Sheridan Plaza	Toronto, ON	Q1	100%	170,746	12.5	
3.	Yorkville Condo	Toronto, ON	Q2	100%	2,075	—	
4.	Place Anjou (Phases I & II)	Montreal, QC	Q3	100%	52,108	4.7	
5.	Yorkville Condo	Toronto, ON	Q3	100%	1,411	—	
6.	34-70 Montgomery Ave. (Montgomery Assembly)	Toronto, ON	Q4	100%	—	0.8	
7.	801 York Mills & 1855 Leslie St.	Toronto, ON	Q4	100%	55,640	2.8	
	Total				311,268	22.7	\$ 176.0

## 2024 Dispositions

During the year ended December 31, 2024, First Capital completed \$217.1 million of dispositions, as summarized in the table below:

Count	Property Name	City/Province	Quarter Sold	Interest Sold	GLA (sq. ft.)	Acres	Gross Sales Price (in millions)
1.	1071 King St. W. (land)	Toronto, ON	Q1	41.7%	—	0.2	
2.	71 King St. W. (Medical Arts Building)	Mississauga, ON	Q1	100%	43,788	1.0	
3.	Royal Orchard	Markham, ON	Q1	50%	20,845	2.1	
4.	Yonge-Davis Centre	Newmarket, ON	Q1	100%	50,747	4.6	
5.	Broadmoor Residences	Richmond, BC	Q1	100%	55,253	—	
6.	Yorkville Condo	Toronto, ON	Q2	100%	1,391	—	
7.	1092 Kingston Rd. (retail at base of condo)	Scarborough, ON	Q2	42.5%	7,493	—	
8.	1631-1633 The Queensway	Toronto, ON	Q4	100%	95,813	6.1	
9.	Yorkville Condo	Toronto, ON	Q4	100%	1,392	—	
10.	200 West Esplanade	Vancouver, BC	Q4	50%	28,902	0.2	
Total					305,624	14.2	\$ 217.1

## Impact of Acquisitions and Dispositions

The annualized NOI of properties acquired and disposed, at the time of acquisition or disposition, during the years ended December 31, 2025 and 2024 is summarized in the table below:

	Acquired		Disposed	
	2025	2024	2025	2024
For the year ended December 31				
Greater Toronto Area	\$ 400	\$ —	\$ 3,274	\$ 3,536
Greater Montreal Area	—	—	867	—
Greater Calgary Area	—	2,531	—	—
Greater Vancouver Area	—	—	—	1,834
Total	\$ 400	\$ 2,531	\$ 4,141	\$ 5,370

## Capital Expenditures

Capital expenditures are incurred by First Capital for maintaining and/or renovating its existing properties. In addition, FCR also incurs expenditures for the purposes of expansion, redevelopment, ground-up development as well as condominium and townhome development activities.

Revenue sustaining capital expenditures are required for maintaining First Capital's property infrastructure and revenues from leasing of existing space. Revenue sustaining capital expenditures are generally not recoverable from tenants. However, certain leases provide the ability to recover from tenants, over time, a portion of capital expenditures to maintain the physical aspects of FCR's properties. Revenue sustaining capital expenditures generally include tenant improvement costs related to new and renewal leasing, and capital expenditures required to maintain the physical aspects of the properties, such as roof replacements and resurfacing of parking lots.

Revenue enhancing capital expenditures are those expenditures that increase the revenue generating ability of FCR's properties. Revenue enhancing capital expenditures are incurred in conjunction with or in contemplation of a development or redevelopment strategy, a strategic repositioning after an acquisition, or in advance of a planned disposition to maximize the potential sale price. First Capital owns and actively seeks to acquire older, well-located properties in urban locations, where expenditures tend to be higher when they are subsequently repaired or redeveloped to meet FCR's standards.

Capital expenditures incurred in development and redevelopment projects include pre-development costs, direct construction costs, leasing costs, tenant improvements, borrowing costs, overhead including applicable salaries and direct costs of internal staff directly attributable to the projects under active development.

Capital expenditures on investment properties and residential inventory by type are summarized in the table below:

Year ended December 31	2025				2024	
	Capital Expenditures	Adjustments for Proportionate Interest	Proportionate Interest <sup>(1)</sup>	Capital Expenditures	Adjustments for Proportionate Interest	Proportionate Interest <sup>(1)</sup>
Revenue sustaining	\$ 29,288	\$ 141	\$ 29,429	\$ 22,874	\$ (5)	\$ 22,869
Revenue enhancing	11,775	278	12,053	29,006	(12)	28,994
Expenditures recoverable from tenants	18,400	—	18,400	21,305	13	21,318
Development expenditures	87,436	6,283	93,719	50,583	10,783	61,366
<b>Sub-total</b>	<b>\$ 146,899</b>	<b>\$ 6,702</b>	<b>\$ 153,601</b>	<b>\$ 123,768</b>	<b>\$ 10,779</b>	<b>\$ 134,547</b>
Residential Inventory	\$ 56,415	\$ 12,604	\$ 69,019	\$ 35,179	\$ 20,019	\$ 55,198
<b>Total</b>	<b>\$ 203,314</b>	<b>\$ 19,306</b>	<b>\$ 222,620</b>	<b>\$ 158,947</b>	<b>\$ 30,798</b>	<b>\$ 189,745</b>

<sup>(1)</sup> Refer to the "Non-IFRS Financial Measures" section of this MD&A.

Capital expenditures for the year ended December 31, 2025 were \$222.6 million, which was \$32.9 million higher than the prior year, in large part due to increased development spend at the Trust's three active residential projects and its Yonge & Roselawn development project.

## Valuation of Investment Properties

The approach selected for valuing investment properties depends on the type of property and other factors such as stage of development. The components of First Capital's investment properties for the purposes of calculating fair values were as follows as at December 31, 2025 and December 31, 2024:

As at and for the three and twelve months ended (millions of dollars)				December 31, 2025		
Property Type	Valuation Method	Fair Value	Adjustments for Proportionate Interest	Proportionate Interest <sup>(1)</sup>	Net Operating Income <sup>(1)</sup>	
Same Property - stable	DCF <sup>(2)</sup>	\$ 7,557	\$ 142	\$ 7,699	\$ 112	
Same Property with redevelopment	DCF <sup>(2)</sup>	80	—	80	1	
<b>Total Same Property</b>		<b>\$ 7,637</b>	<b>\$ 142</b>	<b>\$ 7,779</b>	<b>\$ 113</b>	
Major redevelopment	DCF <sup>(2)</sup> , Cost <sup>(2)</sup>	217	—	217	3	
Properties under construction <sup>(3)</sup>	DCF <sup>(2)</sup> , Cost <sup>(2)</sup>	135	—	135	—	
Acquisitions	DCF <sup>(2)</sup> , Cost <sup>(2)</sup>	65	—	65	1	
Density and Development Land <sup>(4) (5)</sup>	Cost <sup>(2)</sup> , comparable land sales	158	117	275	1	
Assets classified as held for sale	DCF <sup>(2)</sup> , comparable land sales	106	—	106	—	
Dispositions	N/A	—	—	—	1	
<b>Total investment properties</b>		<b>\$ 8,318</b>	<b>\$ 259</b>	<b>\$ 8,577</b>	<b>\$ 118</b>	
NOI related to other investments					(1)	
<b>Total NOI</b>				<b>\$ 118</b>	<b>\$ 466</b>	

<sup>(1)</sup> At First Capital's proportionate interest for the three and twelve months ended December 31, 2025. Refer to the "Non-IFRS Financial Measures" section of this MD&A.

<sup>(2)</sup> Discounted Cash Flow ("DCF") is a valuation method under the Income Approach. At cost where cost approximates fair value.

<sup>(3)</sup> Approximately \$52 million (\$52 million at First Capital's share) of properties under construction is included in assets classified as held for sale.

<sup>(4)</sup> Approximately \$21 million (\$21 million at First Capital's share) of density and development land is included in assets classified as held for sale.

<sup>(5)</sup> Approximately \$20 million (\$20 million at First Capital's share) of density and development land is included in acquisitions.

As at and for the three and twelve months ended ( <i>millions of dollars</i> )						December 31, 2024		
Property Type <sup>(1)</sup>	Valuation Method	Fair Value	Adjustments for Proportionate Interest	Proportionate Interest <sup>(2)</sup>	Net Operating Income <sup>(2)</sup>			
Same Property - stable	DCF <sup>(3)</sup>	\$ 7,388	\$ 149	\$ 7,537	\$ 107	\$ 425		
Same Property with redevelopment	DCF <sup>(3)</sup>	77	—	77	1	5		
Total Same Property		\$ 7,465	\$ 149	\$ 7,614	\$ 108	\$ 430		
Major redevelopment	DCF <sup>(3)</sup> , Cost <sup>(3)</sup>	214	—	214	3	11		
Properties under construction <sup>(4)</sup>	DCF <sup>(3)</sup> , Cost <sup>(3)</sup>	82	1	83	—	—		
Acquisitions	DCF <sup>(3)</sup> , Cost <sup>(3)</sup>	42	—	42	1	2		
Density and Development Land <sup>(5)(6)</sup>	Cost <sup>(3)</sup> , comparable land sales	190	138	328	1	4		
Assets classified as held for sale	DCF <sup>(3)</sup> , comparable land sales	82	—	82	—	—		
Dispositions <sup>(6)</sup>	N/A	162	—	162	2	8		
Total investment properties		\$ 8,237	\$ 288	\$ 8,525	\$ 115	\$ 455		
NOI related to other investments					—	—		
Total NOI					\$ 115	\$ 455		

<sup>(1)</sup> Prior periods restated to reflect current period property categories.

<sup>(2)</sup> At First Capital's proportionate interest for the three and twelve months ended December 31, 2024. Refer to the "Non-IFRS Financial Measures" section of this MD&A.

<sup>(3)</sup> Discounted Cash Flow ("DCF") is a valuation method under the Income Approach. At cost where cost approximates fair value.

<sup>(4)</sup> Approximately \$46 million (\$46 million at First Capital's share) of properties under construction is included in assets classified as held for sale.

<sup>(5)</sup> Approximately \$12 million (\$12 million at First Capital's share) of density and development land is included in assets classified as held for sale.

<sup>(6)</sup> Includes properties that were disposed of in 2025. Approximately \$86 million (\$86 million at First Capital's share) of density and development land is included in dispositions.

The majority of the Trust's portfolio is valued under the Income Approach using the discounted cash flow ("DCF") method. As at December 31, 2025, the weighted average valuation yields (stabilized overall capitalization, terminal capitalization and discount rates) used in valuing those investment properties under the Income Approach did not materially change from December 31, 2024.

During the fourth quarter of 2025, as part of its normal course internal valuations, the Trust made revisions to the cash flow models and yields on certain properties, and revalued certain development lands when considering comparable land sales and market activity. As a result, an overall net increase in the fair value of investment properties was recorded in the amount of \$38.3 million (\$36.1 million at FCR's share) for the three months ended December 31, 2025. For the year ended December 31, 2025, an overall net increase in the fair value of investment properties was recorded in the amount of \$79.8 million (\$44.2 million at FCR's share).

The associated stabilized capitalization rates by major market for FCR's investment properties valued under the Income Approach were as follows as at December 31, 2025 and December 31, 2024:

Area	Stabilized Capitalization Rate		
	Weighted Average	Median	Range
Greater Toronto	5.2%	5.3%	4.0%-6.5%
Greater Montreal	6.1%	6.0%	5.3%-7.3%
Greater Calgary	5.9%	6.0%	5.5%-6.8%
Greater Vancouver	4.8%	4.8%	4.5%-5.8%
Greater Edmonton	6.5%	6.3%	5.5%-7.5%
Greater Ottawa	5.9%	6.0%	5.5%-6.5%
KW/Guelph <sup>(1)</sup>	5.5%	5.5%	5.3%-6.0%
Other	5.9%	5.9%	5.3%-6.8%
Weighted Average	5.5%	5.5%	4.0%-7.5%

<sup>(1)</sup> Includes Kitchener, Waterloo, and Guelph Area.

Area	Stabilized Capitalization Rate		
	Weighted Average	Median	Range

<sup>(1)</sup> Includes Kitchener, Waterloo, and Guelph Area.

## Property Development Activities

As at December 31, 2025, the Trust's share of properties under construction, residential inventory and density and development land totaled approximately \$839 million. These non-income producing properties represent approximately 9% of the Trust's total portfolio value and consists of development land, adjacent land parcels, properties slated for redevelopment with limited income and properties in active development.

Development and redevelopment activities are completed selectively, based on opportunities in First Capital's properties or in the markets where FCR operates. First Capital's development activities include redevelopment of stable properties, major redevelopment, and ground-up projects. Additionally, properties under development include land with future development potential. All commercial development activities are strategically managed to reduce risk, and properties are generally developed after obtaining anchor tenant lease commitments. Individual commercial buildings within a development are generally constructed only after obtaining lease commitments on a substantial portion of the space.

### Development Pipeline

As at December 31, 2025, First Capital's portfolio is comprised of 18.9 million square feet of GLA at FCR's ownership interest. Substantially all of this GLA is located in Canada's six largest urban growth markets which are undergoing significant land use intensification. As such, Management has identified meaningful incremental density available for future development within its existing portfolio. As at December 31, 2025, Management had identified approximately 23.5 million square feet of incremental density which currently exceeds FCR's existing portfolio of 18.9 million square feet.

Management undertakes a quarterly review of its entire portfolio and updates all of its future incremental density. Management stratifies the density by expected project commencement time frame. Medium term includes project commencement expected within the next 7 years, long term between 8 and 15 years and very long term beyond 15 years. First Capital's incremental density is classified by type between commercial and residential. Commercial density primarily consists of retail density.

As a substantial part of the portfolio is located in urban markets where significant land use intensification continues to occur, Management expects future incremental density will continue to grow and provide First Capital with increased opportunity to redevelop its generally low density properties.

A breakdown of the properties under construction, density and development land, and residential inventory within the portfolio by component and type is as follows:

As at December 31, 2025	Square feet (in thousands)				Value recognized <sup>(1)(2)</sup> (in millions)
	Commercial	Residential	Total <sup>(1)</sup>	Recognized to date <sup>(2)</sup>	
<b>Properties under construction</b>	<b>135</b>	<b>260</b>	<b>395</b>	<b>395</b>	<b>\$ 187</b>
<b>Density and development land</b>					
Medium term	1,000	9,600	10,600		
Long term	(100)	3,700	3,600		
Very long term	(100)	8,600	8,500		
	<b>800</b>	<b>21,900</b>	<b>22,700</b>	<b>6,345</b>	<b>\$ 316</b>
<b>Residential inventory</b>	<b>—</b>	<b>372</b>	<b>372</b>	<b>372</b>	<b>\$ 336</b>
<b>Total development pipeline</b>	<b>935</b>	<b>22,532</b>	<b>23,467</b>	<b>7,112</b>	<b>\$ 839</b>

<sup>(1)</sup> At First Capital's proportionate interest. Refer to the "Non-IFRS Financial Measures" section of this MD&A.

<sup>(2)</sup> Represents the density that has been valued and included as part of the fair value of investment properties and the cost of residential inventory on the proportionate balance sheet.

First Capital determines its course of action with respect to its potential residential density on a case by case basis given the specifics of each property. First Capital's course of action for each property may include selling the property, selling the residential density rights, entering into a joint venture with a partner to develop the property or undertaking the development of the property on its own. Approximately 7.1 million or 30% of FCR's 23.5 million square feet of identified incremental density has been at least partially included as part of the fair value of investment properties and the cost of residential inventory on the proportionate balance sheet.

The value of the Trust's density and development land recognized in the Trust's proportionate balance sheet totaling \$316 million, or \$50 per buildable square foot, as presented below, consists of development land and adjacent land parcels, future pad developments and properties slated for redevelopment with limited income. As of December 31, 2025, the invested cost of the density and development land recognized in the Trust's proportionate balance sheet totaled \$353 million representing acquisition cost and pre-development costs to date.

As at December 31, 2025 <sup>(1)</sup> (in millions)	Unencumbered		Encumbered		Fair Value
	Development land	IPP with density	Development land	IPP with density	
Development land	Unzoned	\$ 24	\$ 11	\$ 35	
	Zoned	149	—	149	
	Total	<b>173</b>	<b>11</b>	<b>184</b>	
IPP with density	Unzoned	5	28	33	
	Zoned	99	—	99	
	Total	<b>104</b>	<b>28</b>	<b>132</b>	
<b>Value of density and development land</b>		<b>\$ 277</b>	<b>\$ 39</b>	<b>\$ 316</b>	

<sup>(1)</sup> At First Capital's proportionate interest. Refer to the "Non-IFRS Financial Measures" section of this MD&A.

The remaining 16.4 million square feet of identified incremental density may be included in the value of the property in the future, based on certain factors including the expiry or removal of tenant encumbrances and zoning approvals. The majority of the incremental residential density is located above income-producing shopping centres or their parking area.

### **Development Pipeline by Urban Market**

A breakdown of FCR's properties under construction, density and development land, and residential inventory by urban market is as follows:

As at December 31, 2025 (in thousands of square feet)	Incremental Density Pipeline	
	Total	% of Total
Greater Toronto Area	14,023	59.8%
Greater Montreal Area	4,505	19.2%
Greater Vancouver Area	2,246	9.5%
Greater Ottawa Area	2,036	8.7%
Greater Edmonton Area	565	2.4%
Greater Calgary Area	92	0.4%
<b>Total development pipeline</b>	<b>23,467</b>	<b>100.0%</b>

### **Entitlements Program**

First Capital has a program in place to seek entitlements for the incremental density within its portfolio. Entitlement applications are submitted based on gross floor area ("GFA").

As of December 31, 2025, entitlement submissions to date total approximately 17.6 million square feet representing 75% of FCR's 23.5 million incremental density pipeline. To date, 10.8 million square feet has been zoned and the Trust expects up to 1 million square feet of existing entitlement submissions to be zoned throughout 2026.

Entitlement Applications <sup>(1)</sup>	000's of square feet submitted for (at FCR's share):					
	Residential	Commercial	Total	Existing	Incremental	Zoned
1. Pre-2019 Entitlement Applications <sup>(2)</sup>	2,986	707	3,693	175	3,518	3,583
2. 2019 Entitlement Applications	8,075	944	9,019	317	8,702	5,901
3. 2020 Entitlement Applications	2,903	197	3,100	143	2,957	1,571
4. 2021 Entitlement Applications	1,507	20	1,527	104	1,423	1,147

<b>Total Entitlement Applications Submitted - net</b>	<b>17,070</b>	<b>1,348</b>	<b>18,418</b>	<b>778</b>	<b>17,640</b>	<b>10,795</b>

<sup>(1)</sup> Certain prior period entitlement application data has been updated to reflect subsequent resubmissions.

<sup>(2)</sup> As at December 31, 2025, all pre-2019 entitlement applications have been approved with final zoning as indicated above.

<sup>(3)</sup> Includes properties that have been fully or partially disposed of or reclassified out of density and development land for which entitlements had been previously submitted.

First Capital has approximately 6.8 million square feet of additional incremental density primarily related to the properties listed below, where entitlements have yet to be submitted.

Additional Incremental Density			
Property	Neighbourhood	City, Province	Ownership Interest %
1. Cliffcrest Plaza	Cliffcrest	Toronto, ON	100%
2. Pemberton Plaza	Pemberton	North Vancouver, BC	100%
3. Olde Oakville (future phases)	South Oakville	Oakville, ON	100%
4. Appleby Square	Appleby	Burlington, ON	100%
5. 1000 Wellington St.	Griffintown	Montreal, QC	100%
6. Centre Commercial Domaine	Longue-Pointe	Montreal, QC	100%
7. Galeries Normandie	Hwy. 15/Rue de Salaberry	Montreal, QC	100%
8. College Square		Nepean	Ottawa, ON
9. Cedarbrae Mall (future phases)	Cedarbrae	Toronto, ON	100%
10. Le Campanile	Nun's Island	Montreal, QC	100%
11. Place Michelet	Saint - Leonard	Montreal, QC	100%
12. Westmount Shopping Centre (future phases)	Westmount	Edmonton, AB	100%
13. Scott 72 Shopping Centre	120 St./72 Ave.	Delta, BC	100%
14. Semiahmoo (future phases)		South Surrey	Surrey, BC
15. Gloucester City Centre (future phases)	Gloucester	Ottawa, ON	50%

FCR continues to review each of its properties and has identified meaningful incremental density in properties that have not progressed to the point of inclusion in First Capital's incremental density pipeline, that Management expects may be included in the future.

### **2025 Development and Redevelopment Coming Online and Space Going Offline**

Development and redevelopment coming online includes both leased and unleased space transferred from development to income-producing properties at completion of construction. Costs transferred to income-producing properties often involves judgment in cost allocations related to the space transferred in the period relative to the total project. Therefore, the cost per square foot transferred in any one period may not be indicative of the total project cost per square foot.

During the third quarter of 2025, First Capital completed the transfer of 10,000 square feet of new incremental retail space to the income-producing portfolio, which completes a new 33,500 square foot space, at a total value of \$24.8 million. The retail space became occupied at an average rental rate of \$45.75 per square foot or approximately \$1.5 million in annual NOI.

During the fourth quarter of 2025, First Capital completed the transfer of 3,000 square feet of new incremental retail space to the income-producing portfolio at a total value of \$2.0 million. Approximately 2,000 square feet of the retail space transferred became occupied at an average rental rate of \$43.64 per square foot or approximately \$0.1 million in annual NOI.

For the year ended December 31, 2025, First Capital had tenant closures for redevelopment of 97,000 square feet at an average rental rate of \$11.40 per square foot, of which 87,000 square feet was demolished.

### Active Development and Redevelopment Activities

Consistent with its strategy of long-term ownership and value creation, First Capital's developments are completed based on the highest standards in architecture, construction, choice of materials, lighting, parking, vehicular access, pedestrian amenities and accessibility, as well as development to Leadership in Energy and Environmental Design ("LEED") standards. Prospectively, First Capital's development program also strives to achieve net zero carbon certification, where feasible.

As construction on large projects occurs in phases, there continues to be ongoing lease negotiations in various stages with retailers for the planned space. Leasing of residential apartments begins as the project is nearing completion.

Highlights of First Capital's active projects as at December 31, 2025 are as follows:

As at December 31, 2025				Estimated Number of Residential Units <sup>(2)</sup>	Estimated GLA/GFA under development (thousands of square feet) <sup>(2)</sup>

## **906-1st Avenue NE**

906-1st Avenue NE, Calgary, is a 29,000-SF two-storey retail development in the vibrant Bridgeland neighbourhood. The site will be anchored by a new Shoppers Drug Mart store on the ground floor and a small medical or office component on the second floor complementing the primary retail use. Construction is nearing completion with Shoppers Drug Mart taking possession shortly thereafter to begin their fitout work.

## **Edenbridge Condominiums**

Edenbridge on the Kingsway, Etobicoke, is a 9-storey condominium development that includes 209 luxury suites and approximately 7,000 square feet of retail GLA at grade. The project is located on the southeast corner of the REIT's Humbertown Shopping Centre and 89% of the units have been pre-sold. As of December 31, 2025, 157 units received occupancy, with the remainder of sold units to be occupied in Q1 2026. The Trust's 50% co-development partner in the project is Tridel.

## **Humbertown Shopping Centre (Phase III)**

Humbertown Shopping Centre, Toronto, is undergoing a transformative retail renovation that will reposition the centre to better accommodate key retailers in their preferred formats and add previously missing uses to the merchandising mix. FCR secured redevelopment rights in its favour, and as such, was able to enter into new leases at market rents with existing and new retailers in order to facilitate the centre's redevelopment.

Phase 1 involved a full renovation of the centre's south wing. Completed in the second half of 2024, all Phase 1 tenants have taken possession of their new spaces and are now open for business.

Phase 2 includes a 10,000 square foot expansion of the former undersized Loblaws store. Loblaws is in possession and completing the fitout of their newly-expanded space, with reopening scheduled for Q2 2026.

Phase 3 began alongside Phase 2 to minimize the duration of disruption at the centre. This phase includes the removal of the interior common area in the north wing of the former mall, as well as the relocation and expansion of Shoppers Drug Mart. The new Shoppers store will benefit from an improved store layout and enhanced frontage near Loblaws and LCBO. Several new units will be created as part of this phase, including much-needed space for restaurant uses. Phase 3 is expected to be completed in the second half of 2026.

## **400 King**

400 King Street West, Toronto, is a 47-storey condominium development that includes 635 suites and approximately 34,000 square feet of street front retail GLA located over two levels. The building's structure was completed in Q3. Exterior precast is largely complete and window installation has reached the 44th floor. Interior finishing work is underway, with plumbing, drywall and kitchens being installed. As of quarter end, 98% of the units have been pre-sold. The Trust's co-development partners in the project are Plazacorp and Main & Main.

## **1071 King Street West**

1071 King Street West, Toronto, is a 17-storey mixed-use development project located at the gateway to Liberty Village. The project includes 298 purpose-built rental units within an iconic flatiron building, along with streetfront retail, a new neighbourhood park, and a future connection to the West Toronto Railpath. The building's structure will be topped off in Q1 2026, and precast and window installation is well underway, reaching the 4th floor. The Trust's co-development partners in the project are Hullmark and Woodbourne.

## **Yonge & Roselawn**

Yonge and Roselawn, Toronto, is a two-tower mixed-use development project located just north of the Yonge & Eglinton intersection. The project includes 636 purpose-built rental residential units between the two buildings, reaching 24 and 30 storeys, respectively. A substantial 2-storey retail podium is included at grade, incorporating two existing heritage facades along the Yonge streetfront. In addition to the inclusion of a new public park on the site, the project includes an extensive geothermal heating and cooling system and was recently certified as a Net Zero Carbon-design building by the Canada Green Building Council. Structural formwork is well underway, with the 4th floor of the podium nearing completion and decking on the 5th floor underway. The Trust's co-development partner in the project is Woodbourne.

### 138 Yorkville

138 Yorkville Avenue, Toronto, is a 31-storey ultra-luxury condominium tower that includes approximately 70 large-size suites and approximately 40,000 square feet of high-end retail at its base. Located on the northeast corner of Avenue Road and Yorkville Avenue, the property is situated prominently at the “gateway” to Toronto’s prestigious Yorkville neighbourhood, and it will be integrated into the REIT’s Yorkville Village shopping centre. Construction of the underground structure is nearing completion, with above-grade work beginning in Q1 2026. The Trust’s co-development partner in the project is Greybrook Realty Partners.

### Leasing and Occupancy

As at December 31, 2025, total portfolio occupancy remained consistent at 97.1%, while Same Property occupancy increased 0.1% to 97.2% compared to September 30, 2025 occupancy rates. Total portfolio and Same Property occupancy increased 0.3% and 0.2%, respectively, compared to December 31, 2024 occupancy rates.

For the year ended December 31, 2025, the monthly average occupancy for the total portfolio was 97.0% compared to 96.2%, and the Same Property portfolio occupancy was 97.1% compared to 96.3% for the prior year, respectively.

Occupancy of First Capital's portfolio by property categorization was as follows:

As at (square feet in thousands)	December 31, 2025			December 31, 2024		
	Total Occupied Square Feet	% Occupied	Weighted Average Rate per Occupied Square Foot	Total Occupied Square Feet	% Occupied	Weighted Average Rate per Occupied Square Foot

Total <sup>(3)</sup>	<b>18,400</b>	<b>97.1%</b>	<b>\$ 24.73</b>	18,686	96.8%	\$ 24.00

<sup>(1)</sup> Includes current year and prior year acquisitions.

<sup>(2)</sup> Comparative information presented relates to 2025 dispositions that have been completed and no longer form part of these metrics as at December 31, 2025.

<sup>(3)</sup> At FCR's ownership interest.

During the three months ended December 31, 2025, First Capital completed 522,000 square feet of lease renewals across the portfolio. First Capital achieved a 15.8% lease renewal rate increase when comparing the per square foot net rental rate in the first year of the renewal term to the per square foot net rental rate of the last year of the expiring term. For the three months ended December 31, 2025, First Capital achieved a 20.2% lease renewal rate increase when comparing the average net rental rate over the renewal term to the net rental rate in the last year of the expiring term.

The average rental rate per occupied square foot for the total portfolio increased 0.7% from \$24.57 as at September 30, 2025 to \$24.73 as at December 31, 2025 primarily due to renewal lifts and rent escalations.

Changes in First Capital's gross leasable area and occupancy for the total portfolio for the three months ended December 31, 2025 are set out below:

Three months ended December 31, 2025	Total Same Property			Major redevelopment, ground-up, acquisitions, dispositions, density & development land			Vacancy			Total Portfolio <sup>(1)</sup>

## MANAGEMENT'S DISCUSSION AND ANALYSIS – continued

During the year ended December 31, 2025, First Capital completed 2,201,000 square feet of lease renewals across the portfolio. First Capital achieved a 14.8% lease renewal rate increase when comparing the per square foot net rental rate in the first year of the renewal term to the per square foot net rental rate of the last year in the expiring term. For the year ended December 31, 2025, First Capital achieved a 19.7% lease renewal rate increase when comparing the average net rental rate over the renewal term to the net rental rate in the last year of the expiring term.

The average rental rate per occupied square foot for the total portfolio increased 3.0% from \$24.00 as at December 31, 2024 to \$24.73 as at December 31, 2025 primarily due to renewal lifts, rent escalations, and dispositions.

Changes in First Capital's gross leasable area and occupancy for the total portfolio for the year ended December 31, 2025 are set out below:

Year ended December 31, 2025	Total Same Property			Major redevelopment, ground-up, acquisitions, dispositions, density & development land			Vacancy			Total Portfolio <sup>(1)</sup>

## Top Forty Tenants

As at December 31, 2025, 54.7% of First Capital's annualized minimum rent came from its top 40 tenants (December 31, 2024 – 55.8%). Of these rents, 71.6% (December 31, 2024 – 71.1%) came from tenants that have investment grade credit ratings and who represent many of Canada's leading grocery stores, pharmacies, national and discount retailers, financial institutions and other familiar retailers. The weighted average remaining lease term for First Capital's top 10 tenants was 5.6 years as at December 31, 2025, excluding contractual renewal options.

## Lease Maturity Profile

First Capital's lease maturity profile for its portfolio as at December 31, 2025, excluding any contractual renewal options, is as follows:

Maturity Date	Number of Locations	Occupied Square Feet (thousands)	Percent of Total Square Feet	Annualized Minimum Rent at Expiration (thousands)	Percent of Total Annualized Minimum Rent	Average Annual Minimum Rent per Square Foot at Expiration
Month-to-month tenants <sup>(1)</sup>	107	166	0.9%	\$ 3,963	0.8%	\$ 23.93
2026	336	1,053	5.6%	28,742	5.7%	27.30
2027	605	2,643	13.9%	67,104	13.3%	25.39
2028	585	3,054	16.1%	72,747	14.4%	23.82
2029	580	2,731	14.4%	67,238	13.4%	24.62
2030	546	2,169	11.4%	60,422	12.0%	27.86
2031	332	1,586	8.4%	44,494	8.8%	28.05
2032	153	887	4.7%	22,812	4.5%	25.72
2033	146	752	4.0%	21,670	4.3%	28.80
2034	160	840	4.4%	29,148	5.8%	34.69
2035	179	1,038	5.5%	37,920	7.5%	36.54
2036	87	607	3.2%	19,299	3.8%	31.79
Thereafter	52	874	4.6%	28,447	5.7%	32.56
<b>Total or Weighted Average</b>	<b>3,868</b>	<b>18,400</b>	<b>97.1%</b>	<b>\$ 504,006</b>	<b>100.0%</b>	<b>\$ 27.39</b>

<sup>(1)</sup> Includes tenants on over hold including renewals and extensions under negotiation, month-to-month tenants and tenants in space at properties with future redevelopment.

The weighted average remaining lease term for the portfolio was 5.0 years as at December 31, 2025, excluding contractual renewal options, but including month-to-month and other short-term leases.

## Investment in Joint Ventures

As at December 31, 2025, First Capital had interests in seven joint ventures that it accounts for using the equity method. First Capital's joint ventures are as follows:

Name of Entity	Name of Property/Business Activity	Location	Effective Ownership	
			December 31, 2025	December 31, 2024
Aukland and Main Developments LP	Station Place	Toronto, ON	<b>35.4%</b>	35.4%
College Square General Partnership	College Square	Ottawa, ON	<b>50.0%</b>	50.0%
Edenbridge Kingsway (Humbertown)	Humbertown Condos	Toronto, ON	<b>50.0%</b>	50.0%
Fashion Media Group GP Ltd.	Toronto Fashion Week events	Toronto, ON	<b>78.0%</b>	78.0%
FC Urban Properties, LP	199 Avenue Rd.	Toronto, ON	<b>20.0%</b>	20.0%
Lakeshore Development LP	2150 Lake Shore Blvd. W.	Toronto, ON	<b>50.0%</b>	50.0%
Stackt Properties LP	Shipping Container marketplace	Toronto, ON	<b>94.0%</b>	94.0%

First Capital has determined that these investments are joint ventures as all decisions regarding their activities are made unanimously between First Capital and its partners.

The following table reconciles the changes in First Capital's interests in its equity accounted joint ventures for the years ended December 31, 2025 and 2024:

	December 31, 2025	December 31, 2024
Balance at beginning of year	\$ 320,042	\$ 404,504
Contributions to equity accounted joint ventures	6,842	20,037
Distributions from equity accounted joint ventures	(5,712)	(5,533)
Distribution of net assets from equity accounted joint venture	—	(60,028)
Share of profit (loss) from equity accounted joint ventures	(35,740)	(38,938)
Balance at end of year	\$ 285,432	\$ 320,042

On February 28, 2024, Green Capital Limited Partnership was dissolved and the net assets distributed to its limited partners. The Trust held a 50% interest in the partnership and received net assets of \$60.0 million. Concurrently with the dissolution, the Trust sold its 50% interest in the Royal Orchard property for net proceeds of \$59.7 million.

## Loans, Mortgages and Other Assets

As at	December 31, 2025	December 31, 2024
<b>Non-current</b>		
Loans and mortgages receivable classified as amortized cost (a)	\$ 50,447	\$ 14,178
Other investments	13,444	12,506
Due from co-owners (b)	90,027	62,044
<b>Total non-current</b>	<b>153,918</b>	88,728
<b>Current</b>		
Loans and mortgages receivable classified as amortized cost (a)	70,718	81,657
FVTPL investments in securities (c)	3,557	3,246
<b>Total current</b>	<b>74,275</b>	84,903
<b>Total</b>	<b>\$ 228,193</b>	\$ 173,631

(a) Loans and mortgages receivable are secured by interests in investment properties or shares of entities owning investment properties. As at December 31, 2025, these receivables bear interest at weighted average effective interest rates of 8.3% (December 31, 2024 – 8.9%) and mature between 2026 and 2030.

(b) The Trust has contributed equity to one of its co-ownerships whereas its partners made draws on the co-ownership's new credit facility to fund the co-ownership's development project. The due from co-owners in the principal amount of \$80.3 million (December 31, 2024 - \$55.8 million) equals the Trust's proportionate share of the co-ownership's credit facility draws. As there is no right of offset for these two financial instruments they are presented on a gross basis on the consolidated balance sheets.

(c) From time to time, First Capital invests in publicly traded real estate and related securities. These securities are recorded at market value. Realized and unrealized gains and losses on FVTPL securities are recorded in other gains (losses) and (expenses).

## RESULTS OF OPERATIONS

### Net Operating Income

First Capital's net operating income for its portfolio is presented below:

	Three months ended December 31			Year ended December 31		
	% change	2025	2024	% change	2025	2024
<b>Property rental revenue</b>						
Base rent <sup>(1)</sup>		\$ 113,927	\$ 111,097		\$ 452,105	\$ 440,372
Operating cost recoveries		32,310	30,055		122,486	114,751
Realty tax recoveries		32,007	30,601		126,376	121,015
Lease termination fees		2,581	504		3,648	6,384
Percentage rent		859	825		2,578	2,947
Straight-line rent adjustment		(490)	2,365		2,903	7,168
Prior year operating cost and tax recovery adjustments		(722)	91		393	1,022
Temporary tenants, storage, parking and other		4,905	4,834		20,748	19,865
<b>Total Property rental revenue</b>	<b>2.8%</b>	<b>\$ 185,377</b>	<b>\$ 180,372</b>	<b>2.5%</b>	<b>\$ 731,237</b>	<b>\$ 713,524</b>
<b>Property operating costs</b>						
Recoverable operating expenses		32,851	31,844		130,134	125,804
Recoverable realty tax expense		35,515	34,591		141,132	137,288
Prior year realty tax expense (recovery)		(33)	(17)		(10)	(178)
Other operating costs and adjustments <sup>(2)</sup>		269	1,038		45	3,322
<b>Total Property operating costs</b>		<b>\$ 68,602</b>	<b>\$ 67,456</b>		<b>\$ 271,301</b>	<b>\$ 266,236</b>
<b>NOI <sup>(3)</sup></b>	<b>3.4%</b>	<b>\$ 116,775</b>	<b>\$ 112,916</b>	<b>2.8%</b>	<b>\$ 459,936</b>	<b>\$ 447,288</b>
<b>NOI margin</b>		<b>63.0%</b>	<b>62.6%</b>		<b>62.9%</b>	<b>62.7%</b>

<sup>(1)</sup> Includes residential revenue.

<sup>(2)</sup> Includes residential operating costs and bad debt expense (recovery). For the three months and year ended December 31, 2025, bad debt expense (recovery) totaled (\$0.2) million and (\$0.5) million, respectively (three months and year ended December 31, 2024 - \$Nil and (\$0.7) million, respectively).

<sup>(3)</sup> Refer to the "Non-IFRS Financial Measures" section of this MD&A.

For the three months ended December 31, 2025, total NOI increased \$3.9 million compared to the prior year period, primarily due to higher base rent, higher contributions from lease termination fees and higher net operating cost and tax recoveries year over year, partially offset by lower adjustments in straight-line rent.

For the year ended December 31, 2025, total NOI increased \$12.6 million over prior year, primarily due to higher base rent, higher net operating cost and tax recoveries and lower non-recoverable expenditures year over year, partially offset by higher contributions from lease termination fees in 2024 and lower adjustments in straight-line rent year over year.

For the three months and year ended December 31, 2025, property operating costs include \$6.8 million and \$27.2 million, respectively (three months and year ended December 31, 2024 – \$6.3 million and \$25.5 million, respectively) related to employee compensation.

## Same Property NOI Growth

First Capital's net operating income for its portfolio by property category is presented below:

	Three months ended December 31			Year ended December 31		
	% change	2025	2024	% change	2025	2024
Property rental revenue						
Base rent <sup>(1)</sup>	\$ 111,174	\$ 106,861		\$ 439,311	\$ 423,328	
Operating cost recoveries	31,337	28,858		118,701	109,733	
Realty tax recoveries	31,155	29,414		122,637	116,250	
Lease termination fees	2,581	504		3,648	6,127	
Percentage rent	793	749		2,343	2,688	
Prior year operating cost and tax recovery adjustments	(715)	91		322	1,472

Prior year realty tax expense	(33)	55		59	(62)	
Other operating costs and adjustments <sup>(2)</sup>	1,002	1,387		2,827	4,359	
<b>Total Same Property operating costs</b>	<b>66,581</b>	<b>64,735</b>		<b>262,618</b>	<b>254,717</b>	
<b>Total Same Property NOI <sup>(3)</sup></b>	<b>7.9%</b>	<b>\$ 114,599</b>	<b>\$ 106,245</b>	<b>5.2%</b>	<b>\$ 444,740</b>	<b>\$ 422,928</b>
Major redevelopment		2,895	2,661		11,662	10,501
Acquisitions – 2025		99	0		362	0
Acquisitions – 2024		676	648		2,582	2,319
Assets classified as held for sale		89	64		293	384
Dispositions – 2025		(101)	1,072		1,107	4,208
Dispositions – 2024		9	533		137	3,125
Straight-line rent adjustment		(502)	2,434		2,991	7,340
Development land		411	1,247		2,170	4,070
NOI at First Capital's proportionate interest <sup>(3)</sup>	2.8%	\$ 118,175	\$ 114,904	2.5%	\$ 466,044	\$ 454,875
NOI related to equity accounted joint ventures & NCI		(1,400)	(1,988)		(6,108)	(7,587)
NOI per consolidated statements of income (loss)		\$ 116,775	\$ 112,916		\$ 459,936	\$ 447,288
NOI margin		63.0%	62.6%		62.9%	62.7%

<sup>(1)</sup> Includes residential revenue.

<sup>(2)</sup> Includes residential operating costs and bad debt expense.

<sup>(3)</sup> Refer to the "Non-IFRS Financial Measures" section of this MD&A.

The components of Same Property ("SP") NOI growth and comparisons to the same prior year period are as follows:

	Three months ended December 31		Year ended December 31	
	2025	2024 <sup>(1)</sup>	2025	2024 <sup>(1)</sup>
Same Property – Stable	7.9%	2.9%	5.1%	4.4%
Same Property with redevelopment	4.4%	(4.8%)	11.0%	5.5%
<b>Total Same Property NOI Growth <sup>(2)</sup></b>	<b>7.9%</b>	<b>2.7%</b>	<b>5.2%</b>	<b>4.4%</b>

<sup>(1)</sup> Prior periods as reported; not restated to reflect current period property categories.

<sup>(2)</sup> Refer to the "Non-IFRS Financial Measures" section of this MD&A.

For the three months ended December 31, 2025, Total Same Property NOI increased 7.9% over the prior year period. The growth was primarily due to rental rate growth, higher year-over-year occupancy, and a year-over-year increase in lease termination fees of \$2.1 million. Same Property NOI excluding bad debt expense (recovery) and lease termination fees increased 5.7%.

For the year ended December 31, 2025, Total Same Property NOI increased by 5.2% over prior year, primarily due to rental rate growth and higher year-over-year occupancy, partially offset by a year-over-year decrease in lease termination fees of \$2.5 million. Same Property NOI excluding bad debt expense (recovery) and lease termination fees increased 5.9%.

### Interest and Other Income

	Three months ended December 31				Year ended December 31	
	2025		2024		2025	2024
	\$		\$		\$	
Interest, dividend and distribution income from cash, marketable securities and other investments	\$	743	\$	943	\$	3,917
Interest income from loans and mortgages receivable at amortized cost		2,547		3,511		9,422
Fees and other income <sup>(1)</sup>		2,476		1,634		9,135
<b>Total</b>	<b>\$</b>	<b>5,766</b>	<b>\$</b>	<b>6,088</b>	<b>\$</b>	<b>22,474</b>
						47,118

<sup>(1)</sup> For the year ended December 31, 2024, fees and other income includes a density bonus of \$11.3 million related to a previously sold property which received final zoning approval in the third quarter of 2024 as well as a \$9.5 million fee related to the assignment of a purchase and sale agreement for a parcel of land.

For the three months ended December 31, 2025, interest and other income decreased \$0.3 million over the prior year period, primarily due to lower bank interest income earned as a result of lower outstanding cash balances and interest rates year over year.

For the year ended December 31, 2025, interest and other income decreased \$24.6 million over prior year, primarily due to non-recurring items, namely, an \$11.3 million density bonus, recognized in the third quarter of 2024, and a \$9.5 million assignment fee, recognized in the first quarter of 2024, as well as lower bank interest income earned as a result of lower outstanding cash balances and interest rates year over year.

### Interest Expense

First Capital's interest expense by type is as follows:

	Three months ended December 31				Year ended December 31	
	2025		2024		2025	2024
	\$		\$		\$	
Mortgages	\$	12,203	\$	12,790	\$	49,223
Credit facilities		6,989		11,790		31,727
Senior unsecured debentures		26,447		22,791		98,779
Interest capitalized		(5,241)		(4,971)		(20,935)
<b>Interest expense</b>	<b>\$</b>	<b>40,398</b>	<b>\$</b>	<b>42,400</b>	<b>\$</b>	<b>158,794</b>
						166,163

For the three months and year ended December 31, 2025, interest expense decreased \$2.0 million and \$7.4 million, respectively, compared to the prior year periods primarily due to the repayment of fixed rate unsecured term loans and mortgages year over year, partially offset by the year over year net activity in senior unsecured debentures (issuances exceeding repayments).

During the years ended December 31, 2025 and 2024, approximately 11.6% or \$20.9 million, and 10.2% or \$18.8 million, respectively, of interest expense was capitalized to real estate investments under active development or redevelopment as well as for land or properties held for development.

## Corporate Expenses

First Capital's corporate expenses are as follows:

	Three months ended December 31		Year ended December 31	
	2025	2024	2025	2024
Salaries, wages and benefits	\$ 8,710	\$ 8,240	\$ 33,744	\$ 33,223
Unit-based compensation	2,825	2,684	10,924	10,372
Other corporate costs	3,531	3,410	14,447	15,052
Total corporate expenses	15,066	14,334	59,115	58,647
Amounts capitalized to investment properties under development	(1,786)	(1,777)	(7,381)	(7,559)
Corporate expenses	\$ 13,280	\$ 12,557	\$ 51,734	\$ 51,088

For the three months and year ended December 31, 2025, gross corporate expenses, before capitalization, increased by \$0.7 million and \$0.5 million, respectively, over the prior year periods, primarily due to higher compensation expense incurred year over year.

First Capital manages substantially all acquisitions, development and redevelopment and leasing activities internally. Certain internal costs directly related to development, including salaries and related costs for planning, zoning, construction and so forth, are capitalized in accordance with IFRS to development projects as incurred. During the years ended December 31, 2025 and 2024, approximately \$7.4 million and \$7.6 million, respectively, of compensation-related and other corporate expenses were capitalized to real estate investments for properties undergoing development or redevelopment projects. Amounts capitalized are based on development and pre-development projects underway. Changes in capitalized corporate expenses are primarily the result of timing of completion of development and redevelopment projects and First Capital's current level of pre-development and early redevelopment activity.

## Other Gains (Losses) and (Expenses)

First Capital's other gains, losses and expenses are as follows:

Three months ended December 31	2025		2024	
	Consolidated Statements of Income (Loss)	Included in FFO	Consolidated Statements of Income (Loss)	Included in FFO
Unrealized gain (loss) on marketable securities	\$ 41	\$ 41	\$ (123)	\$ (123)
Pre-selling costs of residential inventory	(270)	(270)	(1,459)	(1,459)
Investment property selling costs	421	—	(641)	—
Restructuring and advisory costs <sup>(1)</sup>	(4,769)	(4,769)	—	—
Gain (loss) on foreign currency translation	2,421	2,421	(9,494)	(9,494)
Gain (loss) on mark-to-market of derivatives <sup>(2)</sup>	(1,092)	(1,092)	10,972	10,972
Total per consolidated statements of income (loss)	\$ (3,248)	\$ (3,669)	\$ (745)	\$ (104)
Pre-selling costs of residential inventory applicable to NCI	1	1	2	2
Investment property selling costs applicable to NCI	—	—	—	—
Other gains (losses) and (expenses) under equity accounted joint ventures <sup>(3)</sup>	(288)	(288)	(77)	(77)
Total at First Capital's proportionate interest <sup>(4)</sup>	\$ (3,535)	\$ (3,956)	\$ (820)	\$ (179)

<sup>(1)</sup> The Trust incurred \$4.8 million in restructuring and advisory costs for the three months ended December 31, 2025 related to the Arrangement, including legal and tax advisory fees as well as land transfer tax applicable in Quebec.

<sup>(2)</sup> The Trust enters into cross-currency swap derivatives to manage interest rate risk and foreign currency risk on its US denominated variable rate debt instruments.

<sup>(3)</sup> Other gains (losses) and (expenses) under equity accounted joint ventures, included in FFO, is comprised of pre-selling costs of residential inventory of \$0.3 million (December 31, 2024 - \$0.1 million).

<sup>(4)</sup> Refer to the "Non-IFRS Financial Measures" section of this MD&A.

For the three months ended December 31, 2025, First Capital recognized \$3.2 million in other losses in its consolidated statements of income (loss) compared to \$0.7 million in other losses for the prior year period. The \$2.5 million net decrease in other losses over prior year is primarily due to \$4.8 million of restructuring and advisory costs related to the Trust's

internal tax reorganization and mark to market (non-cash) fluctuations on outstanding derivative financial instruments employed by the Trust to reduce its borrowing costs and fix the rate of interest on certain variable-rate term loans. Also contributing to the variance is the movement in the US to CDN dollar exchange rate driving gains or losses on the translation of the Trust's US denominated debt.

Year ended December 31	2025			2024	
	Consolidated Statements of Income (Loss)	Included in FFO	Consolidated Statements of Income (Loss)	Included in FFO	
Unrealized gain (loss) on marketable securities	\$ 311	\$ 311	\$ 445	\$ 445

Gain (loss) on foreign currency translation	7,253	7,253	(16,291)	(16,291)	
Gain (loss) on mark-to-market of derivatives <sup>(2)</sup>	(5,608)	(5,608)	16,221	16,221	
Total per consolidated statements of income (loss)	\$ (8,436)	\$ (5,893)	\$ (4,532)	\$ (1,100)	
Pre-selling costs of residential inventory applicable to NCI	2	2	5	5	
Investment property selling costs applicable to NCI	16	—	26	—	
Other gains (losses) and (expenses) under equity accounted joint ventures <sup>(3)</sup>	(549)	(549)	(167)	(167)	
Total at First Capital's proportionate interest <sup>(4)</sup>	\$ (8,967)	\$ (6,440)	\$ (4,668)	\$ (1,262)	

<sup>(1)</sup> The Trust incurred \$6.8 million in restructuring and advisory costs for the year ended December 31, 2025 related to the Arrangement, including legal and tax advisory fees as well as land transfer tax applicable in Quebec.

<sup>(2)</sup> The Trust enters into cross-currency swap derivatives to manage interest rate risk and foreign currency risk on its US denominated variable rate debt instruments.

<sup>(3)</sup> Other gains (losses) and (expenses) under equity accounted joint ventures, included in FFO, is comprised of pre-selling costs of residential inventory of \$0.5 million (December 31, 2024 - \$0.2 million).

<sup>(4)</sup> Refer to the "Non-IFRS Financial Measures" section of this MD&A.

For the year ended December 31, 2025, First Capital recognized \$8.4 million in other losses in its consolidated statements of income (loss) compared to \$4.5 million in other losses for the prior year. The \$3.9 million net decrease in other losses over prior year is primarily due to \$6.8 million of restructuring and advisory costs related to the Trust's internal tax reorganization and a \$21.8 million increase in unrealized losses on the mark to market of derivatives, largely offset by a \$23.5 million increase in gains on foreign currency translation year over year.

## Income Taxes

For the three months and years ended December 31, 2025 and 2024, deferred income tax expense (recovery) totaled (\$746.6) million and (\$763.4) million, respectively, compared to \$39.3 million and \$14.3 million, respectively, over the prior year periods. The changes in deferred income tax expense (recovery) amounts over the prior year periods are substantially driven by the remeasurement of deferred income taxes as a result of the internal tax reorganization in Q4 2025 whereby the Trust's organizational structure was simplified by eliminating First Capital Realty Inc. ("FCRI") as the Trust's wholly-owned corporate subsidiary (also a Mutual Fund Corporation) that owned, directly and indirectly, all of First Capital's real property portfolio.

## Net Income (Loss) Attributable to Unitholders

For the three months ended December 31, 2025, net income (loss) attributable to Unitholders was \$849.5 million or \$3.95 per diluted unit compared to \$32.1 million or \$0.15 per diluted unit for the same prior year period. The \$817.4 million increase in net income over prior year was primarily due to the remeasurement of deferred income taxes in the fourth quarter of 2025 as a result of the Trust's internal tax reorganization resulting in a deferred income tax recovery of \$746.7 million versus \$39.3 million of deferred income tax expense in the fourth quarter of 2024. Additionally, the fair value of investment property increased \$36.1 million in the fourth quarter of 2025 versus a \$3.6 million increase in fair value of investment property recognized in the fourth quarter of 2024, on a proportionate basis.

For the year ended December 31, 2025, net income (loss) attributable to Unitholders was \$1.1 billion or \$4.96 per diluted unit compared to \$204.9 million or \$0.96 per diluted unit for the same prior year period. The \$859.1 million increase in net

income over prior year was primarily due to the remeasurement of deferred income taxes as a result of the Trust's internal tax reorganization resulting in a deferred income tax recovery of \$763.5 million for the year versus \$14.3 million of deferred income tax expense in 2024. Additionally, the fair value of investment property increased \$44.2 million in 2025 versus a \$49.6 million decrease in fair value of investment property recognized in 2024, on a proportionate basis.

## CAPITAL STRUCTURE AND LIQUIDITY

### Total Capital Employed

The real estate business is capital intensive by nature. First Capital's capital structure is key to financing growth and providing sustainable cash distributions to Unitholders. In the real estate industry, financial leverage is used to enhance rates of return on invested capital. Management believes that the combination of debt and equity in FCR's capital structure provides stability and reduces risk, while generating an acceptable return on investment, taking into account the long-term business strategy of First Capital.

As at	December 31, 2025	December 31, 2024
<b>Liabilities (principal amounts outstanding)</b>		
Mortgages <sup>(1)</sup>	\$ 1,268,973	\$ 1,336,596
Credit facilities <sup>(1)</sup>	546,421	741,449
Senior unsecured debentures	2,300,000	2,100,000
Total Debt <sup>(1)</sup>	\$ 4,115,394	\$ 4,178,045
Cash and cash equivalents <sup>(1)</sup>	(62,446)	(158,941)
Net Debt <sup>(1)(2)</sup>	\$ 4,052,948	\$ 4,019,104
Equity market capitalization <sup>(3)</sup>	4,015,351	3,600,991
Enterprise value <sup>(1)</sup>	\$ 8,068,299	\$ 7,620,095
Trust Units outstanding (000's)	212,452	212,323
Closing market price	\$ 18.90	\$ 16.96

<sup>(1)</sup> At First Capital's proportionate interest. Refer to the "Non-IFRS Financial Measures" section of this MD&A.

<sup>(2)</sup> Net Debt is a non-IFRS measure that is calculated as the sum of total debt including principal amounts outstanding on credit facilities and mortgages, bank indebtedness and the par value of senior unsecured debentures reduced by the cash balances at the end of the period on a proportionate basis.

<sup>(3)</sup> Equity market capitalization is the market value of FCR's units outstanding at December 31, 2025 and December 31, 2024. The measure is not defined by IFRS, does not have a standard definition and, as such, may not be comparable to similar measures disclosed by other issuers.

### Key Metrics

The ratios below include measures not specifically defined in IFRS.

As at	December 31, 2025	December 31, 2024
Weighted average effective interest rate on mortgages, fixed rate unsecured term loans and senior unsecured debentures	4.5%	4.3%
Weighted average maturity on mortgages, fixed rate unsecured term loans and senior unsecured debentures (years)	4.5	3.7
Net debt to total assets <sup>(1)</sup>	44.1%	44.5%
Net debt to Adjusted EBITDA <sup>(1)</sup>	9.1	8.7
Unencumbered aggregate assets <sup>(1)</sup>	\$ 6,267,574	\$ 6,249,755
Unencumbered aggregate assets to unsecured debt, based on fair value <sup>(1)</sup>	2.4	2.3
Adjusted EBITDA interest coverage <sup>(1)</sup>	2.4	2.4

<sup>(1)</sup> Calculated with joint ventures proportionately consolidated in accordance with FCR's debt covenants. Total assets excludes cash balances. Refer to the "Non-IFRS Financial Measures" section of this MD&A.

The Net debt to Adjusted EBITDA ratio increased by 0.4x to 9.1x, as of December 31, 2025, primarily due to an increase in net debt of \$33.8 million and a \$13.4 million decrease in adjusted EBITDA on a rolling four quarter basis.

Measures used in these ratios are defined below:

- Debt consists of principal amounts outstanding on credit facilities and mortgages, and the par value of senior unsecured debentures;
- Net debt is calculated as Debt, as defined above, reduced by cash balances at the end of the period;
- Adjusted EBITDA, is calculated as net income (loss), adding back income tax expense; interest expense; and amortization and excluding the increase or decrease in the fair value of investment properties and unit-based compensation; other gains (losses) and (expenses); and other non-cash or non-recurring items on a proportionate basis. The Trust also adjusts for incremental leasing costs, which is a recognized adjustment to Funds from Operations, in accordance with the recommendations of the REALPAC;
- Unencumbered assets include the value of assets that have not been pledged as security under any credit agreement or mortgage. The unencumbered asset value ratio is calculated as unencumbered assets divided by the principal amount of the unsecured debt, which consists of the bank indebtedness, unsecured bank term loans, unsecured credit facilities and senior unsecured debentures.

### **Adjusted EBITDA**

Adjusted EBITDA is a non-IFRS measure that is calculated as net income (loss), adding back income tax expense, interest expense and amortization and excluding the increase or decrease in the fair value of investment properties, fair value gains or losses on unit-based compensation and other non-cash or non-recurring items on a proportionate basis. First Capital also adjusts for incremental leasing costs, which is a recognized adjustment to FFO, in accordance with the recommendations of REALPAC.

The following table reconciles First Capital's net income (loss) to Adjusted EBITDA for the three months and years ended December 31, 2025 and 2024:

	Three months ended December 31			Year ended December 31				
	2025		2024	2025		2024		
	\$	849,522	\$	32,081	\$	1,064,030	\$	204,933
Net income (loss) attributable to Unitholders								
Add (deduct) <sup>(1)</sup> :								
Deferred income tax expense (recovery)		(746,680)		39,271		(763,542)		14,253
Interest Expense		41,318		43,326		162,499		170,050
Amortization expense		763		754		2,823		2,951
(Increase) decrease in fair value of investment properties		(36,135)		(3,585)		(44,212)		49,641
Increase (decrease) in value of unit-based compensation		(1,306)		(3,926)		7,489		5,381
Incremental leasing costs		2,130		1,834		8,050		7,577
Abandoned transaction (costs) recovery		5		10		17		46
Other non-cash and/or non-recurring items		3,535		820		8,967		4,668
Adjusted EBITDA <sup>(1)</sup>	\$	113,152	\$	110,585	\$	446,121	\$	459,500

<sup>(1)</sup> At First Capital's proportionate interest. Refer to the "Non-IFRS Financial Measures" section of this MD&A.

### **Credit Ratings**

On June 10, 2025, DBRS confirmed FCR's Issuer Rating and Senior Unsecured Debentures credit rating at BBB with positive trends.

According to DBRS, a credit rating in the BBB category is generally an indication of adequate credit quality and an acceptable capacity for the payment of financial obligations. DBRS indicates that BBB rated obligations may be vulnerable to future events. A rating trend, expressed as positive, stable or negative, provides guidance in respect of DBRS' opinion regarding the outlook for the rating in question.

## Outstanding Debt and Principal Maturity Profile

The maturity profile including scheduled amortization of First Capital's mortgages and credit facilities as well as its senior unsecured debentures as at December 31, 2025 is summarized in the table below:

As at December 31, 2025	Mortgages <sup>(1)</sup>	Credit Facilities/Bank Indebtedness <sup>(1)</sup>	Senior Unsecured Debentures	Total	% Due
2026	\$ 124,785	\$ 223,683	\$ —	\$ 348,468	8.7%
2027	101,294	80,253	500,000	681,547	17.1%
2028	173,054	—	200,000	373,054	9.3%
2029	257,650	208,046	—	465,696	11.7%
2030	203,616	—	200,000	403,616	10.1%
2031	61,921	—	300,000	361,921	9.1%
2032	19,695	—	300,000	319,695	8.0%
2033	191,912	—	300,000	491,912	12.3%
2034	47,147	—	250,000	297,147	7.4%
2035	—	—	250,000	250,000	6.3%
	\$ 1,181,074	\$ 511,982	\$ 2,300,000	\$ 3,993,056	100.0%
Add (deduct): unamortized deferred financing costs, premiums and discounts, net	(3,037)	—	(8,409)	(11,446)	
<b>Total</b>	<b>\$ 1,178,037</b>	<b>\$ 511,982</b>	<b>\$ 2,291,591</b>	<b>\$ 3,981,610</b>	

<sup>(1)</sup> Principal amounts outstanding for mortgages and credit facilities on a proportionate basis is \$1,268,973 and \$546,421, respectively.

First Capital's strategy is to manage its long-term debt by staggering maturity dates in order to mitigate risk associated with short-term volatility in the debt markets. First Capital also intends to maintain financial flexibility to support a reasonable cost of debt and equity capital over the long term.

## Mortgages

The changes in First Capital's mortgages during the year ended December 31, 2025 are set out below:

Year ended December 31, 2025	Amount	Weighted Average Effective Interest Rate
Balance at beginning of year	\$ 1,243,786	3.9%
Mortgage borrowings	23,175	4.6%
Mortgage repayments	(55,895)	3.3%
Scheduled amortization on mortgages	(33,184)	—%
Amortization of financing costs and net premium	155	—%
<b>Balance at end of year</b>	<b>\$ 1,178,037</b>	<b>3.9%</b>

The maturity profile, including scheduled amortization, of First Capital's mortgages as at December 31, 2025 is summarized in the table below:

As at December 31, 2025	Scheduled Amortization	Payments on Maturity	Total	Weighted Average Effective Interest Rate
2026	\$ 30,425	\$ 94,360	\$ 124,785	3.2%
2027	29,568	71,726	101,294	3.6%
2028	27,331	145,723	173,054	3.8%
2029	20,770	236,880	257,650	3.5%
2030	13,661	189,955	203,616	3.4%
2031	6,966	54,955	61,921	3.5%
2032	6,934	12,761	19,695	4.3%
2033	1,689	190,223	191,912	5.1%
2034	532	46,615	47,147	5.5%
	<b>\$ 137,876</b>	<b>\$ 1,043,198</b>	<b>\$ 1,181,074</b>	<b>3.9%</b>
Add: unamortized deferred financing costs and premiums and discounts, net			(3,037)	
<b>Total</b>			<b>\$ 1,178,037</b>	

As at December 31, 2025, 100% (December 31, 2024 – 100%) of the outstanding mortgages bore interest at fixed interest rates. The average remaining term on mortgages outstanding was 4.2 years as at December 31, 2025 on \$1.2 billion of mortgages (4.8 years as at December 31, 2024 on \$1.2 billion of mortgages) after reflecting borrowing activity and repayments during the period.

## Credit Facilities

First Capital's credit facilities as at December 31, 2025 are summarized in the table below:

As at December 31, 2025	Borrowing Capacity	Amounts Drawn	Bank Indebtedness and Outstanding Letters of Credit	Available to be Drawn	Interest Rates	Maturity Date
<b>Unsecured Operating Facilities</b>						
Revolving unsecured operating facility	\$ 100,000	\$ —	—	\$ 100,000	CORRA + 1.55% or Prime + 0.25% or SOFR + 1.35%	September 12, 2027
Revolving unsecured operating facility	150,000	—	—	150,000	CORRA + 1.55% or Prime + 0.25% or SOFR + 1.35%	August 31, 2028
Revolving unsecured operating facility	450,000	—	(22,233)	427,767	CORRA + 1.75% or Prime + 0.45% or SOFR + 1.55%	June 30, 2030
Fixed rate unsecured term loan <sup>(1)(2)(4)</sup>	150,000	(150,923)	—	—	5.985%	October 20, 2026
Fixed rate unsecured term loan <sup>(1)</sup>	200,000	(200,000)	—	—	5.80%	January 31, 2029
<b>Secured Construction Facilities</b>						
Secured construction facility	7,500	(7,500)	—	—	Greater of 5.70% or Prime + 1.25%	June 1, 2026
Secured construction facility	62,665	(58,505)	(537)	3,623	CORRA + 2.90% or Prime + 1.00%	October 1, 2026
Secured construction facility <sup>(3)</sup>	120,206	(80,253)	(702)	39,251	CORRA + 2.60%	February 1, 2027
Secured construction facility	178,500	(8,046)	(1,479)	168,975	CORRA + 1.95% or Prime + 0.85%	November 1, 2029
<b>Secured Facility</b>						
Secured facility	6,755	(6,755)	—	—	CORRA + 1.75% or Prime + 0.45%	December 19, 2026
<b>Sub-Total</b>	<b>\$ 1,425,626</b>	<b>\$ (511,982)</b>	<b>\$ (24,951)</b>	<b>\$ 889,616</b>		
<b>Proportionate Adjustments - Secured Construction Facilities</b>						
Secured construction facility <sup>(5)</sup>	71,450	(57,809)	—	13,641	CORRA + 2.95% or Prime + 1.00%	September 30, 2026
Secured construction facility applicable to NCI	(35,005)	23,370	205	(11,430)		
<b>Total</b>	<b>\$ 1,462,071</b>	<b>\$ (546,421)</b>	<b>\$ (24,746)</b>	<b>\$ 891,827</b>		

<sup>(1)</sup> These unsecured term loans are variable rate debt instruments. The Trust has entered into swaps which fix the rate of interest over their respective terms to maturity.

<sup>(2)</sup> The Trust has drawn in U.S. dollars the equivalent of CAD\$150.0 million which was revalued at CAD\$150.9 million as at December 31, 2025.

<sup>(3)</sup> The borrowing capacity is reduced by the Trust's equity injections into the project where it has chosen not to draw on the facility and other adjustments in accordance with the facility agreement.

<sup>(4)</sup> The Trust has the option to extend the unsecured term loan for an additional two years, to October 20, 2028.

<sup>(5)</sup> This secured construction facility relates to one of the Trust's joint ventures that is equity accounted.

First Capital has the ability under its unsecured credit facilities to draw funds based on Canadian bank prime rates or Canadian Overnight Repo Rate Average ("CORRA rates") for Canadian dollar-denominated borrowings, and secured overnight financing rates ("SOFR rates") or U.S. prime rates for U.S. dollar-denominated borrowings. Concurrently with the U.S. dollar draws, the Trust enters into cross-currency swaps to exchange its U.S. dollar borrowings into Canadian dollar borrowings.

## Senior Unsecured Debentures

As at December 31, 2025		Interest Payment Dates	Interest Rate		Remaining Term to Maturity (years)	Principal Outstanding	
Series	Maturity Date		Coupon	Effective			
V	January 22, 2027	January 22, July 22	3.46%	3.54%	1.1	\$	200,000
U	July 12, 2027	January 12, July 12	3.75%	3.82%	1.5		300,000
A	March 1, 2028	March 1, September 1	3.45%	3.54%	2.2		200,000
D	June 3, 2030	June 3, December 3	4.51%	4.62%	4.4		200,000
B	March 1, 2031	March 1, September 1	5.57%	5.67%	5.2		300,000
C	June 12, 2032	June 12, December 12	5.46%	5.54%	6.5		300,000
E	June 13, 2033	June 13, December 13	4.83%	4.91%	7.5		300,000
F	February 15, 2034	February 15, August 15	4.46%	4.54%	8.1		250,000
G	February 15, 2035	February 15, August 15	4.76%	4.83%	9.1		250,000
Weighted Average or Total			4.55%	4.64%	5.2	\$	2,300,000

Interest on the senior unsecured debentures is payable semi-annually and principal is payable on maturity.

During the year ended December 31, 2024, the Trust completed the issuance of \$800 million principal amount of senior unsecured debentures, and repaid its remaining 4.79% Series R senior unsecured debentures in the amount of \$281 million.

On June 13, 2025, the Trust completed the issuance of \$300 million principal amount of Series E senior unsecured debentures due June 13, 2033. These debentures bear interest at a coupon rate of 4.83% per annum, payable semi-annually commencing December 13, 2025.

On July 31, 2025, upon maturity, the Trust repaid its 4.32% Series S senior unsecured debentures in the amount of \$300 million.

On November 14, 2025, the Trust completed the issuance of \$250 million principal amount of Series F senior unsecured debentures due February 15, 2034. These debentures bear interest at a coupon rate of 4.46% per annum, payable semi-annually commencing August 15, 2026.

On December 8, 2025, the Trust completed the issuance of \$250 million principal amount of Series G senior unsecured debentures due February 15, 2035. These debentures bear interest at a coupon rate of 4.76% per annum, payable semi-annually commencing August 15, 2026.

On December 31, 2025, the Trust repaid its 3.60% Series T Senior Unsecured Debentures in the amount of \$300 million.

## Unitholders' Equity

Unitholders' equity amounted to \$4.8 billion as at December 31, 2025, compared to Unitholders' equity of \$3.9 billion as at December 31, 2024. As at February 10, 2026, there were 212.5 million Trust Units outstanding.

### Normal Course Issuer Bid ("NCIB")

On May 16, 2025, First Capital received TSX approval for the renewal of its Normal Course Issuer Bid ("NCIB") pursuant to which it may repurchase and cancel up to 21,120,181 of its outstanding units until May 20, 2026. For the year ended December 31, 2025 and 2024, the Trust acquired no units under the NCIB. Since the inception of the NCIB on May 18, 2022, through to December 31, 2025, the Trust has acquired and cancelled 7.9 million Units at a weighted average purchase price of \$15.15 per unit, for a total cost of \$120.1 million.

### Unit Options

As at December 31, 2025, First Capital had 4.9 million unit options outstanding, with an average exercise price of \$19.98, which, if exercised, would result in First Capital receiving proceeds of \$98.6 million.

## Liquidity

Liquidity risk exists due to the possibility of First Capital not being able to generate sufficient cash flow, and/or not having access to sufficient debt and equity capital to fund its ongoing operations and growth and to refinance or meet existing payment obligations. First Capital manages its liquidity risk by staggering debt maturities, renegotiating expiring credit arrangements proactively, using revolving credit facilities, maintaining a large pool of unencumbered assets, and issuing equity when deemed appropriate.

Sources of liquidity primarily consist of cash flow from operations, cash and cash equivalents, and available capacity under First Capital's existing revolving credit facilities. If necessary, FCR is also able to obtain financing on its unencumbered assets.

The following table summarizes First Capital's liquidity position:

As at (millions of dollars)	December 31, 2025	December 31, 2024
Total available under credit facilities	\$ 890	\$ 785
Cash and cash equivalents	\$ 54	\$ 150
Unencumbered aggregate assets	\$ 6,268	\$ 6,250

First Capital has historically used mortgages, credit facilities, senior unsecured debentures, convertible debentures and equity issuances to finance its growth and repay debt. The actual level and type of future borrowings will be determined based on prevailing interest rates, various costs of debt and equity capital, capital market conditions and Management's view of the appropriate leverage for the business. Management believes that it has sufficient resources to meet its operational and investing requirements in the near and longer term based on the availability of capital.

Planned and completed financings subsequent to December 31, 2025, and availability on existing credit facilities, address substantially all of the contractual 2026 debt maturities and contractually committed costs to complete current development projects.

## Cash Flows

Cash flow from operating activities represents First Capital's primary source of liquidity for servicing debt and funding planned revenue sustaining expenditures, corporate expenses and distributions to Unitholders. Interest and other income and cash on hand are other sources of liquidity.

	Three months ended December 31		Year ended December 31	
	2025	2024	2025	2024
Cash provided by (used in) operating activities	\$ 68,343	\$ 79,837	\$ 206,711	\$ 233,790
Cash provided by (used in) financing activities	(51,890)	(48,589)	(252,501)	(204,300)
Cash provided by (used in) investing activities	12,693	56,911	(50,885)	33,380
Net change in cash and cash equivalents	\$ 29,146	\$ 88,159	\$ (96,675)	\$ 62,870

The following table presents the excess (shortfall) of cash provided by operating activities over distributions declared:

	Three months ended December 31		Year ended December 31	
	2025	2024	2025	2024
Cash provided by operating activities	\$ 68,343	\$ 79,837	\$ 206,711	\$ 233,790
Distributions declared	(47,270)	(45,861)	(189,056)	(183,397)
Excess (shortfall) of cash provided by operating activities over distributions declared <sup>(1)</sup>	\$ 21,073	\$ 33,976	\$ 17,655	\$ 50,393

<sup>(1)</sup> A shortfall is financed through the use of First Capital's credit facilities and proceeds from investing activities. Management does not believe that a shortfall in any given quarter is indicative of First Capital's sustainable cash flows due to the impact of seasonal fluctuations in its cash flows period over period. Please refer to Management's discussion on ACFO and AFFO, supplemental non-IFRS financial measures used to evaluate and monitor First Capital's sustainable cash available to pay distributions to Unitholders.

## Contractual Obligations

An analysis of First Capital's contractual maturities of its material financial liabilities and other contractual commitments, as at December 31, 2025 is set out below:

As at December 31, 2025	Payments due by period					Total
	2026	2027 to 2028	2029 to 2030	Thereafter		
Scheduled mortgage principal amortization	\$ 30,425	\$ 56,899	\$ 34,431	\$ 16,121	\$ 137,876	
Mortgage principal repayments on maturity	94,360	217,449	426,835	304,554	1,043,198	
Credit facilities and bank indebtedness	223,683	80,253	208,046	—	511,982	
Senior unsecured debentures	—	700,000	200,000	1,400,000	2,300,000	
Interest obligations <sup>(1)</sup>	170,886	274,760	205,533	177,467	828,646	
Land leases (expiring between 2027 and 2061)	686	1,279	1,265	14,378	17,608	
Contractually committed costs to complete current development projects <sup>(2)</sup>	138,012	70,878	—	—	208,890	
Other commitments	3,664	—	—	—	3,664	
<b>Total contractual obligations</b>	<b>\$ 661,716</b>	<b>\$ 1,401,518</b>	<b>\$ 1,076,110</b>	<b>\$ 1,912,520</b>	<b>\$ 5,051,864</b>	

<sup>(1)</sup> Interest obligations include expected interest payments on mortgages and credit facilities as at December 31, 2025 (assuming balances remain outstanding through to maturity) and senior unsecured debentures, as well as standby credit facility fees.

<sup>(2)</sup> Includes amounts related to equity accounted joint ventures.

First Capital had \$48.4 million of outstanding letters of credit issued by financial institutions to support certain of FCR's contractual obligations and \$Nil of bank overdrafts.

As of December 31, 2025, contractually committed costs related to the Trust's development projects is \$208.9 million (\$202.7 million at First Capital's interest). These contractual and potential obligations primarily consist of construction contracts and additional planned development expenditures and are expected to be funded in the normal course as the work is completed.

## Commitments and Contingencies

- (a) First Capital is involved in litigation and claims which arise from time to time in the normal course of business. None of these contingencies, individually or in aggregate, would result in a liability that would have a significant adverse effect on the financial position of FCR.
- (b) First Capital is contingently liable, jointly and severally or as guarantor, for approximately \$159.6 million (December 31, 2024 – \$194.1 million) to various lenders in connection with certain third-party obligations, including, without limitation, loans advanced to its joint arrangement partners secured by the partners' interest in the joint arrangements and underlying assets.
- (c) First Capital is contingently liable by way of letters of credit in the amount of \$48.4 million (December 31, 2024 – \$31.4 million), issued by financial institutions on FCR's behalf in the ordinary course of business.
- (d) First Capital has obligations as lessee under long-term leases for land. Annual commitments under these ground leases are approximately \$0.7 million (December 31, 2024 – \$0.7 million) with a total obligation of \$17.6 million (December 31, 2024 – \$18.3 million).
- (e) First Capital has outstanding purchase and other capital commitments in the amount of \$212.6 million (December 31, 2024 – \$119.3 million).

## NON-IFRS RECONCILIATIONS AND FINANCIAL MEASURES

### Reconciliation of Consolidated Balance Sheets to First Capital's Proportionate Interest

The following table provides a reconciliation of First Capital's consolidated balance sheets, as presented in its audited annual consolidated financial statements, to its proportionate interest.

As at	December 31, 2025			December 31, 2024		
	Consolidated Balance Sheet <sup>(1)</sup>	Adjustments for Proportionate Interest	Proportionate Interest <sup>(2)</sup>	Consolidated Balance Sheet <sup>(1)</sup>	Adjustments for Proportionate Interest	Proportionate Interest <sup>(2)</sup>
<b>ASSETS</b>						
Investment properties	\$ 8,212,408	\$ 259,091	\$ 8,471,499	\$ 8,040,375	\$ 287,877	\$ 8,328,252

## FFO, OFFO, AFFO and ACFO

### Funds from Operations

A reconciliation from net income (loss) attributable to Unitholders to FFO and OFFO can be found in the table below:

Three months and years ended, respectively	2025	2024	2025	2024
Net income (loss) attributable to Unitholders	\$ 849,522	\$ 32,081	\$ 1,064,030	\$ 204,933
Add (deduct):				
(Increase) decrease in fair value of investment properties <sup>(1)</sup>	(36,135)	(3,585)	(44,212)	49,641
Adjustment for equity accounted joint ventures <sup>(2)</sup>	78	77	311	384
Adjustment for capitalized interest related to equity accounted joint ventures <sup>(2)</sup>	1,166	1,092	4,524	4,127
Incremental leasing costs <sup>(3)</sup>	2,130	1,834	8,050	7,577
Increase (decrease) in value of unit-based compensation <sup>(4)</sup>	(1,306)	(3,926)	7,489	5,381
Investment property selling costs <sup>(1)</sup>	(421)	641	2,527	3,406
Deferred income taxes (recovery) <sup>(1)</sup>	(746,680)	39,271	(763,542)	14,253
FFO <sup>(5)</sup>	\$ 68,354	\$ 67,485	\$ 279,177	\$ 289,702
Deduct: Other (gains) losses and expenses included in FFO <sup>(6)</sup>	3,956	179	6,440	1,262
OFFO <sup>(5)</sup>	\$ 72,310	\$ 67,664	\$ 285,617	\$ 290,964

<sup>(1)</sup> At FCR's proportionate interest.

<sup>(2)</sup> Adjustment related to FCR's equity accounted joint ventures in accordance with the recommendations of REALPAC.

<sup>(3)</sup> Adjustment to capitalize incremental leasing costs in accordance with the recommendations of REALPAC.

<sup>(4)</sup> Adjustment to exclude fair value adjustments on unit-based compensation plans in accordance with the recommendations of REALPAC.

<sup>(5)</sup> Refer to the "Non-IFRS Financial Measures" section of this MD&A.

<sup>(6)</sup> At FCR's proportionate interest, adjusted to exclude investment property selling costs in accordance with the recommendations of REALPAC.

### Operating Funds from Operations

The components of OFFO and FFO at proportionate interest are as follows:

Three months and years ended, respectively	% change	2025	2024	% change	2025	2024
Net operating income	\$ 118,175	\$ 114,904		\$ 466,044	\$ 454,875	
Interest and other income	6,074	6,355		23,552	48,052	
Interest expense <sup>(1)</sup>	(40,152)	(42,234)		(157,975)	(165,923)	
Corporate expenses <sup>(2)</sup>	(11,097)	(10,674)		(43,475)	(43,427)	
Abandoned transaction (costs) recovery	(5)	(10)		(17)	(46)	
Amortization expense	(685)	(677)		(2,512)	(2,567)	
OFFO <sup>(4)</sup>	6.9%	\$ 72,310	\$ 67,664	(1.8%)	\$ 285,617	\$ 290,964
Other gains (losses) and (expenses) <sup>(3)</sup>		(3,956)	(179)		(6,440)	(1,262)
FFO <sup>(4)</sup>	1.3%	\$ 68,354	\$ 67,485	(3.6%)	\$ 279,177	\$ 289,702
OFFO per diluted unit	6.6%	\$ 0.34	\$ 0.32	(2.1%)	\$ 1.33	\$ 1.36
FFO per diluted unit	1.0%	\$ 0.32	\$ 0.31	(3.9%)	\$ 1.30	\$ 1.35
Weighted average number of units – diluted (in thousands)	0.3%	214,897	214,355	0.2%	214,735	214,234

<sup>(1)</sup> Includes an adjustment to capitalize interest related to FCR's equity accounted joint ventures in accordance with the recommendations of REALPAC.

<sup>(2)</sup> Includes an adjustment to capitalize incremental leasing costs in accordance with the recommendations of REALPAC.

<sup>(3)</sup> At FCR's proportionate interest, adjusted to exclude investment property selling costs in accordance with the recommendations of REALPAC.

<sup>(4)</sup> Refer to the "Non-IFRS Financial Measures" section of this MD&A.

For the three months ended December 31, 2025, OFFO of \$72.3 million, or \$0.34 per unit, increased \$4.6 million, or \$0.02 per unit, over the prior year period. Supported by strong operating metrics, the increase in Operating FFO year over year was primarily due to higher NOI of \$3.3 million and interest expense savings of \$2.1 million, partially offset by higher corporate G&A and lower interest and other income. Net operating income in the fourth quarter of 2025 included \$2.6 million of lease termination income.

For the year ended December 31, 2025, OFFO of \$285.6 million, or \$1.33 per unit, decreased \$5.3 million, or \$0.03 per unit, over prior year. The decrease was primarily due to non-recurring items recognized in the prior year, including a \$9.5 million assignment fee related to a small development parcel located in Montreal as well as a density bonus of \$11.3 million in connection with a previously sold property. Excluding these amounts, Operating FFO increased \$15.4 million, or \$0.07 per unit, over prior year primarily due to higher NOI of \$11.2 million.

For the three months ended December 31, 2025, FFO of \$68.4 million, or \$0.32 per unit, remained consistent with the prior year period. On a year over year basis, Funds From Operations was driven by higher Operating FFO of \$4.6 million, largely offset by a year over year decrease in other gains (losses) and (expenses) of \$3.8 million, which included \$4.8 million (\$0.02 per unit) of restructuring and advisory costs related to the Trust's internal tax reorganization.

For the year ended December 31, 2025, FFO decreased \$10.5 million, or \$0.05 per unit, over prior year. The decrease was driven by lower Operating FFO of \$5.3 million, and a year over year decrease in other gains (losses) and (expenses) of \$5.2 million, which included \$6.8 million (\$0.03 per unit) of restructuring and advisory costs related to the Trust's internal tax reorganization.

### ***Adjusted Funds from Operations***

A reconciliation from FFO to AFFO can be found in the table below:

<i>Three months and years ended, respectively</i>	<i>% change</i>	<i>2025</i>	<i>2024</i>	<i>% change</i>	<i>2025</i>	<i>2024</i>
FFO <sup>(1)</sup>		\$ 68,354	\$ 67,485		\$ 279,177	\$ 289,702
Add (deduct):						
Revenue sustaining capital expenditures		(8,461)	(9,399)		(29,429)	(22,869)
Recoverable capital expenditures		(5,730)	(10,488)		(18,400)	(21,318)
Incremental leasing costs		(2,130)	(1,834)		(8,050)	(7,577)
Straight-line rent adjustment		502	(2,434)		(2,991)	(7,340)
AFFO <sup>(1)</sup>	21.2%	\$ 52,535	\$ 43,330	(4.5%)	\$ 220,307	\$ 230,598
AFFO per diluted unit	20.9%	\$ 0.24	\$ 0.20	(4.7%)	\$ 1.03	\$ 1.08
Weighted average number of units – diluted (in thousands)	0.3%	214,897	214,355	0.2%	214,735	214,234

<sup>(1)</sup> Refer to the "Non-IFRS Financial Measures" section of this MD&A.

For the three months ended December 31, 2025, AFFO increased \$9.2 million, or \$0.04 per unit, primarily due to lower capital expenditures, straight-line rent adjustments, and higher FFO. For the year ended December 31, 2025, AFFO decreased \$10.3 million, or \$0.05 per unit, primarily due to lower FFO year over year.

### ***Adjusted Cash Flow from Operations***

A reconciliation of cash provided by operating activities to ACFO is presented below:

<i>Three months and years ended, respectively</i>	<i>2025</i>	<i>2024</i>	<i>2025</i>	<i>2024</i>
Cash provided by operating activities	\$ 68,343	\$ 79,837	\$ 206,711	\$ 233,790
Add (deduct):				
Working capital adjustments <sup>(1)</sup>	1,404	(17,815)	57,756	24,956
Adjustment for equity accounted joint ventures	1,605	1,426	6,324	4,702
Revenue sustaining capital expenditures	(8,461)	(9,399)	(29,429)	(22,869)
Recoverable capital expenditures	(5,730)	(10,488)	(18,400)	(21,318)
Leasing costs on properties under development	533	458	2,013	1,894
Non-controlling interest	498	(271)	197	(423)
ACFO <sup>(2)</sup>	\$ 58,192	\$ 43,748	\$ 225,172	\$ 220,732

<sup>(1)</sup> Working capital adjustments primarily include adjustments for prepaid as well as accrued property taxes as their levels vary considerably over the course of the year as well as certain other adjustments as specified in the most recent REALPAC guidance on ACFO issued in January 2023.

<sup>(2)</sup> Refer to the "Non-IFRS Financial Measures" section of this MD&A.

For the three months and year ended December 31, 2025, ACFO totaled \$58.2 million and \$225.2 million compared to \$43.7 million and \$220.7 million for the prior year periods, respectively. The \$14.4 million and \$4.4 million increase in ACFO, respectively, was primarily due to changes in working capital year over year, and lower capital expenditures in the fourth

quarter of 2025 versus the fourth quarter of 2024.

### **ACFO Payout Ratio**

First Capital's ACFO payout ratio for the four quarters ended December 31, 2025 is calculated as follows:

	Year ended December 31, 2025	Q4 2025	Q3 2025	Q2 2025	Q1 2025
ACFO <sup>(1)</sup>	\$ 225,172	\$ 58,192	\$ 58,660	\$ 63,708	\$ 44,612
Cash distributions paid	188,587	47,270	47,269	47,266	46,782
ACFO payout ratio <sup>(1)</sup>	83.8%				

<sup>(1)</sup> Refer to the "Non-IFRS Financial Measures" section of this MD&A.

First Capital's ACFO payout ratio for the four quarters ended December 31, 2024 is calculated as follows:

	Year ended December 31, 2024	Q4 2024	Q3 2024	Q2 2024	Q1 2024
ACFO <sup>(1)</sup>	\$ 220,732	\$ 43,748	\$ 67,649	\$ 64,147	\$ 45,188
Cash distributions paid	183,388	45,862	45,850	45,844	45,832
ACFO payout ratio <sup>(1)</sup>	83.1%				

<sup>(1)</sup> Refer to the "Non-IFRS Financial Measures" section of this MD&A.

First Capital considers a rolling four quarter payout ratio (cash distributions / ACFO) to be more relevant than a payout ratio in any given quarter due to seasonal fluctuations in ACFO. For the four quarters ended December 31, 2025, the ACFO payout was 83.8% (December 31, 2024 - 83.1%).

### **Net Asset Value**

The following table provides FCR's calculation of NAV for the years ended December 31, 2025 and 2024:

As at	December 31, 2025	December 31, 2024
Unitholders' equity	\$ 4,818,178	\$ 3,946,100
Unit-based compensation plan liability	43,179	31,635
Implied option proceeds <sup>(2)</sup>	98,623	105,058
Deferred tax liabilities <sup>(3)</sup>	—	758,917
Net Asset Value ("NAV") <sup>(1)</sup>	\$ 4,959,980	\$ 4,841,710
Trust Units	212,452	212,323
Unit Options	4,935	5,280
Restricted and Performance Units	1,896	1,606
Deferred Units	475	395
Total units outstanding - diluted (000's)	219,758	219,604
NAV per unit - diluted <sup>(1)</sup>	\$ 22.57	\$ 22.05

<sup>(1)</sup> Refer to the "Non-IFRS Financial Measures" section of this MD&A.

<sup>(2)</sup> 4.9 million unit options outstanding with an average exercise price of \$19.98 (December 31, 2024 - 5.3 million unit options outstanding with an average exercise price of \$19.90).

<sup>(3)</sup> Upon completion of the internal tax reorganization on November 30, 2025, substantially all of the Trust's deferred tax liability was reversed. Going forward, the Trust's NAV calculation will only adjust for deferred tax liabilities, if applicable.

The increase in NAV per diluted unit from \$22.05 to \$22.57 is primarily driven by retained FFO and an increase in the fair value of investment property for the year ended December 31, 2025.

## **DISTRIBUTIONS**

Distributions on the Trust Units are declared at the discretion of the Board of Trustees. In determining the annual level or monthly amount of distributions, the Board of Trustees considers many factors including the macro economic and industry specific environment, common industry cash distribution practices, investor expectations, capital market conditions, forecasted cash flows and debt metrics, anticipated capital requirements, estimated taxable income, and the overall financial condition of the Trust.

The Trust does not use net income (loss), as calculated in accordance with IFRS, as the basis to determine the annual distribution rate. Net income (loss) is impacted by non-cash adjustments, including fair value changes to investment properties, and is not equivalent to taxable income and therefore is expected to vary from the distributions declared.

On December 16, 2024, First Capital announced a 3% increase of its monthly distribution to Unitholders from \$0.072 per unit to \$0.074167 per unit, or \$0.89 on an annualized basis. The increase was effective for First Capital's January 2025 distribution, payable to Unitholders in February 2025.

The following chart specifies distributions declared by First Capital:

Distributions declared per unit	Three months ended December 31				Year ended December 31	
	2025		2024		2025	2024
	\$ 0.2225	\$ 0.216	\$ 0.890	\$ 0.864		

## SUMMARY OF FINANCIAL RESULTS OF LONG-TERM DEBT GUARANTORS

First Capital's senior unsecured debentures are guaranteed by the wholly owned subsidiaries of the Trust, other than nominee subsidiaries and inactive subsidiaries. All such current and future wholly owned subsidiaries will provide a guarantee of the debentures. In the case of default by First Capital, the indenture trustee will, subject to the indenture, be entitled to seek redress from such wholly owned subsidiaries for the guaranteed obligations in the same manner and upon the same terms that it may seek to enforce the obligations of First Capital. These guarantees are intended to eliminate structural subordination, which arises as a consequence of a significant portion of First Capital's assets being held primarily in two significant subsidiaries.

The following tables present select consolidating summary information for First Capital for the periods identified below presented separately for (i) First Capital (denoted as FCR), as issuer; (ii) guarantor subsidiaries; (iii) non-guarantor subsidiaries; (iv) consolidation adjustments; and (v) the total consolidated amounts.

(millions of dollars)										Three months ended December 31

## RELATED PARTY TRANSACTIONS

### Subsidiaries of the Trust

The audited annual consolidated financial statements include the financial statements of First Capital Real Estate Investment Trust and all of its subsidiaries, including FCRI Properties LP and First Capital Holdings Trust. FCRI Properties LP and First Capital Holdings Trust are the significant subsidiaries of the Trust and are wholly owned.

## SUBSEQUENT EVENTS

On January 15, 2026, the REIT's Board of Trustees approved a 2.5% distribution increase to a monthly rate of \$0.076 per unit from \$0.074167 formerly. Equating to an annualized rate of \$0.912 per unit, the increase is effective for the January distribution to unitholders of record as of January 30, 2026, and will be paid on February 16, 2026.

## CRITICAL ACCOUNTING ESTIMATES

First Capital makes estimates and assumptions that affect the carrying amounts of assets and liabilities, disclosure of contingent assets and liabilities and the reported amount of earnings for the reporting periods. Actual results could differ from those estimates. Management believes that the policies that are most subject to estimation and Management's judgment are those outlined below.

### Judgments

#### *Investment properties*

In applying the Trust's policy with respect to investment properties, judgment is applied in determining whether certain costs are additions to the carrying amount of the property and, for properties under development, identifying the point at which capitalization of borrowing and other costs ceases.

#### *Hedge accounting*

Where First Capital undertakes to apply cash flow hedge accounting, it must determine whether such hedges are expected to be highly effective in achieving offsetting changes in cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the reporting periods for which they were designated.

#### *Income taxes*

First Capital retains its REIT status if it meets the prescribed conditions under the *Income Tax Act (Canada)* (the "Tax Act"). Management uses judgment in its interpretation and application of these conditions. First Capital determined that it qualifies as a REIT for the current period and expects to meet the prescribed conditions going forward. However, should the Trust no longer meet the REIT conditions, substantial adverse tax consequences may result.

### Estimates and Assumptions

#### *Valuation of Investment properties*

First Capital's policy in determining the fair value of its investment properties at the end of each reporting period, includes the following approaches:

1. Internal valuations - by certified staff appraisers employed by FCR, in accordance with professional appraisal standards and IFRS. Every investment property has an internal valuation completed at least once a year.
2. Value updates - primarily consisting of Management's review of the key assumptions from previous internal valuations and updating the value for changes in the property cash flow, physical condition and changes in market conditions.

External appraisals are obtained periodically by Management. These appraisals are used as data points, together with other market information accumulated by Management, in arriving at its conclusions on key assumptions and values. External appraisals are completed by an independent appraisal firm, in accordance with professional appraisal standards and IFRS.

Income-producing properties are appraised primarily based on an income approach that reflects stabilized cash flows or net operating income from existing tenants with the property in its existing state, since purchasers typically focus on expected income. Internal valuations are conducted using and placing reliance on both the direct capitalization method and the discounted cash flow method (including the estimated proceeds from a potential future disposition).

Properties undergoing development, redevelopment or expansion are valued either (i) using the discounted cash flow method, with a deduction for costs to complete the project, or (ii) at cost, when cost approximates fair value. Stabilized capitalization rates, discount rates and terminal capitalization rates, as applicable, are adjusted to reflect lease-up assumptions and construction risk, when appropriate. Adjacent land parcels held for future development are valued based on comparable sales of commercial land.

The primary method of appraisal for development land is the comparable sales approach, which considers recent sales activity for similar land parcels in the same or similar markets to estimate a value on either a per acre basis or on a basis of per square foot buildable. Such values are applied to First Capital's properties after adjusting for factors specific to the site, including its location, zoning, servicing and configuration.

Refer to Note 2(g) of the audited consolidated financial statements for the year ended December 31, 2025 for further information on the estimates and assumptions made by Management in connection with the fair values of investment properties.

### ***Valuation of Financial Instruments***

First Capital is required to determine the fair value of its loans, mortgages and credit facilities, senior unsecured debentures, Exchangeable Units, unit-based compensation plans, loans and mortgages receivable, other equity investments, marketable securities and derivatives. The fair values of the marketable securities are based on quoted market prices. The fair values of the other financial instruments are calculated using internally developed models as follows:

- Mortgages and credit facilities are calculated based on market interest rates plus a risk-adjusted spread on discounted cash flows;
- Senior unsecured debentures are based on closing bid risk-adjusted spreads and current underlying Government of Canada bond yields on discounted cash flows, also incorporating interest rate quotations provided by financial institutions;
- The fair value of the unit-based compensation plans are based on the following:

*Unit Options:* Fair value of each tranche is valued separately using a Black-Scholes option pricing model;

*Deferred Units/Restricted Units:* Fair value is based on the closing price of FCR's Trust Units at each period end; and

*Performance Units:* Fair value is calculated using a Monte-Carlo simulation model;

- Derivative instruments are determined using present value forward pricing and swap calculations at interest rates that reflect current market conditions;
- Loans and mortgages receivable are calculated based on current market rates plus borrower level risk-adjusted spreads on discounted cash flows, adjusted for allowances for non-payment and collateral related risk;
- Equity investments in certain funds are based on the fair value of the properties held in the funds. The fair value of the equity investment in a private entity approximates its cost.

Estimates of risk-adjusted credit spreads applicable to a specific financial instrument and its underlying collateral could vary and result in a different disclosed fair value.

### **Future Changes in Accounting Policies**

Refer to Note 2(q) of the audited annual consolidated financial statements for the years ended December 31, 2025 and 2024 for details on the impact of material accounting policy changes including those related to the adoption of new IFRS pronouncements.

The IASB has issued a new IFRS accounting standard, IFRS 18, "Presentation and Disclosure in Financial Statements" ("IFRS 18"). IFRS 18 is not yet adopted by First Capital and will have an impact on future periods. These changes are described in detail below:

In April 2024, the IASB issued IFRS 18, "Presentation and Disclosure in Financial Statements" ("IFRS 18"), which replaces IAS 1, "Presentation of Financial Statements". IFRS 18 aims to improve the comparability and transparency of communication in financial statements by introducing a number of new requirements:

- (i) classify income and expenses in the statement of profit or loss into categories such as, operating, investing, financing, income taxes and discontinued operations as well as present defined subtotals;
- (ii) provide note disclosure on management-defined performance measures that are used in communications outside the entity's financial statements;
- (iii) enhance the aggregation or disaggregation of information to ensure that items are classified and aggregated based on shared characteristics and material information is not obscured; and
- (iv) implement narrow scope amendments that have been made to IAS 7 "Statement of Cash Flows", IAS 34 "Interim Financial Reporting", and other minor amendments to other standards. Some requirements previously included within IAS 1 have been moved to IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors", which has been renamed IAS 8 "Basis of Preparation of Financial Statements".

IFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, and requires retrospective application. Early adoption is permitted but will need to be disclosed. Management is evaluating the impact of IFRS 18, including the impact of the amendments to the other accounting standards, on First Capital's consolidated financial statements.

#### ***Amendments to IFRS 9 and IFRS 7***

In May 2024, the IASB issued amendments to IFRS 9, "Financial Instruments" and IFRS 7, "Financial Instruments: Disclosures". The amendments clarify the timing of recognition and derecognition for a financial asset or financial liability, including clarifying that a financial liability is derecognized on the settlement date. The amendments also introduce an accounting policy choice to derecognize financial liabilities settled using an electronic payment system before the settlement date, if specific conditions are met. Further, the amendments clarify the classification of financial assets with features linked to environmental, social and corporate governance via additional guidance on the assessment of contingent features. In addition, the amendments also require additional disclosures for investments in equity instruments classified at fair value through other comprehensive income. These amendments are effective for annual periods beginning on or after January 1, 2026. Early adoption is permitted, with an option to early adopt only the amendments related to the classification of financial assets. The adoption is not expected to have a material impact on First Capital's consolidated financial statements.

## **CONTROLS AND PROCEDURES**

As at December 31, 2025, the Chief Executive Officer and the Chief Financial Officer of First Capital, with the assistance of other staff and Management of FCR to the extent deemed necessary, have designed FCR's disclosure controls and procedures to provide reasonable assurance that information required to be disclosed in the various reports filed or submitted by FCR under securities legislation is recorded, processed, summarized and reported accurately and have designed internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

In the design of its internal controls over financial reporting, First Capital used the 2013 framework published by the Committee of Sponsoring Organizations of the Treadway Commission.

The Chief Executive Officer and the Chief Financial Officer of First Capital have evaluated, or caused the evaluation of, under their supervision, the effectiveness of FCR's disclosure controls and procedures and its internal controls over financial reporting (each as defined in National Instrument 52-109-Certification of Disclosure in Issuers' Annual and Interim Filings) as at December 31, 2025, and have concluded that such disclosure controls and procedures and internal controls over financial reporting were operating effectively.

First Capital did not make any changes in its internal controls over financial reporting during the quarter ended December 31, 2025 that have had, or are reasonably likely to have, a material effect on FCR's internal controls over financial reporting. On an ongoing basis, FCR will continue to analyze its controls and procedures for potential areas of improvement.

Management does recognize that any controls and procedures, no matter how well designed and operated, can only provide reasonable assurance and not absolute assurance of achieving the desired control objectives. In the unforeseen event that lapses in the disclosure controls and procedures or internal controls over financial reporting occur and/or mistakes happen, First Capital intends to take the necessary steps to minimize the consequences thereof.

## RISKS AND UNCERTAINTIES

First Capital, as an owner of income-producing properties and development properties, is exposed to numerous business risks in the normal course of its business that can impact both short- and long-term performance. Income-producing and development properties are affected by general economic conditions and local market conditions such as oversupply of similar properties or a reduction in tenant demand. It is the responsibility of Management, under the supervision of the Board of Trustees, to identify and, to the extent possible, mitigate or minimize the impact of all such business risks. The major categories of risk First Capital encounters in conducting its business and some of the actions it takes to mitigate these risks are outlined below. First Capital's most current Annual Information Form, which provides a detailed description of these and other risks that may affect FCR, can be found on the SEDAR+ website at [www.sedarplus.ca](http://www.sedarplus.ca) and on FCR's website at [www.fcr.ca](http://www.fcr.ca).

### Economic Conditions and Ownership of Real Estate

Real property investments are affected by various factors including changes in general economic conditions (such as the availability of financings, fluctuations in interest rates and unemployment levels) and in local market conditions (such as inflation, an oversupply of space or a reduction in demand for real estate in the area), the attractiveness of the properties to tenants, competition from other real estate developers, managers and owners in seeking tenants, the ability of the owner to provide adequate maintenance at an economic cost, and various other factors including changing consumer habits, demographic and shopping trends, a downturn in consumer confidence, market instability, transaction activity and other macroeconomic conditions, including but not limited to those caused by the occurrence of a natural disaster, a public health emergency or other force majeure events. The economic conditions in the markets in which First Capital operates can also have a significant impact on FCR's tenants and, in turn, FCR's financial success. Adverse changes in general or local economic conditions can result in some retailers being unable to sustain viable businesses and meet their lease obligations to FCR, and may also limit FCR's ability to attract new or replacement tenants. Should inflation remain high and more persistent than expected, any additional increases in interest rates may adversely affect consumer spending and debt levels, which may impact FCR's tenants and/or FCR's financial performance.

First Capital's portfolio has major concentrations in Ontario, Alberta, Quebec and British Columbia. Moreover, within each of these provinces, FCR's portfolio is concentrated predominantly in selected top-tier suburban markets. As a result, economic and real estate conditions in these regions will significantly affect FCR's revenues and the value of its properties.

Revenue from First Capital's properties depends primarily on the ability of FCR's tenants to pay the full amount of rent and other charges due under their leases on a timely basis. Leases comprise any agreements relating to the occupancy or use of FCR's real property. There can be no assurance that tenants and other parties will be willing or able to perform their obligations under any such leases. If a significant tenant or a number of smaller tenants were to become unable or unwilling to meet their obligations to FCR, FCR's financial position and results of operations would be adversely affected. In the event of default by a tenant, FCR may experience delays and unexpected costs in enforcing its rights as landlord under lease terms, which may also adversely affect FCR's financial position and results of operations. FCR may also incur significant costs in making improvements or repairs to a property required in order to re-lease vacated premises to a new tenant.

First Capital's portfolio has more concentration with certain tenants. In the event that one or more tenants that individually or collectively account for an important amount of First Capital's annual minimum rent experience financial difficulty and are unable to pay rent or fulfill their lease commitments, FCR's financial position, results of operations and the value of the affected properties would be adversely affected.

First Capital's net income (loss) could be adversely affected in the event of a downturn in the business, or the bankruptcy or insolvency, of any anchor store or anchor tenant. Anchor tenants generally occupy large amounts of leasable area, pay a significant portion of the total rents at a property and contribute to the success of other tenants by drawing significant numbers of customers to a property. The closing of one or more anchor stores at a property could have a significant adverse effect on that property.

### **Unpredictability and Volatility of Trust Unit Price**

A publicly-traded real estate investment trust will not necessarily trade at values determined by reference to the underlying value of its business. The prices at which the Trust Units will trade cannot be predicted. The market price of the Trust Units could be subject to significant fluctuations in response to variations in quarterly operating results, distributions and other factors. The annual yield on the Trust Units as compared to the annual yield on other financial instruments may also influence the price of the Trust Units in the public trading markets. In addition, the securities markets have experienced significant price and volume fluctuations from time to time in recent years that often have been unrelated or disproportionate to the operating performance of particular issuers. These broad fluctuations may adversely affect the market price of the Trust Units.

### **Lease Renewals and Rental Increases**

Upon the expiry of any lease, there can be no assurance that the lease will be renewed or the tenant replaced. Expiries of certain leases will occur in both the short and long term, including expiry of leases of certain significant tenants, and although certain lease renewals and/or rental increases are expected to occur in the future, there can be no assurance that such renewals or rental increases will in fact occur. The failure to achieve renewals and/or rental increases may have an adverse effect on the financial position and results of operations of First Capital. In addition, the terms of any subsequent lease may be less favourable to FCR than the existing lease.

Changes in lease accounting rules may require tenants to account for real property leases differently and, as a result, may incentivize tenants to seek new and renewal leases on different terms. Tenants may favour shorter lease terms, fewer renewals and a heavier weighting to variable as opposed to fixed rents, which could adversely affect the stability of First Capital's rental income, the level of secured financing available, the value of its properties and FCR's financial position and results of operations.

### **Financing, Interest Rates, Repayment of Indebtedness and Access to Capital**

First Capital has outstanding indebtedness in the form of mortgages, credit facilities, senior unsecured debentures and from time to time, bank indebtedness and, as such, is subject to the risks normally associated with debt financing, including the risk that FCR's cash flow will be insufficient to meet required payments of principal and interest.

The amount of indebtedness outstanding could require FCR to dedicate a substantial portion of its cash flow from operations to service its debt, thereby reducing funds available for operations, acquisitions, development activities and other business opportunities that may arise. FCR's internally generated cash may not be sufficient to repay all of its outstanding indebtedness. Upon the expiry of the term of the financing on any particular property owned by FCR, refinancing on a conventional mortgage loan basis may not be available in the amount required or may be available only on terms less favourable to FCR than the existing financing. FCR may elect to repay certain indebtedness through the issuance of equity securities or the sale of assets, where appropriate.

Interest rates have a significant effect on the profitability of commercial properties as interest represents a significant cost in the ownership of real property where debt financing is used as a source of capital. FCR has a total of \$1.3 billion principal amount of fixed rate interest-bearing instruments outstanding including mortgages, senior unsecured debentures and unsecured term loans maturing between January 1, 2026 and December 31, 2028 at a weighted average coupon interest rate of 3.9%. If these amounts were refinanced at an average interest rate that was 100 basis points higher or lower than the existing rate, FCR's annual interest cost would increase or decrease, respectively, by \$12.5 million. In addition, as at December 31, 2025, First Capital had \$195.5 million at FCR's share, principal amount of debt (or 5% of FCR's aggregate debt as of such date) at floating interest rates.

First Capital seeks to reduce its interest rate risk by staggering the maturities of long-term debt and limiting the use of floating rate debt so as to minimize exposure to interest rate fluctuations. Moreover, from time to time, FCR may enter into interest rate swap transactions to modify the interest rate profile of its current or future variable rate debts without an exchange of the underlying principal amount.

Management and the Board have discretion under the Declaration of Trust to increase the amount of outstanding debt. The decisions with regard to the incurrence and maintenance of debt are based on available investment opportunities for which capital is required, the cost of debt in relation to such investment opportunities, whether secured or unsecured debt is available, the effect of additional debt on existing financial ratios and the maturity of the proposed new debt relative to maturities of existing debt. First Capital could become more highly leveraged, resulting in increased debt service costs that could adversely affect cash flows and operating results. First Capital's intention is to gradually return its leverage to levels prior to the share buy back that took place in 2019 and may do so in a number of ways, including by disposing of selected assets. Any failure to gradually return its leverage to levels prior to the share buy back may have a material adverse impact on FCR's capital requirements, its financial position or its ability to achieve its business objectives.

## **Credit Ratings**

Any credit rating that is assigned to the senior unsecured debentures may not remain in effect for any given period of time or may be lowered, withdrawn or revised by one or more of the rating agencies if, in their judgment, circumstances so warrant. Refer to "Capital Structure and Liquidity - Credit Ratings". Any lowering, withdrawal or revision of a credit rating may have an adverse effect on the market price of the senior unsecured debentures and the other securities of First Capital, may adversely affect a securityholder's ability to sell its senior unsecured debentures or other securities of FCR and may adversely affect FCR's access to financial markets and its cost of borrowing.

## **Acquisitions, Expansions, Development, Redevelopment and Strategic Dispositions**

First Capital's acquisition and investment strategy and market selection process may not ultimately be successful and may not provide positive returns on investment. The acquisition of properties or portfolios of properties entails risks that include the following, any of which could adversely affect FCR's financial position and results of operations and its ability to meet its obligations: (i) FCR may not be able to identify suitable properties to acquire or may be unable to complete the acquisition of the properties identified; (ii) FCR may not be able to successfully integrate any acquisitions into its existing operations; (iii) properties acquired may fail to achieve the occupancy or rental rates projected at the time of the acquisition decision, which may result in the properties' failure to achieve the returns projected; (iv) FCR's pre-acquisition evaluation of the physical condition of each new investment may not detect certain defects or identify necessary repairs, which could significantly increase FCR's total acquisition costs; (v) FCR's investigation of a property or building prior to acquisition, may fail to reveal various liabilities, which could reduce the cash flow from the property or increase its acquisition cost; and (vi) representations and warranties obtained from third party vendors may not adequately protect against unknown, unexpected or undisclosed liabilities and any recourse against such vendors may be limited by the financial capacity of such vendors.

Further, FCR's development and redevelopment commitments are subject to those risks usually attributable to construction projects, which include: (i) construction or other unforeseen delays; (ii) cost overruns; (iii) the failure of tenants to occupy and pay rent in accordance with existing lease agreements, some of which are conditional; (iv) the inability to achieve projected rental rates or anticipated pace of lease-ups; and (v) an increase in interest rates during the life of the development or redevelopment.

Where FCR's development commitments relate to properties intended for sale, such as the residential portion of certain projects, FCR is also subject to the risk that purchasers of such properties may become unable or unwilling to meet their obligations to FCR or that FCR may not be able to close the sale of a significant number of units in a development project on economically favourable terms.

In addition, FCR undertakes strategic property dispositions in order to recycle its capital and maintain an optimal portfolio composition. FCR may be subject to unexpected costs or liabilities related to such dispositions, which could adversely affect FCR's financial position and results of operations and its ability to meet its obligations.

## Competition

The real estate business is competitive. Numerous other developers, managers and owners of retail properties compete with First Capital in seeking tenants. Some of the properties located in the same markets as FCR's properties may be newer, better located and/or have stronger anchor tenants than FCR's properties. The existence of developers, managers and owners in the markets in which FCR operates, or any increase in supply of available space in such markets (due to new construction, tenant insolvencies or other vacancy) and competition for FCR's tenants could adversely affect FCR's ability to lease space in its properties in such markets and on the rents charged or concessions granted. In addition, the internet and other technologies increasingly play a more significant role in consumer preferences and shopping patterns, which presents an evolving competitive risk to FCR that is not easily assessed. Any of the aforementioned factors could have an adverse effect on FCR's financial position and results of operations.

## Unitholder Activism

Responding to activist campaigns that contest or conflict with FCR's governance and strategic direction can be costly and time-consuming, disrupting business operations and diverting the attention and resources of the Board of Trustees, Management and employees. Unitholder activism may result in uncertainty relating to the leadership, governance and strategic direction of FCR, which could adversely affect or undermine FCR's ability to execute on its real estate strategy, harm FCR's business and create adverse volatility in the market price and trading volume of Trust Units. Events such as these could adversely affect FCR's operating and financial results.

## Residential Development Sales and Leasing

First Capital is involved in the development of mixed-use properties that include residential condominiums and rental apartments. These developments are often carried out with an experienced residential developer as FCR's partner. Purchaser demand for residential condominiums is cyclical and is significantly affected by changes in general and local economic and industry conditions, such as employment levels, availability of financing for homebuyers, interest rates, consumer confidence, levels of new and existing homes for sale, demographic trends and housing demand.

As a residential landlord in its properties that include rental apartments, FCR is subject to the risks inherent in the multi-unit residential rental property industry. In addition to the risks highlighted above, these include exposure to private individual tenants (as opposed to commercial tenants in FCR's retail properties), fluctuations in occupancy levels, the inability to achieve economic rents (including anticipated increases in rent), controlling bad debt exposure, rent control regulations, increases in operating costs including the costs of utilities (residential leases are often "gross" leases under which the landlord is not able to pass on costs to its residents), the imposition of increased taxes or new taxes and capital investment requirements.

## Environmental Matters

First Capital maintains comprehensive environmental insurance and conducts environmental due diligence upon the acquisition of new properties. There is, however, a risk that the value of any given property in FCR's portfolio could be adversely affected as a result of unforeseen or uninsured environmental matters or changes in governmental regulations.

Under various federal, provincial and local laws, FCR, as an owner, and potentially as a person in control of or managing real property, could potentially be liable for costs of investigation, remediation and monitoring of certain contaminants, hazardous or toxic substances present at or released from its properties or disposed of at other locations, whether FCR knows of, or is responsible for, the environmental contamination and whether the contamination occurred before or after FCR acquired the property. The costs of investigation, removal or remediation of hazardous or toxic substances are not estimable, may be substantial and could adversely affect FCR's results of operations or financial position. The presence of contamination or the failure to remediate such substances, if any, may adversely affect FCR's ability to sell such real estate or to borrow using such real estate as collateral and could potentially also result in claims, including proceedings by government regulators or third-party lawsuits. Environmental legislation can change rapidly and FCR may become subject to more stringent environmental laws in the future, and compliance with more stringent environmental laws, or increased enforcement of the same, could have a material adverse effect on its business, financial position or results of operations.

## **Partnerships**

First Capital has investments in properties with non-affiliated partners through partnership, co-ownership and limited liability corporate venture arrangements (collectively, "partnerships"). As a result, FCR does not control all decisions regarding those properties and may be required to take actions that are in the interest of the partners collectively, but not in FCR's sole best interests. Accordingly, FCR may not be able to favourably resolve any issues that arise with respect to such decisions, or FCR may have to take legal action or provide financial or other inducements to partners to obtain such resolution. In addition, FCR may be exposed to risks resulting from the actions, omissions or financial situation of a partner, which may result in harm to FCR's reputation or adversely affect the value of FCR's investments.

## **Investments Subject to Credit and Market Risk**

First Capital provides co-owner financing, priority mortgages and mezzanine loans to third parties in connection with certain transactions and partnerships ("Loans and Mortgages Receivable"). First Capital also invests in marketable and other securities. FCR is exposed to customary risks in the event that the values of its Loans and Mortgages Receivable and/or its investments, in marketable and other securities, decrease due to overall market conditions, business failure, and/or other non-performance/defaults by the counterparties or investees. Not all lending activities will translate into acquisitions or equity participation in a project and the value of the assets securing FCR's Loans and Mortgages Receivable is dependent on real estate market conditions and in the event of a large market correction, their value may be unable to support the investments. There can also be no assurance FCR will advance new Loans and Mortgages Receivable at the same rate or in the same amount repaid, which could negatively impact future earnings. Additionally, repayment of one or more of the current loans outstanding would result in an immediate decrease of FCR's Loans and Mortgages Receivable unless and until such time that FCR advances new loans.

## **Climate Change and Carbon Reduction Initiatives**

Changing weather patterns and other effects of climate change have created uncertainty as to future trends and weather conditions and could have an impact on FCR's properties, adversely impacting its results. First Capital's properties, tenants, and communities may become impacted by more severe weather events and natural disasters. Over time, these conditions could result in a decreased demand for space in FCR's impacted properties or, in extreme cases, it may impact FCR's ability to operate the properties at all. Climate change may also have indirect effects on First Capital's business by increasing the cost of (or making unavailable) property insurance on favourable terms, resulting in additional costs to repair or replace damaged properties or protect its properties against such risks, which could negatively impact FCR's earnings, liquidity or capital resources. The occurrence of natural disasters or severe weather conditions can also delay new development projects. In addition, compliance with new laws or regulations related to climate change may require First Capital to make improvements to its existing properties or increase taxes and fee assessments, which could result in declining demand for FCR's properties and increased expenses and may adversely affect operating and financial results.

As the Trust continues to work towards achieving its science-based 2030 greenhouse gas reduction targets and longer-term decarbonization initiatives, its progress may be deterred by challenges such as the availability of the necessary technology or the cost of adopting carbon reduction initiatives. This could result in the Trust being unable to meet its decarbonization goals. The failure or perceived failure by the Trust to execute its carbon reduction initiatives, maintain its environmental and sustainability practices or comply with emerging and evolving regulatory requirements or stakeholder expectations could result in fines or adversely affect the Trust's reputation, operations or financial performance.

## **Cybersecurity**

A cyber incident is considered to be any adverse event that threatens the confidentiality, integrity or availability of FCR's information technology resources. More specifically, a cyber incident is an intentional attack or an unintentional event that can include gaining unauthorized access to information systems to disrupt operations, corrupt data or steal confidential information. As FCR's reliance on technology has increased, so have the risks posed to its systems. First Capital's primary risks that could directly result from the occurrence of a cyber incident include operational interruption, damage to its reputation, damage to its business relationships with tenants as well as the disclosure of confidential information. Events such as these could adversely affect First Capital's financial position and results of operations.

## **Cash Distributions Are Not Guaranteed; Non-Cash Distributions**

Distributions on the Trust Units are established by the Board of Trustees and are subject to change at the discretion of the Board of Trustees. While First Capital's distribution policy has been established pursuant to the Declaration of Trust and may only be changed with the approval of a majority of Unitholders, the actual amount of distributions paid in respect of the Trust Units will depend upon numerous factors, all of which are susceptible to a number of risks and other factors beyond the control of First Capital. The market value of the Trust Units may deteriorate if First Capital is unable to meet its distribution targets in the future, and that deterioration could be significant. In addition, the composition of the cash distributions for tax purposes may change over time and could affect the after-tax return for Unitholders.

In addition, certain distributions declared by the Trustees on the Trust Units may be payable in cash, Trust Units, in specie or any combination thereof. Immediately after any pro rata distribution of additional Trust Units to all Unitholders, the number of the outstanding Trust Units may be automatically consolidated such that each such holder will hold after the consolidation the same number of Trust Units as such holder held before the distribution of additional Trust Units (provided that Unitholders not resident in Canada for Canadian federal income tax purposes may be subject to applicable withholding taxes in connection therewith, which may reduce their unitholdings). Such an automatic consolidation may affect a Unitholder's after-tax return relating to their investment in Trust Units.

## **Taxation Matters**

The Trust or its subsidiary First Capital Realty Inc. ("FCR Inc.") may not qualify as a "mutual fund trust or MFT" or a "mutual fund corporation or MFC" (as applicable) for purposes of the Tax Act, or it may cease to so qualify. If the Trust or FCR Inc. did not so qualify for such purposes continuously throughout a taxation year, it would be subject to adverse tax consequences which likely may materially reduce its ability to make distributions on the Trust Units. Furthermore, if the Trust or FCR Inc. was considered to have been established primarily for the benefit of non-resident persons, it would be permanently disqualified from qualifying as a MFT or a MFC (as applicable) for such purposes.

There is a risk (for example, as a result of an unanticipated event) that the Trust will not qualify (under the exception for real estate investment trusts from the rules applicable to SIFT trusts or SIFT partnerships in the Tax Act) as a "real estate investment trust" under the Tax Act for one or more of its taxation years. Were this to occur, the level of monthly cash distributions made on the Trust Units may be materially reduced. Furthermore, there is no assurance that the provisions of the Tax Act regarding the exemption afforded to REITs from the SIFT rules will not change in a manner that adversely impacts the Unitholders.

Although First Capital is of the view that all expenses to be claimed by it and its subsidiaries will be reasonable and deductible and that the cost amount and capital cost allowance claims of entities indirectly owned by First Capital will have been correctly determined, there can be no assurance that the Tax Act, or the interpretation of the Tax Act, will not change, or that the Canada Revenue Agency (the "CRA") will agree. If the CRA successfully challenges the deductibility of such expenses or the allocation of such income, First Capital's taxable income, and indirectly the taxable income of Unitholders, will increase or change.

The bill containing the excessive interest and financing expenses limitation ("EIFEL") rules received Royal Assent on June 20, 2024, which are effective for taxation periods beginning on or after October 1, 2023. The EIFEL rules limit the deductibility of net interest and financing expenses in certain circumstances. The Trust's position is that it and its subsidiaries should not be subject to these deduction limitations. However, there is no assurance that the Tax Act, or the interpretation of the Tax Act, will not change, or that the CRA will agree with the Trust's position, which could result in an increase in the amount of taxable income in FCR's taxable subsidiaries.

## **Pandemics, Epidemics or Other Outbreaks**

A pandemic, epidemic or other outbreak (collectively, a "public health crisis") could have a materially adverse impact on the Trust's financial position and results of operations. A substantial portion of First Capital's tenants could be forced to close in accordance with government regulations or operate at a reduced capacity, which may negatively impact their ability to pay rent in accordance with the terms of their lease. Additionally, First Capital may be required to take further action that negatively impacts its financial results and operations in response to directives of government and public health authorities

or that are in the best interests of the health and safety of its employees, tenants, partners and other stakeholders, as necessary.

In addition to the risks described above and the potential macroeconomic impact, specific effects of a public health crisis that may impact FCR's business operations, financial results and its ability to execute on its strategy, may include: consumer demand for tenants' products or services, changing consumer habits, a temporary or long-term increase in vacancy, temporary or long-term stoppage of development projects, temporary or long-term stoppage of construction projects, temporary or long-term labour shortages or disruptions, temporary or long-term impacts on global supply chains, closures or slowdowns of government offices and increased risks to employee engagement, IT systems and networks. Changes to operations in response to these and other effects of a public health crisis on the economy and consumer habits could materially adversely impact First Capital's financial results and may negatively impact several aspects of FCR's business, including but not limited to: the fair value of its properties and other investments; the net realizable value of residential inventory and ability to lease residential space; the carrying amount of its investment in joint ventures; its ability to execute on its strategy, including dispositions and acquisitions and surfacing value from its density pipeline; tenants' ability to pay rent in full or at all (including deferred rent); its ability to complete construction required to transfer possession of leased premises to tenants; its ability to renew expiring leases and to lease vacant space; its ability to collect on interest and loans receivables; its ability to meet deleveraging targets, maintain current and/or achieve target debt metrics, maintain current credit ratings and to comply with debt covenants; its ability to make distributions; its ability to maintain its balance sheet and to access capital on acceptable terms or at all.

A public health crisis may cause economic uncertainty and increased volatility in financial markets, which may negatively impact the market price for FCR's securities and could adversely impact FCR's operations and financial performance.

# Management's Responsibility

First Capital Real Estate Investment Trust's consolidated financial statements and Management's Discussion and Analysis ("MD&A") are the responsibility of Management and have been prepared in accordance with IFRS Accounting Standards ("IFRS").

The preparation of consolidated financial statements and the MD&A necessarily involves the use of estimates based on Management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. In addition, in preparing this financial information, Management must make determinations as to the relevancy of information to be included, and estimates and assumptions that affect the reported information. The MD&A also includes information regarding the impact of current transactions and events, sources of liquidity and capital resources, operating trends, risks and uncertainties. Actual results in the future may differ materially from the present assessment of this information because future events and circumstances may not occur as expected. The consolidated financial statements have been properly prepared within reasonable limits of materiality and in light of information available up to February 10, 2026.

Management is also responsible for the maintenance of financial and operating systems, which include effective controls to provide reasonable assurance that First Capital's assets are safeguarded, transactions are properly authorized and recorded, and that reliable financial information is produced.

The Board of Trustees is responsible for ensuring that Management fulfills its responsibilities, including the preparation and presentation of the consolidated financial statements and all of the information in the MD&A, and the maintenance of financial and operating systems, through its Audit Committee, that is comprised of independent Trustees who are not involved in the day-to-day operations of First Capital. Each quarter, the Audit Committee meets with Management and, as necessary, with the independent auditor, Ernst & Young LLP, to satisfy itself that Management's responsibilities are properly discharged and to review and report to the Board of Trustees on the consolidated financial statements.

In accordance with generally accepted auditing standards, the independent auditor conducts an examination each year in order to express a professional opinion on the consolidated financial statements.

# Independent Auditor's Report

To the Unitholders of  
**First Capital Real Estate Investment Trust**

## Opinion

We have audited the consolidated financial statements of First Capital Real Estate Investment Trust (the "Trust"), which comprise the consolidated balance sheets as at December 31, 2025 and 2024, and the consolidated statements of income (loss), consolidated statements of comprehensive income (loss), consolidated statements of changes in equity and consolidated statements of cash flows for the years then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Trust as at December 31, 2025 and 2024, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with IFRS Accounting Standards ("IFRS").

## Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Trust in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the consolidated financial statements of the current period. These matters were addressed in the context of the audit of the consolidated financial statements as a whole, and in forming the auditor's opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

# Independent Auditor's Report

Key Audit Matter	How our audit addressed the key audit matter
<b>Valuation of Investment Properties</b> The Trust's investment property portfolio has a fair value of \$8.3 billion, which represents 90.1% of total assets as at December 31, 2025.  The Trust employs certified staff appraisers to value the investment property portfolio. The valuation methodology for these investment properties is primarily based on an income approach, utilizing the direct capitalization method and/or the discounted cash flow method.  The valuation of the Trust's investment property portfolio is a key audit matter given the inherently subjective nature of significant assumptions including discount rates, stabilized capitalization rates, terminal capitalization rates, and stabilized cash flows or net operating income, which are based on vacancy and leasing assumptions, as applicable. These assumptions are influenced by property-specific characteristics including location, type and quality of the properties and tenancy agreements.  Note 2(g) of the consolidated financial statements describes the accounting policy for investment properties, including the valuation method and valuation inputs.	With the assistance of our real estate valuation specialists, we evaluated the appropriateness of the underlying valuation methodology and performed the following audit procedures, among others:  We assessed the competence and objectivity of Management's valuation department, including the certified staff appraisers, by reviewing the qualifications and expertise of the individuals involved in the preparation and review of the valuations.  We selected a sample of properties where either the fair value change from prior year or significant assumptions fell outside our expectations, based on our understanding of the geographical real estate market for the specific asset type. For this sample of investment properties, we evaluated the significant assumptions by comparison to the expected real estate market benchmark range for similar assets and tenancies, in similar locations. We also considered whether there were any additional asset-specific characteristics that may impact the significant assumptions utilized and whether these were appropriately considered in the overall assessment of fair value.  We assessed the accuracy of Management's historical fair value estimates through comparison to transactions to acquire and dispose of interests in investment properties completed by the Trust.
Note 3(b) of the consolidated financial statements discloses the sensitivity of the fair value of investment properties to a change in stabilized capitalization rates and stabilized net operating income.	We evaluated the Trust's critical accounting policies and related disclosures in the consolidated financial statements to assess appropriateness and conformity with IFRS.

## Other information

Management is responsible for the other information. The other information comprises:

- Management's Discussion and Analysis; and
- The information, other than the consolidated financial statements and our auditor's report thereon, in the Annual Report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, and in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

The Annual Report is expected to be made available to us after the date of the auditor's report. If, based on the work we will perform on this other information, we conclude there is a material misstatement of other information, we are required to report that fact to those charged with governance.

## Responsibilities of Management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as Management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, Management is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Trust or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Trust's financial reporting process.

## Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

# Independent Auditor's Report

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Trust to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are, therefore, the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mark Vrooman.

# Notes to the Consolidated Financial Statements

## 1. DESCRIPTION OF THE TRUST

First Capital Real Estate Investment Trust ("First Capital", "FCR", or the "Trust") is an unincorporated, open-ended mutual fund trust governed by the laws of Ontario, Canada, and established pursuant to a declaration of trust dated October 16, 2019, as may be amended from time to time (the "Declaration of Trust"). First Capital owns and operates, acquires, and develops open-air grocery-anchored shopping centres in neighbourhoods with the strongest demographics in Canada. The Trust is listed on the Toronto Stock Exchange ("TSX") under the symbol "FCR.UN", and its head office is located at 85 Hanna Avenue, Suite 400, Toronto, Ontario, M6K 3S3.

On November 24, 2025, the Trust's unitholders, approved an internal tax reorganization that was completed by way of a plan of arrangement (the "Arrangement"). The Arrangement simplified First Capital's organizational structure by eliminating First Capital Realty Inc. ("FCRI") as the Trust's wholly-owned corporate subsidiary that owned, directly and indirectly, all of First Capital's real property portfolio. The Arrangement was completed and became effective on November 30, 2025. Following the Arrangement, First Capital now holds substantially all of its real property portfolio through flow-through entities, namely subsidiary partnerships and trusts.

## 2. MATERIAL ACCOUNTING POLICY INFORMATION

### (a) Statement of compliance

These consolidated financial statements have been prepared in accordance with IFRS Accounting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

### (b) Basis of presentation

The audited annual consolidated financial statements are prepared on a going concern basis and have been presented in Canadian dollars rounded to the nearest thousand, unless otherwise indicated. The accounting policies set out below have been applied consistently in all material respects to all years presented, unless otherwise noted.

In measuring performance or allocating resources, the Trust does not distinguish or group its operations on a geographical or any other basis and, accordingly, has a single reportable segment for disclosure purposes. Individual segments have been aggregated based on Management's judgement, which considered the nature of operations, type of tenants and that the aggregated segments would have similar long-term economic characteristics. The Trust has one reportable segment for financial reporting purposes, which comprises the ownership, management and development of investment properties located across Canada.

These audited annual consolidated financial statements were approved by the Board of Trustees and authorized for issue on February 10, 2026.

### (c) Basis of Consolidation

The consolidated financial statements include the financial statements of the Trust as well as the entities that are controlled by the Trust (subsidiaries). The Trust controls an entity when the Trust is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Trust. They are deconsolidated from the date that control ceases. Inter-company transactions, balances and other transactions between consolidated entities are eliminated.

### (d) Trust Units

First Capital's Trust Units are redeemable at the option of the holder and, therefore, are considered puttable instruments in accordance with IAS 32, "Financial Instruments – Presentation" ("IAS 32"). Puttable instruments are required to be accounted for as financial liabilities, except where certain conditions are met in accordance with IAS 32, in which case, the puttable instruments may be presented as equity.

To be presented as equity, a puttable instrument must meet all of the following conditions: (i) it must entitle the holder to a pro-rata share of the entity's net assets in the event of the entity's dissolution; (ii) it must be in the class of instruments that is subordinate to all other instruments; (iii) all instruments in the class in (ii) above must have identical features; (iv) other than the redemption feature, there can be no other contractual obligations that meet the definition of a liability; and (v) the expected cash flows for the instrument must be based substantially on the profit or loss of the entity or change in the fair value of the instrument.

The Trust Units meet the conditions of IAS 32 and, accordingly, are presented as equity in the consolidated financial statements.

#### *Earnings per Unit*

As First Capital's Trust Units are puttable instruments and, therefore, financial liabilities, they may not be considered as equity for the purposes of calculating net income (loss) on a per unit basis under IAS 33, "Earnings per Share". Consequently, the Trust has not reported earnings per unit.

#### **(e) Business combinations**

At the time of acquisition of property, First Capital considers whether the acquisition represents the acquisition of a business. The Trust accounts for an acquisition as a business combination where an integrated set of activities is acquired in addition to the property.

The cost of a business combination is measured as the aggregate of the consideration transferred at acquisition date fair value. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the acquisition date. The Trust recognizes any contingent consideration to be transferred by the Trust at its acquisition date fair value. Goodwill is initially measured at cost, being the excess of the purchase price over the fair value of the net identifiable assets acquired and liabilities assumed. Acquisition-related costs are expensed in the period incurred.

When the acquisition of property does not represent a business, it is accounted for as an acquisition of a group of assets and liabilities. The cost of the acquisition is allocated to the assets and liabilities acquired based upon their relative fair values, and no goodwill is recognized. Acquisition-related costs are capitalized to investment property at the time the acquisition is completed.

#### **(f) Investments in joint arrangements**

First Capital accounts for its investment in joint ventures using the equity method and accounts for investments in joint operations by recognizing the Trust's direct rights to assets, obligations for liabilities, revenues and expenses. Under the equity method, the interest in the joint venture is carried in the consolidated balance sheets at cost plus post-acquisition changes in the Trust's share of the net assets of the joint ventures, less distributions received and less any impairment in the value of individual investments. First Capital's consolidated statements of income (loss) reflect its share of the results of operations of the joint ventures after tax, if applicable.

#### **(g) Investment properties**

Investment properties consist of income-producing properties and development land that are held to earn rental income or for capital appreciation, or both. Investment properties also include properties that are being constructed or developed for future use, as well as ground leases to which the Trust is the lessee. The Trust classifies its investment properties on its consolidated balance sheets as follows:

##### *(i) Investment properties*

Investment properties include First Capital's income-producing portfolio, properties currently under development or redevelopment and any adjacent land parcels available for expansion but not currently under development. Also included in investment properties is development land, which includes land parcels at various stages of development planning, primarily for future retail or mixed-use occupancy.

*(ii) Assets classified as held for sale*

Assets, including investment properties, are classified as held for sale when it is expected that the carrying amount will be recovered principally through sale rather than from continuing use. For this to be the case, the property must be available for immediate sale in its present condition, subject only to terms that are usual and customary for sale of such property, and its sale must be highly probable, generally within one year. Upon designation as held for sale, assets, including investment properties continue to be measured at fair value and are presented separately on the consolidated balance sheets.

**Valuation method**

Investment properties are recorded at fair value, which reflects current market conditions, at each reporting period-end date. Gains and losses from changes in fair values are recorded in net income (loss) in the period in which they arise.

The determination of fair values requires Management to make estimates and assumptions that affect the values presented, such that actual values in sales transactions may differ from those presented.

First Capital's policy in determining the fair value of its investment properties at the end of each reporting period includes the following approaches:

1. Internal valuations – by certified staff appraisers employed by the Trust, in accordance with professional appraisal standards and IFRS. Every investment property has an internal valuation completed at least once a year.
2. Value updates – primarily consisting of Management's review of the key assumptions from previous internal valuations and updating the value for changes in the property cash flow, physical condition and changes in market conditions.

External appraisals are obtained periodically by Management. These appraisals are used as data points, together with other market information accumulated by Management, in arriving at its conclusions on key assumptions and values. External appraisals are completed by an independent appraisal firm, in accordance with professional appraisal standards and IFRS.

The selection of the approach for each property is made based upon the following criteria:

- Property type – this includes an evaluation of a property's complexity, stage of development, time since acquisition and other specific opportunities or risks associated with the property. Stable properties and recently acquired properties will generally receive a value update, while properties under development will typically be valued using internal valuations until completion.
- Market risks – specific risks in a region or a trade area may warrant an internal valuation for certain properties.
- Changes in overall economic conditions – significant changes in overall economic conditions may increase the number of external or internal appraisals performed.
- Business needs – financings or acquisitions and dispositions may require an external appraisal.

**Valuation Inputs**

First Capital's investment property is measured using Level 3 inputs (in accordance with the IFRS fair value hierarchy), as not all significant inputs are based on observable market data (unobservable inputs). These unobservable inputs reflect the Trust's own assumptions of how market participants would price investment property, and are developed based on the best information available, including the Trust's own data. These significant unobservable inputs include:

- Stabilized cash flows or net operating income, which is based on the location, type and quality of the properties and supported by the terms of any existing lease, other contracts or external evidence, such as current market rents for similar properties, adjusted for estimated vacancy rates based on current and expected future market conditions after expiry of any current lease and expected maintenance costs.
- Stabilized capitalization rates, discount rates and terminal capitalization rates, which are based on location, size and quality of the properties and taking into account market data at the valuation date. Stabilized capitalization rates are used for the direct capitalization method and discount and terminal capitalization rates are used in the discounted cash flow method described below.
- Costs to complete for properties under development.

*(i) Investment properties*

Investment properties that are income-producing are appraised primarily based on an income approach that reflects stabilized cash flows or net operating income from existing tenants with the property in its existing state, since purchasers typically focus on expected income. Internal valuations are conducted using and placing reliance on both the direct capitalization method and the discounted cash flow method (including the estimated proceeds from a potential future disposition).

*(ii) Properties under development*

Properties undergoing development, redevelopment or expansion are valued either (i) using the discounted cash flow method, with a deduction for costs to complete the project, or (ii) at cost, when cost approximates fair value. Stabilized capitalization rates, discount rates and terminal capitalization rates, as applicable, are adjusted to reflect lease-up assumptions and construction risk, when appropriate. Adjacent land parcels held for future development are valued based on comparable sales of commercial land.

The primary method of appraisal for development land is the comparable sales approach, which considers recent sales activity for similar land parcels in the same or similar markets to estimate a value on either a per acre basis or on a basis of per square foot buildable. Such values are applied to First Capital's properties after adjusting for factors specific to the site, including its location, zoning, servicing and configuration.

The cost of development properties includes direct development costs, including internal development costs, realty taxes and borrowing costs attributable to the development. Borrowing costs associated with expenditures on properties under development or redevelopment are capitalized. Borrowing costs are also capitalized on land or properties acquired specifically for development or redevelopment when activities necessary to prepare the asset for development or redevelopment are in progress. The amount of borrowing costs capitalized is determined first by reference to borrowings specific to the project, where relevant, and otherwise by applying a weighted average cost of borrowings to eligible expenditures after adjusting for borrowings associated with other specific developments. Where borrowings are associated with specific developments, the amount capitalized is the gross cost incurred on those borrowings, less any interest income earned on funds not yet employed in construction funding.

Capitalization of borrowing costs and all other costs commences when the activities necessary to prepare an asset for development or redevelopment begin, and continue until the date that construction is complete and all necessary occupancy and related permits have been received, whether or not the space is leased. If the Trust is required as a condition of a lease to construct tenant improvements that enhance the value of the property, then capitalization of costs continues until such improvements are completed. Capitalization ceases if there are prolonged periods when development activity is interrupted.

As required by IFRS in determining investment property fair value, the Trust makes no adjustments for portfolio premiums and discounts, nor for any value attributable to the Trust's management platform.

**(h) Residential development inventory**

Residential development inventory, which is developed for sale, is recorded at the lower of cost and estimated net realizable value. Residential development inventory is reviewed for impairment at each reporting date. An impairment loss is recognized in net income (loss) when the carrying value of the property exceeds its net realizable value. Net realizable value is based on projections of future cash flows, which take into account the development plans for each project and Management's best estimate of the most probable set of anticipated economic conditions.

The cost of residential development inventory includes borrowing costs directly attributable to projects under active development. The amount of borrowing costs capitalized is determined first by reference to borrowings specific to the project, where relevant, and otherwise by applying a weighted average capitalization rate for the Trust's other borrowings to eligible expenditures. Borrowing costs are not capitalized on residential development inventory where no development activity is taking place.

Transfers into residential inventory are based on a change in use, evidenced by the commencement of development activities with a view to sell, at which point an investment property would be transferred to inventory. Transfers from

residential inventory to investment property are based on a change in use, evidenced by Management's commitment to use the property for rental income purposes and the establishment of an operating lease.

**(i) Taxation**

First Capital qualifies as a mutual fund trust under the *Income Tax Act (Canada)*(the "Act"). The Trust qualifies for the REIT Exemption and, as such, the Trust itself will not be subject to income taxes provided it continues to qualify as a REIT for purposes of the Act. A REIT is not taxable and not considered to be a Specified Investment Flow-Through Trust provided it complies with certain tests and distributes all of its taxable income in a taxation year to its Unitholders. The Trust is a flow-through vehicle and accounts only for income taxes pertaining to its corporate subsidiaries. First Capital holds substantially all of its real property portfolio through flow-through entities, namely subsidiary partnerships and trusts.

Current income tax assets and liabilities are measured at the amount expected to be received from or paid to tax authorities based on the tax rates and laws enacted or substantively enacted at the consolidated balance sheet dates.

Deferred tax liabilities are measured by applying the appropriate tax rate to temporary differences between the carrying amounts of assets and liabilities and their respective tax basis. The appropriate tax rate is determined by reference to the rates that are expected to apply to the year and the jurisdiction in which the assets are expected to be realized or the liabilities settled.

Deferred tax assets are recorded for all deductible temporary differences, carryforward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax credits and unused tax losses can be utilized. For the determination of deferred tax assets and liabilities where an investment property is measured using the fair value model, the presumption is that the carrying amount of an investment property is recovered through sale, as opposed to presuming that the economic benefits of the investment property will be substantially consumed through use over time.

Current and deferred income taxes are recognized in correlation to the underlying transaction either in other comprehensive income (loss) ("OCI") or directly in equity.

**(j) Provisions**

A provision is a liability of uncertain timing or amount. First Capital records provisions, including asset retirement obligations, when it has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a discount rate that reflects current market assessments of the time value of money and the risks specific to the obligation. Provisions are remeasured at each consolidated balance sheet date using the current discount rate. The increase in the provision due to passage of time is recognized as interest expense.

**(k) Unit-based Compensation Plans**

Restricted Units ("RUs"), Performance Units ("PUs") and Trustee Deferred Units ("DUs") are issued by First Capital from time to time as non-cash compensation. Up until March 2021, First Capital also periodically issued unit options as non-cash compensation. These unit-based compensation plans are measured at fair value at the grant date and compensation expense is recognized in the consolidated statements of income (loss) consistent with the vesting features of each plan. The unit-based compensation plans are accounted for as cash-settled awards as the Trust is an open-ended trust making its units redeemable, and thus requiring outstanding Unit Options, RUs, PUs and DUs to be recognized as a liability and carried at fair value. The liability is adjusted for changes in fair value with such adjustments being recognized as increase/decrease in value of unit-based compensation in the consolidated statements of income (loss) in the period in which they occur. The liability balance is reduced as Unit Options are exercised or RUs, PUs and DUs are settled for cash or for Trust Units and recorded in equity.

## **(I) Revenue recognition**

### ***Property Rental Revenue***

First Capital retains substantially all of the risks and benefits of ownership of its investment properties and, therefore, accounts for leases with its tenants as operating leases.

Revenue recognition under a lease commences when the tenant has a right to use the leased asset, which is typically when the space is turned over to the tenant to begin fixturing. Where the Trust is required to make additions to the property in the form of tenant improvements that enhance the value of the property, revenue recognition begins upon substantial completion of those improvements.

First Capital's revenues are earned from lease contracts with tenants and include both a lease component and a non-lease component.

Base rent, straight-line rent, realty tax recoveries, lease termination fees and percentage rent are considered lease components and are in the scope of IFRS 16, "Leases" ("IFRS 16").

The total amount of contractual base rent to be received from operating leases is recognized on a straight-line basis over the term of the lease, including any fixturing period. A receivable, which is included in the carrying amount of an investment property, is recorded for the difference between the straight-line rental revenue recorded and the contractual amount received.

Realty tax recoveries are variable recoveries relating to the leased property and do not transfer a good or service to the lessee and as a result are recognized as costs are incurred and chargeable to tenants.

Lease termination fees are earned from tenants in connection with the cancellation or early termination of their remaining lease obligations, and are recognized when a lease termination agreement is signed and collection is reasonably assured.

Percentage rents are recognized when the sales thresholds set out in the leases have been met.

Operating cost recoveries relate to the property management services provided to maintain the property and are considered non-lease components subject to the guidance in IFRS 15, "Revenue from Contracts with Customers" ("IFRS 15"). The property management services are considered a performance obligation, meeting the criteria for over-time recognition, and are recognized in the period that recoverable costs are incurred or services are performed.

### ***Interest Income***

Interest income is the interest earned on the amounts advanced under the Trust's mezzanine loans, vendor take-back loans and joint venture financing arrangements, as well as bank interest earned from deposits. Interest income is recognized in accordance with the terms set out in the financing arrangements using the effective interest method.

### ***Fee Income***

Fee income consists mainly of property management fees, leasing fees and other miscellaneous fees. Property management fees are generally based on a percentage of property revenues and are recognized when earned in accordance with the property management or co-ownership agreements. Leasing fees are incurred when the Trust is the leasing manager for co-owned properties and are recognized when earned in accordance with the property management or co-ownership agreements.

### ***Residential Development Inventory Income***

The revenue generated from contracts with customers (ie. purchaser) on the sale of townhomes and residential condominium units is recognized at a point in time when control of the asset has transferred to the customer (i.e., generally, upon final closing of the townhome or condominium unit whereby legal transfer of property title has taken place) as the customer has the ability to direct the use of and obtain substantially all of the remaining benefits from the asset. Contracts with customers for townhomes or residential condominium units generally include one distinct performance obligation. Revenue is measured at the transaction price agreed to under the contract. Funds received prior to the purchasers taking possession of their respective assets are recognized as deferred revenue (contractual liability).

### (m) Financial instruments and derivatives

In accordance with IFRS 9, "Financial Instruments" ("IFRS 9"), all financial instruments are required to be measured at fair value on initial recognition. Measurement in subsequent periods depends on whether the financial instrument has been classified as fair value through profit and loss ("FVTPL"), fair value through other comprehensive income ("FVOCI") or amortized cost.

Derivative instruments are recorded in the consolidated balance sheets at fair value, including those derivatives that are embedded in financial or non-financial contracts.

First Capital enters into forward contracts, interest rate swaps and cross-currency swaps to hedge its risks associated with movements in interest rates and the movement in the Canadian to U.S. dollar exchange rate. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative. Hedge accounting is discontinued prospectively when the hedging relationship is terminated, when the instrument no longer qualifies as a hedge, or when the hedged item is sold or terminated. In cash flow hedging relationships, the portion of the change in the fair value of the hedging derivative that is considered to be effective is recognized in OCI while the portion considered to be ineffective is recognized in net income (loss). Unrealized hedging gains and losses in accumulated other comprehensive income (loss) are reclassified to net income (loss) in the periods when the hedged item affects net income (loss). Gains and losses on derivatives are immediately reclassified to net income (loss) when the hedged item is sold or terminated or when it is determined that a hedged forecasted transaction is no longer probable.

Changes in the fair value of derivative instruments, including embedded derivatives that are not designated as hedges for accounting purposes, are recognized in other gains (losses) and (expenses).

The following summarizes the Trust's classification and measurement of financial assets and liabilities for the years ended December 31, 2025 and 2024:

	Classification & Measurement
<b>Financial assets</b>	
Other investments	FVTPL
Derivative assets	FVTPL
Loans and mortgages receivable	Amortized Cost
Loans and mortgages receivable <sup>(1)</sup>	FVTPL
Equity securities designated as FVTPL	FVTPL
Amounts receivable	Amortized Cost
Cash and cash equivalents	Amortized Cost
Restricted cash	Amortized Cost
<b>Financial liabilities</b>	
Bank indebtedness	Amortized Cost
Mortgages	Amortized Cost
Credit facilities	Amortized Cost
Senior unsecured debentures	Amortized Cost
Accounts payable and other liabilities	Amortized Cost
Unit-based compensation plans	FVTPL
Derivative liabilities	FVTPL

<sup>(1)</sup> The loans whose cash flows are not solely payments of principal or interest are classified as FVTPL.

In determining fair values, the Trust evaluates counterparty credit risks and makes adjustments to fair values and credit spreads based upon changes in these risks.

Fair value measurements recognized in the consolidated balance sheets are categorized using a fair value hierarchy that reflects the significance of inputs used in determining the fair values as follows:

- (i) Level 1 Inputs – quoted prices (unadjusted) in active markets for identical assets or liabilities that the Trust has the ability to access at the measurement date. The Trust's investments in equity securities are measured using Level 1 inputs;
- (ii) Level 2 Inputs – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). The Trust's derivative assets and liabilities are measured using Level 2 inputs; and
- (iii) Level 3 Inputs – inputs for the asset or liability that are not based on observable market data (unobservable inputs). These unobservable inputs reflect the Trust's own assumptions about the data that market participants would use in pricing the asset or liability, and are developed based on the best information available, including the Trust's own data. The Trust's loans and mortgages receivable classified as FVTPL and other investments are measured using Level 3 inputs.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Trust determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

#### **(n) Cash and cash equivalents**

Cash and cash equivalents include cash and short-term investments with original maturities at the time of acquisition of three months or less.

#### **(o) Critical judgments in applying accounting policies**

The following are the critical judgments that have been made in applying First Capital's accounting policies and that have the most significant effect on the amounts in the consolidated financial statements:

##### *(i) Investment properties*

In applying the Trust's policy with respect to investment properties, judgment is applied in determining whether certain costs are additions to the carrying amount of the property and, for properties under development, identifying the point at which capitalization of borrowing and other costs ceases.

##### *(ii) Hedge accounting*

Where the Trust undertakes to apply cash flow hedge accounting, it must determine whether such hedges are expected to be highly effective in achieving offsetting changes in cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the reporting periods for which they were designated.

##### *(iii) Income taxes*

First Capital retains its REIT status if it meets the prescribed conditions under the Act. Management uses judgment in its interpretation and application of these conditions. First Capital determined that it qualifies as a REIT for the current period and expects to meet the prescribed conditions going forward. However, should the Trust no longer meet the REIT conditions, substantial adverse tax consequences may result.

#### **(p) Critical accounting estimates and assumptions**

First Capital makes estimates and assumptions that affect the carrying amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the reported amount of earnings for the reporting periods. Actual results could differ from those estimates. The estimates and assumptions that the Trust considers critical include those underlying the valuation of investment properties, as set out above, which describes the process by which investment properties are valued, and the determination of which properties are externally and internally appraised and how often.

Additional critical accounting estimates and assumptions include those used for determining the values of financial instruments for disclosure purposes (Note 21), estimating deferred taxes (Note 19) and estimating the fair value of unit-based compensation arrangements (Note 13).

### **(q) Future Changes in Accounting Policies**

#### ***IFRS 18, "Presentation and Disclosure in Financial Statements"***

In April 2024, the IASB issued IFRS 18, "Presentation and Disclosure in Financial Statements" ("IFRS 18"), which replaces IAS 1, "Presentation of Financial Statements". IFRS 18 aims to improve the comparability and transparency of communication in financial statements by introducing a number of new requirements:

- (i) classify income and expenses in the statement of profit or loss into categories such as, operating, investing, financing, income taxes and discontinued operations as well as present defined subtotals;
- (ii) provide note disclosure on management-defined performance measures that are used in communications outside the entity's financial statements;
- (iii) enhance the aggregation or disaggregation of information to ensure that items are classified and aggregated based on shared characteristics and material information is not obscured; and
- (iv) implement narrow scope amendments that have been made to IAS 7 "Statement of Cash Flows", IAS 34 "Interim Financial Reporting", and other minor amendments to other standards. Some requirements previously included within IAS 1 have been moved to IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors", which has been renamed IAS 8 "Basis of Preparation of Financial Statements".

IFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, and requires retrospective application. Early adoption is permitted but will need to be disclosed. Management is evaluating the impact of IFRS 18, including the impact of the amendments to the other accounting standards, on First Capital's consolidated financial statements.

#### ***Amendments to IFRS 9 and IFRS 7***

In May 2024, the IASB issued amendments to IFRS 9, "Financial Instruments" and IFRS 7, "Financial Instruments: Disclosures". The amendments clarify the timing of recognition and derecognition for a financial asset or financial liability, including clarifying that a financial liability is derecognized on the settlement date. The amendments also introduce an accounting policy choice to derecognize financial liabilities settled using an electronic payment system before the settlement date, if specific conditions are met. Further, the amendments clarify the classification of financial assets with features linked to environmental, social and corporate governance via additional guidance on the assessment of contingent features. In addition, the amendments also require additional disclosures for investments in equity instruments classified at fair value through other comprehensive income. These amendments are effective for annual periods beginning on or after January 1, 2026. Early adoption is permitted, with an option to early adopt only the amendments related to the classification of financial assets. The adoption is not expected to have a material impact on First Capital's consolidated financial statements.

### 3. INVESTMENT PROPERTIES

#### (a) Activity

The following tables summarize the changes in First Capital's investment properties for the years ended December 31, 2025 and 2024:

	Year ended December 31, 2025			
	Income-Producing Properties	Properties under Construction	Density & Development Land	Total
Balance at beginning of year	\$ 7,870,526	\$ 127,857	\$ 238,617	\$ 8,237,000
Acquisitions	—	—	27,693	27,693
Capital expenditures	65,323	71,076	10,500	146,899
Developments transferred offline/online, net	(54,578)	12,393	42,185	—
Increase (decrease) in fair value of investment properties, net	124,845	(24,704)	(20,354)	79,787
Straight-line rent and other changes	2,903	—	51	2,954
Dispositions	(76,225)	—	(99,750)	(175,975)
Balance at end of year	\$ 7,932,794	\$ 186,622	\$ 198,942	\$ 8,318,358
Investment properties	\$ 7,899,594	\$ 134,872	\$ 177,942	\$ 8,212,408
Assets classified as held for sale	33,200	51,750	21,000	105,950
<b>Total</b>	<b>\$ 7,932,794</b>	<b>\$ 186,622</b>	<b>\$ 198,942</b>	<b>\$ 8,318,358</b>

	Year ended December 31, 2024			
	Income-Producing Properties	Properties under Construction	Density & Development Land	Total
Balance at beginning of year	\$ 7,827,543	\$ 123,342	\$ 288,375	\$ 8,239,260
Acquisitions	33,453	—	—	33,453
Capital expenditures	83,990	31,798	7,980	123,768
Contribution of net assets from equity accounted joint venture (Note 4)	—	—	60,028	60,028
Developments transferred offline/online, net	33,163	(32,556)	(607)	—
Increase (decrease) in fair value of investment properties, net	24,483	5,273	(37,911)	(8,155)
Straight-line rent and other changes	7,044	—	(28)	7,016
Dispositions	(139,150)	—	(79,220)	(218,370)
Balance at end of year	\$ 7,870,526	\$ 127,857	\$ 238,617	\$ 8,237,000
Investment properties	\$ 7,739,226	\$ 81,932	\$ 219,217	\$ 8,040,375
Assets classified as held for sale	131,300	45,925	19,400	196,625
<b>Total</b>	<b>\$ 7,870,526</b>	<b>\$ 127,857</b>	<b>\$ 238,617</b>	<b>\$ 8,237,000</b>

Investment properties with a fair value of \$2.6 billion (December 31, 2024 – \$2.7 billion) are pledged as security for \$1.3 billion (December 31, 2024 – \$1.4 billion) in mortgages and secured credit facilities.

**(b) Investment property valuation**

Stabilized overall capitalization, terminal and discount rates for investment properties valued under the Income Approach are set out in the table below:

As at	December 31, 2025	December 31, 2024
Weighted Average Total		
Overall Capitalization Rate	5.5%	5.5%
Terminal Capitalization Rate	5.7%	5.7%
Discount Rate	6.5%	6.4%

The majority of the Trust's portfolio is valued under the Income Approach using the discounted cash flow ("DCF") method. As at December 31, 2025, the weighted average valuation yields (stabilized overall capitalization, terminal capitalization and discount rates) used in valuing those investment properties under the Income Approach did not materially change from December 31, 2024.

Throughout 2025, as part of its normal course internal valuations, the Trust made revisions to the cash flow models and yields on certain properties, and revalued certain development lands when considering comparable land sales and market activity. As a result, an overall net increase in the fair value of investment properties was recorded in the amount of \$79.8 million (\$44.2 million at FCR's share) for the year ended December 31, 2025.

The sensitivity of the fair values of investment properties to stabilized overall capitalization rates as at December 31, 2025 is set out in the table below:

As at December 31, 2025	(millions of dollars)
(Decrease) Increase in stabilized overall capitalization rate	Resulting increase (decrease) in fair value of investment properties
(1.00%)	\$ 1,787
(0.75%)	\$ 1,270
(0.50%)	\$ 805
(0.25%)	\$ 383
0.25%	\$ (350)
0.50%	\$ (672)
0.75%	\$ (967)
1.00%	\$ (1,241)

Additionally, a 1% increase or decrease in stabilized net operating income ("S NOI") would result in a \$81 million increase or a \$81 million decrease, respectively, in the fair value of investment properties. S NOI is not a measure defined by IFRS. S NOI reflects stable property operations, assuming a certain level of vacancy, capital and operating expenditures required to maintain a stable occupancy rate. The average vacancy rates used in determining S NOI for non-anchor tenants generally range from 2% to 5%. A 1% increase in S NOI coupled with a 0.25% decrease in the stabilized capitalization rate would result in an increase in the fair value of investment properties of \$468 million, and a 1% decrease in S NOI coupled with a 0.25% increase in the stabilized capitalization rate would result in a decrease in the fair value of investment properties of \$428 million.

**(c) Investment properties – Acquisitions**

For the years ended December 31, 2025 and 2024, First Capital acquired investment properties as follows:

Year ended December 31	2025	2024
Total purchase price, including acquisition costs	\$ 27,693	\$ 33,453
Total cash paid	\$ 27,693	\$ 33,453

#### (d) Assets classified as held for sale and dispositions

First Capital has certain assets classified as held for sale. These assets typically include a mix of properties where FCR's value-enhancing objectives have been achieved or those that are considered to be non-core to the business, and are as follows:

As at	December 31, 2025	December 31, 2024
Aggregate fair value	\$ 105,950	\$ 196,625
Mortgages secured by assets classified as held for sale	\$ —	\$ 17,755
Weighted average effective interest rate of mortgages secured by assets classified as held for sale	N/A	3.5%

For the years ended December 31, 2025 and 2024, First Capital sold investment properties as follows:

Year ended December 31	Note	2025	2024
Total selling price		\$ 175,975	\$ 218,370
Secured construction facility assumed by purchaser on sale of investment properties		—	(19,321)
Vendor take-back mortgage on sale		(12,000)	—
Property selling costs	18	(2,543)	(3,432)
Net cash proceeds (costs)		\$ 161,432	\$ 195,617

## 4. INVESTMENT IN JOINT VENTURES

As at December 31, 2025, First Capital had interests in seven joint ventures that it accounts for using the equity method. First Capital's joint ventures are as follows:

Name of Entity	Name of Property/Business Activity	Location	Effective Ownership	
			December 31, 2025	December 31, 2024
Aukland and Main Developments LP	Station Place	Toronto, ON	35.4%	35.4%
College Square General Partnership	College Square	Ottawa, ON	50.0%	50.0%
Edenbridge Kingsway (Humbertown)	Humbertown Condos	Toronto, ON	50.0%	50.0%
Fashion Media Group GP Ltd.	Toronto Fashion Week events	Toronto, ON	78.0%	78.0%
FC Urban Properties, LP	199 Avenue Rd.	Toronto, ON	20.0%	20.0%
Lakeshore Development LP	2150 Lake Shore Blvd. W.	Toronto, ON	50.0%	50.0%
Stackt Properties LP	Shipping Container marketplace	Toronto, ON	94.0%	94.0%

First Capital has determined that these investments are joint ventures as all decisions regarding their activities are made unanimously between First Capital and its partners.

The following table reconciles the changes in First Capital's interests in its equity accounted joint ventures for the years ended December 31, 2025 and 2024:

	Note	December 31, 2025	December 31, 2024
Balance at beginning of year		\$ 320,042	\$ 404,504
Contributions to equity accounted joint ventures		6,842	20,037
Distributions from equity accounted joint ventures		(5,712)	(5,533)
Distribution of net assets from equity accounted joint venture	3(a)	—	(60,028)
Share of profit (loss) from equity accounted joint ventures		(35,740)	(38,938)
Balance at end of year		\$ 285,432	\$ 320,042

On February 28, 2024, Green Capital Limited Partnership was dissolved and the net assets distributed to its limited partners. The Trust held a 50% interest in the partnership and received net assets of \$60.0 million. Concurrently with the dissolution, the Trust sold its 50% interest in the Royal Orchard property for net proceeds of \$59.7 million.

Summarized financial information of the joint ventures' financial position and performance is set out below:

As at	December 31, 2025	December 31, 2024
Total assets	\$ 994,417	\$ 992,165
Total liabilities	(424,573)	(330,306)
Net assets at 100%	\$ 569,844	\$ 661,859
<b>First Capital's investment in equity accounted joint ventures</b>	<b>\$ 285,432</b>	<b>\$ 320,042</b>
For the year ended	December 31, 2025	December 31, 2024
Property revenue	\$ 32,129	\$ 32,347
Property expenses	(15,921)	(14,912)
Increase (decrease) in fair value of investment properties, net	(79,265)	(87,709)
Other income and (expenses)	(2,321)	(1,595)
Net income (loss) and total comprehensive income (loss) at 100%	\$ (65,378)	\$ (71,869)
<b>First Capital's share of profit (loss) from equity accounted joint ventures</b>	<b>\$ (35,740)</b>	<b>\$ (38,938)</b>

During 2025, First Capital received distributions from its joint ventures of \$5.7 million (2024 – \$5.5 million) and made contributions to its joint ventures of \$6.8 million (2024 – \$20.0 million).

As at December 31, 2025, there were approximately \$1.0 million of outstanding commitments, \$0.6 million of outstanding letters of credit issued by financial institutions and no contingent liabilities for the seven equity accounted joint ventures.

## 5. LOANS, MORTGAGES AND OTHER ASSETS

As at	December 31, 2025	December 31, 2024
<b>Non-current</b>		
Loans and mortgages receivable classified as amortized cost (a)	\$ 50,447	\$ 14,178
Other investments	13,444	12,506
Due from co-owners (b)	90,027	62,044
Total non-current	153,918	88,728
<b>Current</b>		
Loans and mortgages receivable classified as amortized cost (a)	70,718	81,657
FVTPL investments in securities (c)	3,557	3,246
Total current	74,275	84,903
<b>Total</b>	<b>\$ 228,193</b>	<b>\$ 173,631</b>

(a) Loans and mortgages receivable are secured by interests in investment properties or shares of entities owning investment properties. As at December 31, 2025, these receivables bear interest at weighted average effective interest rates of 8.3% (December 31, 2024 – 8.9%) and mature between 2026 and 2030.

(b) The Trust has contributed equity to one of its co-ownerships whereas its partners made draws on the co-ownership's new credit facility to fund the co-ownership's development project. The due from co-owners in the principal amount of \$80.3 million (December 31, 2024 - \$55.8 million) equals the Trust's proportionate share of the co-ownership's credit facility draws. As there is no right of offset for these two financial instruments they are presented on a gross basis on the consolidated balance sheets.

(c) From time to time, First Capital invests in publicly traded real estate and related securities. These securities are recorded at market value. Realized and unrealized gains and losses on FVTPL securities are recorded in other gains (losses) and (expenses).

Scheduled principal receipts of loans and mortgages receivable and the weighted average effective floating or fixed interest rates as at December 31, 2025 are as follows:

	Scheduled Receipts	Weighted Average Effective Interest Rate
2026	\$ 68,584	7.7%
2027	24,760	6.8%
2028	3,441	11.0%
2029	—	—%
2030	17,175	12.7%
Total scheduled principal receipts of loans and mortgages receivable	\$ 113,960	8.3%
Accrued interest	7,205	
Total carrying amount of loans and mortgages receivable	\$ 121,165	
Current	\$ 70,718	7.7%
Non-current	50,447	9.3%
Total	\$ 121,165	8.3%

## 6. AMOUNTS RECEIVABLE

As at	December 31, 2025	December 31, 2024
Tenant receivables (net of allowance for expected credit losses of \$3.5 million; December 31, 2024 – \$4.5 million)	\$ 13,153	\$ 13,948
Corporate and other amounts receivable	650	501
Total	\$ 13,803	\$ 14,449

First Capital determines its allowance for expected credit losses on a tenant-by-tenant basis considering lease terms, credit risk, industry conditions and the status of the tenant's account, among other factors.

The change in the allowance for expected credit losses is summarized below:

As at	December 31, 2025	December 31, 2024
Allowance for expected credit losses, beginning of year	\$ 4,544	\$ 6,203
Receivables written off during the year	(1,420)	(1,534)
Additional provision (recovery) and other adjustments recorded during the year	354	(125)
Allowance for expected credit losses, end of year	\$ 3,478	\$ 4,544

## 7. OTHER ASSETS

As at	Note	December 31, 2025	December 31, 2024
<b>Non-current</b>			
Fixtures, equipment and computer hardware and software (net of accumulated amortization of \$7.4 million; December 31, 2024 – \$27.3 million)		\$ 5,570	\$ 6,986
Deferred financing costs on credit facilities (net of accumulated amortization of \$6.9 million; December 31, 2024 – \$12.3 million)		2,904	3,586
Environmental indemnity and insurance proceeds receivable	11(a)	385	561
Derivatives at fair value	21	539	4,844
Other non-current assets <sup>(1)</sup>		14,866	12,970
<b>Total non-current</b>		<b>24,264</b>	<b>28,947</b>
<b>Current</b>			
Deposits and costs on investment properties under option		431	4,647
Prepaid expenses		10,878	10,590
Restricted cash		5,077	3,045
Derivatives at fair value	21	51	809
Other current assets		2,554	10,419
<b>Total current</b>		<b>18,991</b>	<b>29,510</b>
<b>Total</b>		<b>\$ 43,255</b>	<b>\$ 58,457</b>

<sup>(1)</sup> Other non-current assets includes a \$12.9 million (December 31, 2024 - \$11.6 million) long-term density bonus owing to the Trust related to a previously sold property which received final zoning approval in the third quarter of 2024.

## 8. CAPITAL MANAGEMENT

First Capital manages its capital, taking into account the long-term business objectives of the Trust, to provide stability and reduce risk while generating an acceptable return on investment to Unitholders over the long term. The Trust's capital structure currently includes Trust Units, senior unsecured debentures, mortgages, credit facilities, bank term loans and bank indebtedness, which together provide First Capital with financing flexibility to meet its capital needs. Primary uses of capital include development activities, acquisitions, capital improvements and leasing costs. The actual level and type of future financings to fund these capital requirements will be determined based on prevailing interest rates, various costs of debt and/or equity capital, property and capital market conditions, and Management's general view of the required leverage in the business.

Components of the Trust's capital are set out in the table below:

As at	December 31, 2025	December 31, 2024
<b>Liabilities (principal amounts outstanding)</b>		
Mortgages	\$ 1,181,074	\$ 1,246,977
Credit facilities	511,982	723,335
Mortgages under equity accounted joint ventures (at the Trust's interest)	87,899	89,619
Credit facilities under equity accounted joint ventures (at the Trust's interest)	57,809	34,355
Senior unsecured debentures	2,300,000	2,100,000
	4,138,764	4,194,286
<b>Equity market capitalization <sup>(1)</sup></b>	<b>4,015,351</b>	<b>3,600,991</b>
<b>Total capital employed</b>	<b>\$ 8,154,115</b>	<b>\$ 7,795,277</b>
Trust Units outstanding (000's)	212,452	212,323
<b>Closing market price</b>	<b>\$ 18.90</b>	<b>\$ 16.96</b>

<sup>(1)</sup> Equity market capitalization is the market value of FCR's units outstanding at December 31, 2025 and December 31, 2024. The measure is not defined by IFRS, does not have a standard definition and, as such, may not be comparable to similar measures disclosed by other issuers.

First Capital is subject to financial covenants in agreements governing its senior unsecured debentures and its credit facilities. In accordance with the terms of the Trust's credit agreements, all ratios are calculated with joint ventures proportionately consolidated. As at December 31, 2025, First Capital remains in compliance with all of its applicable financial covenants.

The following table summarizes a number of First Capital's key ratios:

As at	Measure/ Covenant	December 31, 2025		December 31, 2024
Net debt to total assets <sup>(1)</sup>	≤65%	<b>44.1%</b>		44.5%
Unencumbered aggregate assets to unsecured debt, using 10 quarter average capitalization rate <sup>(1)</sup>	>1.3	<b>2.4</b>		2.4
Unitholders' equity, using four quarter average (billions) <sup>(2)</sup>	>\$2.0B	\$ <b>4.2</b>	\$	4.0
Secured indebtedness to total assets <sup>(2)</sup>	≤35%	<b>15.8%</b>		16.0%
<b><i>For the rolling four quarters ended</i></b>				
Interest coverage (Adjusted EBITDA to interest expense) <sup>(2)</sup>	>1.65	<b>2.4</b>		2.4
Fixed charge coverage (Adjusted EBITDA to debt service) <sup>(2)</sup>	>1.50	<b>2.0</b>		2.0

<sup>(1)</sup> Total assets excludes cash balances.

<sup>(2)</sup> Calculations required under the Trust's credit facility agreements or indentures governing the senior unsecured debentures.

The above ratios include measures not specifically defined in IFRS. Certain calculations are required pursuant to debt covenants and are meaningful measures for this reason. Measures used in these ratios are defined below:

- Debt consists of principal amounts outstanding on credit facilities and mortgages, and the par value of senior unsecured debentures;
- Net debt is calculated as Debt, as defined above, reduced by cash balances at the end of the period;
- Secured indebtedness includes mortgages and any draws under the secured facilities that are collateralized against investment property;
- Adjusted EBITDA, is calculated as net income, adding back income tax expense; interest expense; and amortization and excluding the increase or decrease in the fair value of investment properties and unit-based compensation; other gains (losses) and (expenses); and other non-cash or non-recurring items. The Trust also adjusts for incremental leasing costs, which is a recognized adjustment to Funds from Operations, in accordance with the recommendations of the Real Property Association of Canada;
- Fixed charges include regular principal and interest payments and capitalized interest in the calculation of interest expense; and
- Unencumbered assets include the value of assets that have not been pledged as security under any credit agreement or mortgage. The unencumbered asset value ratio is calculated as unencumbered assets divided by the principal amount of the unsecured debt, which consists of the bank indebtedness, unsecured bank term loans, unsecured credit facilities, and senior unsecured debentures.

## 9. MORTGAGES AND CREDIT FACILITIES

As at	December 31, 2025	December 31, 2024
Fixed rate mortgages	\$ 1,178,037	\$ 1,243,786
Unsecured facilities	350,923	608,188
Secured facilities	161,059	115,147
Mortgages and credit facilities	\$ 1,690,019	\$ 1,967,121
Current	\$ 347,856	\$ 226,479
Mortgages classified as held for sale	—	17,755
Non-current	1,342,163	1,722,887
Total	\$ 1,690,019	\$ 1,967,121

Mortgages and secured facilities are secured by First Capital's investment properties. As at December 31, 2025, approximately \$2.6 billion (December 31, 2024 – \$2.7 billion) of investment properties out of \$8.3 billion (December 31, 2024 – \$8.2 billion) (Note 3(a)) had been pledged as security under the mortgages and the secured facilities.

As at December 31, 2025, mortgages bear coupon interest at a weighted average coupon rate of 4.0% (December 31, 2024 – 3.8%) and mature in the years ranging from 2026 to 2034. The weighted average effective interest rate on all mortgages as at December 31, 2025 is 3.9% (December 31, 2024 – 3.9%).

Principal repayments of mortgages outstanding as at December 31, 2025 are as follows:

	Scheduled Amortization	Payments on Maturity	Total	Weighted Average Effective Interest Rate
2026	\$ 30,425	\$ 94,360	\$ 124,785	3.2%
2027	29,568	71,726	101,294	3.6%
2028	27,331	145,723	173,054	3.8%
2029	20,770	236,880	257,650	3.5%
2030	13,661	189,955	203,616	3.4%
2031 to 2034	16,121	304,554	320,675	4.9%
	\$ 137,876	\$ 1,043,198	\$ 1,181,074	3.9%
Unamortized deferred financing costs and premiums, net			(3,037)	
<b>Total</b>			<b>\$ 1,178,037</b>	

First Capital's credit facilities as at December 31, 2025 are summarized in the table below:

As at December 31, 2025	Borrowing Capacity	Amounts Drawn	Bank Indebtedness and Outstanding Letters of Credit	Available to be Drawn	Interest Rates	Maturity Date
<b>Unsecured Operating Facilities</b>						
Revolving unsecured operating facility	\$ 100,000	\$ —	\$ —	\$ 100,000	CORRA + 1.55% or Prime + 0.25% or SOFR + 1.35%	September 12, 2027
Revolving unsecured operating facility	150,000	—	—	150,000	CORRA + 1.55% or Prime + 0.25% or SOFR + 1.35%	August 31, 2028
Revolving unsecured operating facility	450,000	—	(22,233)	427,767	CORRA + 1.75% or Prime + 0.45% or SOFR + 1.55%	June 30, 2030
Fixed rate unsecured term loan <sup>(1)(2)(4)</sup>	150,000	(150,923)	—	—	5.985%	October 20, 2026
Fixed rate unsecured term loan <sup>(1)</sup>	200,000	(200,000)	—	—	5.80%	January 31, 2029
<b>Secured Construction Facilities</b>						
Secured construction facility	7,500	(7,500)	—	—	Greater of 5.70% or Prime + 1.25%	June 1, 2026
Secured construction facility	62,665	(58,505)	(537)	3,623	CORRA + 2.90% or Prime + 1.00%	October 1, 2026
Secured construction facility <sup>(3)</sup>	120,206	(80,253)	(702)	39,251	CORRA + 2.60%	February 1, 2027
Secured construction facility	178,500	(8,046)	(1,479)	168,975	CORRA + 1.95% or Prime + 0.85%	November 1, 2029
<b>Secured Facility</b>						
Secured facility	6,755	(6,755)	—	—	CORRA + 1.75% or Prime + 0.45%	December 19, 2026
<b>Sub-Total</b>	<b>\$ 1,425,626</b>	<b>\$ (511,982)</b>	<b>\$ (24,951)</b>	<b>\$ 889,616</b>		
<b>Secured Construction Facility</b>						
Secured construction facility <sup>(5)</sup>	71,450	(57,809)	—	13,641	CORRA + 2.95% or Prime + 1.00%	September 30, 2026
<b>Total</b>	<b>\$ 1,497,076</b>	<b>\$ (569,791)</b>	<b>\$ (24,951)</b>	<b>\$ 903,257</b>		

<sup>(1)</sup> These unsecured term loans are variable rate debt instruments. The Trust has entered into swaps which fix the rate of interest over their respective terms to maturity.

<sup>(2)</sup> The Trust has drawn in U.S. dollars the equivalent of CAD\$150.0 million which was revalued at CAD\$150.9 million as at December 31, 2025.

<sup>(3)</sup> The borrowing capacity is reduced by the Trust's equity injections into the project where it has chosen not to draw on the facility and other adjustments in accordance with the facility agreement.

<sup>(4)</sup> The Trust has the option to extend the unsecured term loan for an additional two years, to October 20, 2028.

<sup>(5)</sup> This secured construction facility relates to one of the Trust's joint ventures that is equity accounted.

First Capital has the ability under its unsecured credit facilities to draw funds based on Canadian bank prime rates or Canadian Overnight Repo Rate Average ("CORRA rates") for Canadian dollar-denominated borrowings, and secured overnight financing rates ("SOFR rates") or U.S. prime rates for U.S. dollar-denominated borrowings. Concurrently with the U.S. dollar draws, the Trust enters into cross-currency swaps to exchange its U.S. dollar borrowings into Canadian dollar borrowings.

## 10. SENIOR UNSECURED DEBENTURES

As at					December 31, 2025	December 31, 2024
Series	Maturity Date	Interest Rate		Principal Outstanding	Liability	Liability
		Coupon	Effective			
S	July 31, 2025	4.32%	4.24%	\$ —	\$ —	\$ 300,138
T	May 6, 2026	3.60%	3.57%	—	—	\$ 300,173

F	February 15, 2034	4.46%	4.54%	<b>250,000</b>	<b>248,662</b>	—
G	February 15, 2035	4.76%	4.83%	<b>250,000</b>	<b>248,662</b>	—
Weighted Average or Total		4.55%	4.64%	\$ 2,300,000	\$ 2,291,591	\$ 2,094,992
Current				\$ —	\$ —	\$ 300,138
Non-current				<b>2,300,000</b>	<b>2,291,591</b>	1,794,854
Total				\$ 2,300,000	\$ 2,291,591	\$ 2,094,992

Interest on the senior unsecured debentures is payable semi-annually and principal is payable on maturity.

During the year ended December 31, 2024, the Trust completed the issuance of \$800 million principal amount of senior unsecured debentures, and repaid its remaining 4.79% Series R senior unsecured debentures in the amount of \$281 million.

On June 13, 2025, the Trust completed the issuance of \$300 million principal amount of Series E senior unsecured debentures due June 13, 2033. These debentures bear interest at a coupon rate of 4.83% per annum, payable semi-annually commencing December 13, 2025.

On July 31, 2025, upon maturity, the Trust repaid its 4.32% Series S senior unsecured debentures in the amount of \$300 million.

On November 14, 2025, the Trust completed the issuance of \$250 million principal amount of Series F senior unsecured debentures due February 15, 2034. These debentures bear interest at a coupon rate of 4.46% per annum, payable semi-annually commencing August 15, 2026.

On December 8, 2025, the Trust completed the issuance of \$250 million principal amount of Series G senior unsecured debentures due February 15, 2035. These debentures bear interest at a coupon rate of 4.76% per annum, payable semi-annually commencing August 15, 2026.

On December 31, 2025, the Trust repaid its 3.60% Series T Senior Unsecured Debentures in the amount of \$300 million.

## 11. ACCOUNTS PAYABLE AND OTHER LIABILITIES

As at	Note	December 31, 2025	December 31, 2024
<b>Non-current</b>			
Asset retirement obligations (a)		\$ 932	\$ 905
Ground leases payable		8,128	8,287
Derivatives at fair value	21	17,552	14,336
Unit-based compensation plans	13(c)	10,470	8,179
Other liabilities (b)		90,949	89,501
<b>Total non-current</b>		<b>128,031</b>	<b>121,208</b>
<b>Current</b>			
Trade payables and accruals		59,613	57,517
Construction and development payables		46,200	52,040
Unit-based compensation plans	13(c)	32,709	23,456
Distributions payable	12(b)	15,757	15,287
Interest payable		24,517	30,484
Tenant deposits		43,351	44,821
<b>Total current</b>		<b>222,147</b>	<b>223,605</b>
<b>Total</b>		<b>\$ 350,178</b>	<b>\$ 344,813</b>

- (a) First Capital has obligations for environmental remediation at certain sites within its property portfolio. FCR has also recognized a related environmental indemnity and insurance proceeds receivable totaling \$0.4 million (December 31, 2024 - \$0.6 million) in other assets (Note 7).
- (b) Other liabilities includes a loan payable to one of the Trust's joint ventures in the amount of \$52.5 million (December 31, 2024 - \$53.0 million) in relation to mortgage proceeds received by the joint venture. The loan proceeds were concurrently advanced to the Trust and to the joint venture's other limited partners by way of a new loan arrangement that cannot be eliminated in the consolidated financial statements under IFRS.

## 12. UNITHOLDERS' EQUITY

The Declaration of Trust authorizes the issuance of an unlimited number of Trust Units:

**Trust Units:** Each Trust Unit is transferable and represents an equal, undivided beneficial interest in the Trust and any distributions from the Trust and entitles the holder to one vote at a meeting of Unitholders. With certain restrictions, a Unitholder has the right to require First Capital to redeem its Trust Units on demand. Upon receipt of a redemption notice by First Capital, all rights to and under the Trust Units tendered for redemption shall be surrendered and the holder thereof shall be entitled to receive a price per unit as determined by a market formula and shall be paid in accordance with the conditions provided for in the Declaration of Trust.

### (a) Trust Units

The following table sets forth the particulars of First Capital's Trust Units outstanding:

As at	December 31, 2025		December 31, 2024	
	Number of Trust Units	Value of Trust Units	Number of Trust Units	Value of Trust Units
Balance at beginning of year	212,323	\$ 2,805,551	212,184	\$ 2,803,327
Exercise of options and settlement of any restricted, performance and deferred trust units	129	2,194	139	2,224
<b>Balance at end of year</b>	<b>212,452</b>	<b>\$ 2,807,745</b>	<b>212,323</b>	<b>\$ 2,805,551</b>

On May 16, 2025, First Capital received TSX approval for the renewal of its Normal Course Issuer Bid ("NCIB") pursuant to which it may repurchase and cancel up to 21,120,181 of its outstanding units until May 20, 2026.

For the year ended December 31, 2025 and 2024, the Trust acquired no units under the NCIB. Since the inception of the NCIB on May 18, 2022, through to December 31, 2025, the Trust has acquired and cancelled 7.9 million Units at a weighted average purchase price of \$15.15 per unit, for a total cost of \$120.1 million.

### (b) Distributions

First Capital declared monthly distributions totaling \$0.890 per Trust Unit for the year ended December 31, 2025 (year ended December 31, 2024 - \$0.864 per Trust Unit).

## 13. UNIT-BASED COMPENSATION PLANS

### (a) Unit Option Plan

First Capital's unit option plan was terminated in 2021 following the final grants issued on March 1, 2021. Any options granted prior to termination of the plan expire 10 years from the date of grant and vest over five years. As at December 31, 2025, 4.9 million unit options were outstanding (December 31, 2024 - 5.3 million).

The outstanding options as at December 31, 2025 have exercise prices ranging from \$15.53 - \$21.24 (December 31, 2024 - \$15.53 - \$21.24).

As at	December 31, 2025						December 31, 2024		
	Outstanding Options			Vested Options			Outstanding Options		
Exercise Price Range (\$)	Number of Trust Units Issuable (in thousands)	Weighted Average Exercise Price per Trust Unit	Weighted Average Remaining Life (years)	Number of Trust Units Issuable (in thousands)	Weighted Average Exercise Price per Trust Unit	Number of Trust Units Issuable (in thousands)	Weighted Average Exercise Price per Trust Unit	Number of Trust Units Issuable (in thousands)	Weighted Average Exercise Price per Trust Unit
15.53 - 19.29	607 \$ 15.53	5.2	486 \$ 15.53	905 \$ 16.48	4.3	662 \$ 16.83			
19.30 - 20.05	1,316 \$ 19.86	1.4	1,316 \$ 19.86	1,364 \$ 19.87	2.3	1,364 \$ 19.87			
20.06 - 21.19	1,632 \$ 20.68	2.2	1,632 \$ 20.68	1,632 \$ 20.68	3.2	1,632 \$ 20.68			
21.20 - 21.24	1,380 \$ 21.24	4.2	1,380 \$ 21.24	1,379 \$ 21.24	5.2	1,104 \$ 21.24			
15.53 - 21.24	4,935 \$ 19.98	2.9	4,814 \$ 20.10	5,280 \$ 19.90	3.7	4,762 \$ 20.04			

During the year ended December 31, 2025, \$0.1 million (year ended December 31, 2024 - \$0.2 million) was recorded as an expense related to stock options.

Year ended December 31	2025			2024	
	Number of Trust Units Issuable (in thousands)	Weighted Average Exercise Price	Number of Trust Units Issuable (in thousands)	Weighted Average Exercise Price	
Outstanding at beginning of year	5,280 \$ 19.90		5,621 \$ 19.79		
Exercised (a)	(285) 18.40		—	—	
Expired	(60) 19.69		(341) 18.23		
Outstanding at end of year	4,935 \$ 19.98		5,280 \$ 19.90		

(a) The weighted average market price at which options were exercised for the year ended December 31, 2025 was \$19.46 (year ended December 31, 2024 - N/A).

The assumptions used to measure the fair value of the unit options under the Black-Scholes model (level 2) as at December 31, 2025 and 2024 were as follows:

As at December 31	2025	2024
Expected Trust Unit price volatility	13.01% - 20.10%	15.19% - 23.96%
Expected life of options	0.1 - 4.0 years	0.2 - 4.7 years
Expected distribution yield	4.71%	5.22%
Risk free interest rate	2.22% - 2.88%	2.91% - 3.09%

## (b) Trust Unit arrangements

First Capital's Trust Unit plans include a Trustees' Deferred Unit ("DU") plan and a Restricted Unit ("RU") plan that provides for the issuance of Restricted Units and Performance Units ("PU"). Under the DU and RU arrangements, a participant is entitled to receive one Trust Unit, or equivalent cash value for RU arrangements only, at First Capital's option, (i) in the case of a DU, upon redemption by the holder after the date that the holder ceases to be a Trustee of FCR and any of its subsidiaries (the "Retirement Date") but no later than December 15 of the first calendar year commencing after the Retirement Date, and (ii) in the case of an RU, on the third anniversary of the grant date. Under the PU arrangement, a participant is entitled to receive Nil – 2.0 Trust Units per PU granted, or equivalent cash value at First Capital's option, on the third anniversary of the grant date. Holders of units granted under each plan receive distributions in the form of additional units when First Capital declares distributions on its Trust Units.

Year ended December 31	2025		2024	
(in thousands)	DUs	RUs / PUs	DUs	RUs / PUs
Outstanding at beginning of year	395	1,606	450	1,261
Granted (a) (b)	83	460	89	468
Performance Factor adjustment	—	143	—	42
Distributions reinvested	21	90	23	81
Exercised	(24)	(397)	(167)	(231)
Forfeited	—	(6)	—	(15)
Outstanding at end of year	475	1,896	395	1,606
Expense recorded for the year	\$1,873	\$9,460	\$1,842	\$8,584

- (a) The fair value of the DUs granted during the year ended December 31, 2025 was \$1.5 million (year ended December 31, 2024 – \$1.5 million), measured based on First Capital's prevailing Trust Unit price on the date of grant. The fair value of the RUs granted during the year ended December 31, 2025 was \$4.8 million (year ended December 31, 2024 – \$4.6 million), measured based on First Capital's Trust Unit price on the date of grant.
- (b) The fair value of the PUs granted during the year ended December 31, 2025 was \$3.0 million (year ended December 31, 2024 – \$3.6 million). The fair value is calculated using the Monte-Carlo simulation model based on the assumptions below, as well as a market adjustment factor based on the total Unitholder return of First Capital's Trust Units relative to the S&P/TSX Capped REIT Index and relative to a customized index of publicly-listed peers.

Year ended December 31	2025	2024
Grant date	February 20, 2025	March 8, 2024
PUs granted (thousands)	175	180
Term to expiry	3 years	3 years
Weighted average volatility rate	21.2%	21.4%
Weighted average correlation	79.3%	75.1%
Weighted average total Unitholder return	(2.6%)	9.4%
Weighted average risk free interest rate	2.81%	3.79%
Fair value (thousands)	\$2,986	\$3,626

## (c) Increase (decrease) in the value of unit-based compensation

First Capital's unit-based compensation plans are accounted for as cash-settled awards. Therefore, outstanding Unit Options, Deferred Units, Restricted Units and Performance Units are recognized as a liability and carried at fair value through profit and loss. As at December 31, 2025, the carrying value of the unit-based compensation liability was \$43.2 million (December 31, 2024 – \$31.6 million)(Note 11). FCR's liability for unit-based compensation plans has increased since the beginning of the year which resulted in a revaluation loss of \$7.5 million (December 31, 2024 – \$5.4 million) in the consolidated statements of income (loss) due to (i) an increase in the Trust Unit's price since December 31, 2024 and (ii) a larger number of vested units outstanding that have yet to be converted to Trust Units.

## 14. NET OPERATING INCOME

### Net Operating Income by Component

First Capital's net operating income by component is presented below:

	Year ended December 31		
	% change	2025	2024
Property rental revenue			
Base rent <sup>(1)</sup>		\$ 452,105	\$ 440,372
Operating cost recoveries		122,486	114,751
Realty tax recoveries		126,376	121,015
Lease termination fees		3,648	6,384
Percentage rent		2,578	2,947
Straight-line rent adjustment		2,903	7,168
Prior year operating cost and tax recovery adjustments		393	1,022
Temporary tenants, storage, parking and other		20,748	19,865
Total Property rental revenue	2.5%	\$ 731,237	\$ 713,524
Property operating costs			
Recoverable operating expenses		130,134	125,804
Recoverable realty tax expense		141,132	137,288
Prior year realty tax expense (recovery)		(10)	(178)
Other operating costs and adjustments <sup>(2)</sup>		45	3,322
Total Property operating costs		\$ 271,301	\$ 266,236
Total NOI	2.8%	\$ 459,936	\$ 447,288
NOI margin		62.9%	62.7%

<sup>(1)</sup> Includes residential revenue.

<sup>(2)</sup> Includes residential operating costs and bad debt expense (recovery). For the year ended December 31, 2025, bad debt expense (recovery) totaled (\$0.5) million (year ended December 31, 2024 - (\$0.7) million).

For the year ended December 31, 2025, property operating costs include \$27.2 million (year ended December 31, 2024 – \$25.5 million) related to employee compensation.

## 15. INTEREST AND OTHER INCOME

	Year ended December 31		
	Note	2025	2024
Interest, dividend and distribution income from cash, marketable securities and other investments	5	\$ 3,917	\$ 9,119
Interest income from loans and mortgages receivable at amortized cost	5	9,422	12,045
Fees and other income <sup>(1)</sup>		9,135	25,954
Total		\$ 22,474	\$ 47,118

<sup>(1)</sup> For the year ended December 31, 2024, fees and other income includes a density bonus of \$11.3 million related to a previously sold property which received final zoning approval in the third quarter of 2024 as well as a \$9.5 million fee related to the assignment of a purchase and sale agreement for a parcel of land.

## 16. INTEREST EXPENSE

	Note	2025	2024	Year ended December 31
Mortgages	9	\$ 49,223	\$ 52,703	
Credit facilities	9	31,727	47,109	
Senior unsecured debentures	10	98,779	85,154	
Total interest expense		179,729	184,966	
Interest capitalized to investment properties under development		(20,935)	(18,803)	
Interest expense		\$ 158,794	\$ 166,163	
Change in accrued interest		5,966	(3,452)	
Coupon interest rate in excess of effective interest rate on senior unsecured debentures		913	1,331	
Coupon interest rate in excess of effective interest rate on assumed mortgages		—	7	
Amortization of deferred financing costs		(6,500)	(9,313)	
Cash interest paid associated with operating activities		\$ 159,173	\$ 154,736	

## 17. CORPORATE EXPENSES

		2025	2024	Year ended December 31
Salaries, wages and benefits		\$ 33,744	\$ 33,223	
Unit-based compensation		10,924	10,372	
Other corporate costs		14,447	15,052	
Total corporate expenses		59,115	58,647	
Amounts capitalized to investment properties under development		(7,381)	(7,559)	
Corporate expenses		\$ 51,734	\$ 51,088	

## 18. OTHER GAINS (LOSSES) AND (EXPENSES)

		2025	2024	Year ended December 31
Unrealized gain (loss) on marketable securities		\$ 311	\$ 445	
Net gain (loss) on early settlement of debt		—	(8)	
Pre-selling costs of residential inventory		(1,043)	(1,467)	
Investment property selling costs		(2,543)	(3,432)	
Restructuring and advisory costs <sup>(1)</sup>		(6,806)	—	
Gain (loss) on foreign currency translation		7,253	(16,291)	
Gain (loss) on mark-to-market of derivatives <sup>(2)</sup>		(5,608)	16,221	
Total		\$ (8,436)	\$ (4,532)	

<sup>(1)</sup> The Trust incurred \$6.8 million in restructuring and advisory costs for the year ended December 31, 2025 related to the Arrangement, including legal and tax advisory fees as well as land transfer tax applicable in Quebec.

<sup>(2)</sup> The Trust enters into cross-currency swap derivatives to manage interest rate risk and foreign currency risk on its US denominated variable rate debt instruments.

## 19. INCOME TAXES

The Trust qualifies for the REIT Exemption and as such the Trust itself will not be subject to income taxes provided it continues to qualify as a REIT for purposes of the Act. A REIT is not taxable and not considered to be a Specified Investment Flow-Through Trust provided it complies with certain tests and distributes all of its taxable income in a taxation year to its Unitholders. The Trust is a flow-through vehicle and accounts for only income taxes pertaining to its corporate subsidiaries.

On November 24, 2025, the Trust's unitholders, approved an internal tax reorganization that was completed by way of a plan of arrangement (the "Arrangement"). The Arrangement simplified First Capital's organizational structure by eliminating First Capital Realty Inc. ("FCRI") as the Trust's wholly-owned corporate subsidiary (also a Mutual Fund Corporation) that owned, directly and indirectly, all of First Capital's real property portfolio. The Arrangement was completed and became effective on November 30, 2025.

Following the Arrangement, First Capital now holds substantially all of its real property portfolio through flow-through entities, namely subsidiary partnerships and trusts. The Trust continues to own a small number of properties through corporate subsidiaries. As a result, substantially all of the Trust's historical deferred tax liability was remeasured and the resulting deferred tax recovery was recognized in the consolidated statements of income (loss) and comprehensive income (loss) for the year ended December 31, 2025. Any deferred tax assets or liabilities that were originally recorded directly in other comprehensive income were remeasured through the same accounts following the tax reorganization. The REIT received an Advance Income Tax Ruling from the Canada Revenue Agency in connection with the Arrangement.

The sources of deferred tax balances and movements are as follows:

	December 31, 2024	Net income (loss)	Recognized in OCI	Equity and other	December 31, 2025
Deferred tax liabilities (assets) related to non-capital losses	\$ (87,313)	\$ 78,112	\$ —	\$ 1,165	\$ (8,036)
Deferred tax liabilities (assets) related to difference in tax and book basis primarily related to real estate, net	847,461	(841,533)	5,619	(2,606)	8,941
Net deferred tax liabilities (assets)	\$ 760,148	\$ (763,421)	\$ 5,619	\$ (1,441)	\$ 905

As at December 31, 2025, the corporate subsidiaries of the Trust had approximately \$30.5 million of non-capital losses, which expire between 2034 and 2045.

	December 31, 2023	Net income (loss)	Recognized in OCI	Equity and other	December 31, 2024
Deferred tax liabilities (assets) related to non-capital losses	\$ (76,945)	\$ (11,370)	\$ 164	\$ 838	\$ (87,313)
Deferred tax liabilities (assets) related to difference in tax and book basis primarily related to real estate, net	829,965	25,660	(7,221)	(943)	847,461
Net deferred tax liabilities (assets)	\$ 753,020	\$ 14,290	\$ (7,057)	\$ (105)	\$ 760,148

As at December 31, 2024, the corporate subsidiaries of the Trust had approximately \$232.2 million of non-capital losses, which expire between 2028 and 2044.

The following reconciles the expected tax expense computed at the statutory tax rate to the actual tax expense (recovery) for the years ended December 31, 2025 and 2024.

	Year ended December 31	
	2025	2024
Deferred income tax expense (recovery) applicable to corporate subsidiaries	\$ (8,937)	\$ 32,900
Deferred income tax recovery related to temporary differences associated with investment property applicable to corporate subsidiaries	(10,744)	(18,525)
Deferred income tax recovery related to remeasurement of temporary differences upon completion of Arrangement	(743,740)	—
Other	—	(85)
Deferred income tax expense (recovery)	\$ (763,421)	\$ 14,290

## 20. RISK MANAGEMENT

In the normal course of its business, First Capital is exposed to a number of risks that can affect its operating performance. Certain of these risks, and the actions taken to manage them, are as follows:

### (a) Interest rate risk

First Capital structures its financings so as to stagger the maturities of its debt, thereby mitigating its exposure to interest rate and other credit market fluctuations. A portion of FCR's mortgages, loans and credit facilities are floating rate instruments. From time to time, FCR may enter into interest rate swap contracts, bond forwards or other financial instruments to modify the interest rate profile of its outstanding debt or highly probable future debt issuances without an exchange of the underlying principal amount.

Interest represents a significant cost in financing the ownership of real property. As at December 31, 2025, First Capital has a total of \$161.1 million of outstanding debt bearing interest at variable rates on a consolidated basis. If the average variable interest rate was 100 basis points higher or lower than the existing rate, FCR's annual interest cost would increase or decrease, respectively, by \$1.6 million.

First Capital has a total of \$1.3 billion principal amount of fixed rate interest-bearing instruments outstanding including mortgages, senior unsecured debentures and unsecured term loans maturing between January 1, 2026 and December 31, 2028 at a weighted average coupon interest rate of 3.9%. If these amounts were refinanced at an average interest rate that was 100 basis points higher or lower than the existing rate, FCR's annual interest cost would increase or decrease, respectively, by \$12.5 million.

As at December 31, 2025, First Capital's loans and mortgages receivable that earn interest at variable rates total \$79.8 million. If the average variable interest rate was 100 basis points higher than the existing rate, FCR's annual interest income would increase by approximately \$0.8 million. If the loans were refinanced at 100 basis points lower than the existing rate, FCR's annual interest income would decrease by approximately \$0.1 million.

First Capital's loans and mortgages receivable that earn interest at fixed rates total \$34.2 million. If the loans were refinanced at 100 basis points higher or lower than the existing rate, FCR's annual interest income would increase or decrease, respectively, by approximately \$0.3 million.

### (b) Credit risk

Credit risk arises from the possibility that tenants and/or debtors may experience financial difficulty and be unable or unwilling to fulfill their lease commitments or loan obligations. First Capital mitigates the risk of credit loss from tenants by investing in well-located properties in urban markets that attract high quality tenants, ensuring that its tenant mix is diversified, and by limiting its exposure to any one tenant. As at December 31, 2025, Loblaw Companies Limited ("Loblaw") is FCR's largest tenant and accounts for 10.6% of FCR's annualized minimum rent and has an investment grade credit rating. Other than Loblaw, no other tenant accounts for more than 10% of the annualized minimum rent. A tenant's success over the term of its lease and its ability to fulfill its lease obligations is subject to many factors. There can be no assurance that a tenant will be able to fulfill all of its existing commitments and leases up to the expiry date. First Capital mitigates the risk of credit loss from debtors by undertaking a number of activities typical in lending arrangements including obtaining registered mortgages on the real estate properties.

First Capital's leases typically have lease terms between 5 and 20 years and may include clauses to enable periodic upward revision of the rental rates and lease contract extension at the option of the lessee.

Future minimum rentals receivable under non-cancellable operating leases as at December 31 are as follows:

<i>(thousands of dollars)</i>	<b>2025</b>
Within 1 year	\$ 427,773
After 1 year, but not more than 5 years	1,066,226
More than 5 years	598,512
	<b>\$ 2,092,511</b>

### (c) Liquidity risk

Real estate investments are relatively illiquid. This tends to limit First Capital's ability to sell components of its portfolio promptly in response to changing economic or investment conditions. If FCR were required to quickly liquidate its assets, there is a risk that it would realize sale proceeds of less than the current value of its real estate investments.

An analysis of First Capital's contractual maturities of its material financial liabilities and other contractual commitments as at December 31, 2025 is set out below:

As at December 31, 2025	Payments due by period					Total
	2026	2027 to 2028	2029 to 2030	Thereafter		
Scheduled mortgage principal amortization	\$ 30,425	\$ 56,899	\$ 34,431	\$ 16,121	\$ 137,876	
Mortgage principal repayments on maturity	94,360	217,449	426,835	304,554	1,043,198	
Credit facilities and bank indebtedness	223,683	80,253	208,046	—	511,982	
Senior unsecured debentures	—	700,000	200,000	1,400,000	2,300,000	
Interest obligations <sup>(1)</sup>	170,886	274,760	205,533	177,467	828,646	
Land leases (expiring between 2027 and 2061)	686	1,279	1,265	14,378	17,608	
Contractually committed costs to complete current development projects <sup>(2)</sup>	138,012	70,878	—	—	208,890	
Other committed costs	3,664	—	—	—	3,664	
<b>Total contractual obligations</b>	<b>\$ 661,716</b>	<b>\$ 1,401,518</b>	<b>\$ 1,076,110</b>	<b>\$ 1,912,520</b>	<b>\$ 5,051,864</b>	

<sup>(1)</sup> Interest obligations include expected interest payments on mortgages and credit facilities as at December 31, 2025 (assuming balances remain outstanding through to maturity) and senior unsecured debentures, as well as standby credit facility fees.

<sup>(2)</sup> Includes amounts related to equity accounted joint ventures.

First Capital manages its liquidity risk by staggering debt maturities; renegotiating expiring credit arrangements proactively; using secured and unsecured credit facilities, mortgages and unsecured debentures; and issuing equity when considered appropriate. As at December 31, 2025, there was \$0.4 billion (December 31, 2024 – \$0.6 billion) of cash advances drawn against First Capital's unsecured credit facilities.

In addition, as at December 31, 2025, First Capital had \$48.4 million (December 31, 2024 – \$31.4 million) of outstanding letters of credit issued by financial institutions primarily to support certain of FCR's contractual obligations and \$Nil (December 31, 2024 – \$Nil) of bank overdrafts.

### (d) Unit price risk

First Capital is exposed to Trust Unit price risk through the issuance of unit-based compensation. Unit-based compensation liabilities are recorded at their fair value based on market trading prices. Unit-based compensation negatively impacts net income when the Trust Unit price rises and positively impacts net income when the Trust Unit price declines. An increase of \$1 dollar in the underlying price of First Capital's Trust Units would result in an increase to unit-based compensation liabilities and a decrease to net income of \$3.7 million (December 31, 2024 – \$3.1 million).

## 21. FAIR VALUE MEASUREMENT

A comparison of the carrying amounts and fair values, by class, of First Capital's financial instruments, other than those whose carrying amounts approximate their fair values, is as follows:

	Note	Carrying Amount		Fair Value	
		2025	2024	2025	2024
<b>Financial assets</b>					
FVTPL investments in securities	5	\$ 3,557	\$ 3,246	\$ 3,557	\$ 3,246
Loans and mortgages receivable classified as amortized cost	5	121,165	95,835	121,417	95,658
Other investments	5	13,444	12,506	13,444	12,506
Derivatives at fair value	7	590	5,653	590	5,653
<b>Financial liabilities</b>					
Mortgages	9	\$ 1,178,037	\$ 1,243,786	\$ 1,162,965	\$ 1,219,510
Credit facilities	9	511,982	723,335	511,982	723,335
Senior unsecured debentures	10	2,291,591	2,094,992	2,347,709	2,131,837
Unit-based compensation plans	13	43,179	31,635	43,179	31,635
Derivatives at fair value	11	17,552	14,336	17,552	14,336

The fair values of First Capital's FVTPL investments in securities are based on quoted market prices. First Capital has investments in certain funds classified as Level 3, for which the fair values are based on the fair value of the properties held in the funds.

The fair value of First Capital's loans and mortgages receivable classified as Level 3 are calculated based on current market rates plus borrower level risk-adjusted spreads on discounted cash flows, adjusted for allowances for non-payment and collateral related risk. As at December 31, 2025, the risk-adjusted interest rates ranged from 4.3% to 14.5% (December 31, 2024 – 5.3% to 12.3%).

The fair value of First Capital's mortgages and credit facilities payable are calculated based on current market rates plus risk-adjusted spreads on discounted cash flows. As at December 31, 2025, these rates ranged from 3.7% to 4.8% (December 31, 2024 – 4.4% to 4.8%).

The fair value of the senior unsecured debentures are based on closing bid risk-adjusted spreads and current underlying Government of Canada bond yields on discounted cash flows. For the purpose of this calculation, the Trust uses, among others, interest rate quotations provided by financial institutions. As at December 31, 2025, these rates ranged from 2.9% to 4.8% (December 31, 2024 – 3.6% to 4.7%).

The fair value of the unit-based compensation plans are based on the following:

- *Unit Option Plan:* Fair value of each tranche is valued separately using a Black-Scholes option pricing model.
- *Deferred Units/Restricted Units:* Fair value is based on the Trust's closing price as of December 31, 2025.
- *Performance Units:* Fair Value is calculated using a Monte-Carlo simulation model.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS – continued

The fair value hierarchy of financial instruments in the consolidated balance sheets is as follows:

As at	December 31, 2025			December 31, 2024		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
<b>Fair value of financial instruments measured at fair value</b>						
<b>Financial Assets</b>						
FVTPL investments in securities	\$ 3,557	\$ —	\$ —	\$ 3,246	\$ —	\$ —
Other investments	—	—	13,444	—	—	12,506
Derivatives at fair value – assets	—	590	—	—	5,653	—
<b>Financial Liabilities</b>						
Unit-based compensation plans	—	43,179	—	—	31,635	—
Derivatives at fair value – liabilities	—	17,552	—	—	14,336	—
<b>Fair value of financial instruments measured at amortized cost</b>						
<b>Financial Assets</b>						
Loans and mortgages receivable	\$ —	\$ —	\$ 121,417	\$ —	\$ —	\$ 95,658
<b>Financial Liabilities</b>						
Mortgages	—	1,162,965	—	—	1,219,510	—
Credit facilities	—	511,982	—	—	723,335	—
Senior unsecured debentures	—	2,347,709	—	—	2,131,837	—

First Capital enters into derivative instruments including bond forward contracts, interest rate swaps and cross-currency swaps as part of its strategy for managing certain interest rate risks as well as currency risk in relation to movements in the Canadian to U.S. exchange rate. For those derivative instruments to which First Capital has applied hedge accounting, the change in fair value for the effective portion of the derivative is recorded in OCI from the date of designation. For those derivative instruments to which First Capital does not apply hedge accounting, the change in fair value is recognized in other gains (losses) and (expenses).

The fair value of derivative instruments is determined using present value forward pricing and swap calculations at interest rates that reflect current market conditions. The models also take into consideration the credit quality of counterparties, interest rate curves and forward rate curves. As at December 31, 2025, the interest rates ranged from 4.0% to 4.6% (December 31, 2024 – 4.5% to 5.3%). The fair values of First Capital's asset (liability) hedging instruments are as follows:

	Designated as Hedging Instrument	Maturity as at December 31, 2025	December 31, 2025	December 31, 2024
<b>Derivative assets</b>				
Interest rate swaps				
Interest rate swaps	Yes	January 2026 - March 2027	\$ 590	\$ 5,653
Total			\$ 590	\$ 5,653
<b>Derivative liabilities</b>				
Interest rate swaps				
Interest rate swaps	Yes	January 2029 - May 2034	\$ 10,722	\$ 13,114
Cross-currency swaps	No	October 2028	6,830	1,222
Total			\$ 17,552	\$ 14,336

## 22. SUBSIDIARIES WITH NON-CONTROLLING INTEREST

As at December 31, 2025, First Capital has interests in two entities that it controls and consolidates 100% of the assets, liabilities, revenues and expenses of each entity subject to a non-controlling interest.

Name of Entity	Primary Investment	Effective Ownership	
		December 31, 2025	December 31, 2024
Main and Main Developments LP ("MMLP")	46.875% Interest in MMUR <sup>(1)</sup>	<b>67.0%</b>	67.0%
Maincore Equities Inc.	46.875% Interest in MMUR <sup>(1)</sup>	<b>70.9%</b>	70.9%

<sup>(1)</sup> FCR has owned a 6.25% direct interest in M+M Realty LP ("MMUR") since 2014.

Non-controlling interest in the equity and the results of these subsidiaries, before any inter-company eliminations, are as follows:

As at	December 31, 2025	December 31, 2024
Non-current assets	\$ 248,996	\$ 224,341
Current assets	275	246
<b>Total assets</b>	<b>249,271</b>	224,587
Non-current liabilities	4,642	3,938
Current liabilities	17	3
<b>Total liabilities</b>	<b>4,659</b>	3,941
<b>Net assets</b>	<b>\$ 244,612</b>	\$ 220,646
<b>Non-controlling interest</b>	<b>\$ 75,504</b>	\$ 67,999

	Year ended December 31	
	2025	2024
Revenue	\$ 3	\$ 8
Share of profit (loss) from joint ventures	(9,062)	(4,618)
Expenses	(1,306)	(789)
Net income (loss)	\$ (10,365)	\$ (5,399)
<b>Non-controlling interest</b>	<b>\$ (3,134)</b>	\$ (1,687)

	Year ended December 31	
	2025	2024
Cash provided by (used in) operating activities	\$ (587)	\$ (660)
Cash provided by (used in) financing activities	16,519	10,846
Cash provided by (used in) investing activities	(15,905)	(10,146)
<b>Net increase (decrease) in cash and cash equivalents</b>	<b>\$ 27</b>	\$ 40

## 23. CO-OWNERSHIP INTERESTS

First Capital has co-ownership interests in several properties, as listed below, that are subject to joint control and represent joint operations under IFRS 11, *"Joint Arrangements"*. First Capital recognizes its share of the direct rights to the assets and obligations for the liabilities of these co-ownership interests in the consolidated financial statements.

Property	Location	Ownership Interest	
		December 31, 2025	December 31, 2024
101 Yorkville Avenue	Toronto, ON	50%	50%
102 Atlantic Avenue	Toronto, ON	50%	50%

**26. COMMITMENTS AND CONTINGENCIES**

- (a) First Capital is involved in litigation and claims which arise from time to time in the normal course of business. None of these contingencies, individually or in aggregate, would result in a liability that would have a significant adverse effect on the financial position of FCR.
- (b) First Capital is contingently liable, jointly and severally or as guarantor, for approximately \$159.6 million (December 31, 2024 – \$194.1 million) to various lenders in connection with certain third-party obligations, including, without limitation, loans advanced to its joint arrangement partners secured by the partners' interest in the joint arrangements and underlying assets.
- (c) First Capital is contingently liable by way of letters of credit in the amount of \$48.4 million (December 31, 2024 – \$31.4 million), issued by financial institutions on FCR's behalf in the ordinary course of business.
- (d) First Capital has obligations as lessee under long-term leases for land. Annual commitments under these ground leases are approximately \$0.7 million (December 31, 2024 – \$0.7 million) with a total obligation of \$17.6 million (December 31, 2024 – \$18.3 million).
- (e) First Capital has outstanding purchase and other capital commitments in the amount of \$212.6 million (December 31, 2024 – \$119.3 million).

## 27. RELATED PARTY TRANSACTIONS

### (a) Subsidiaries of the Trust
